Seven Going On Seventeen:

Seven Going on Seventeen Jacqueline Reid-Walsh, 2005 The tween is the new girl on the block in girlhood studies Although the study of tween life may have derived from a particular marketing orientation at the end of the twentieth century it is not limited by it On the contrary this collection of essays shows that tween is not a simple or unified concept nor is it limited to a certain class of girls in a few countries This collection by an international group of authors highlights specific methodologies for working with and studying tween age girls provides challenges to the presumed innocence of girlhood and engages in an analysis of marketing in relation to girlhood In so doing this book offers a reading on these three or four years in a girl's life that suggests that this period is as fascinating as the teen years and as generative in its implications for girlhood studies as studies of both younger and adolescent girls

Girlhood Jennifer Helgren, Colleen A. Puberty in Crisis Celia Roberts, 2015-08-07 Puberty has long been recognised as a difficult and upsetting process for individuals and families but it is now also being widely described as in crisis Reportedly occurring earlier and earlier as each decade of the twenty first century passes sexual development now heralds new forms of temporal trouble in which sexuality sex gender and reproduction are all at stake Many believe that children are growing up too fast and becoming sexual too early Clinicians parents and teachers all demand something must be done Does this out of time development indicate that children's futures are at risk or that we are entering a new era of environmental and social perturbation Engaging with a diverse range of contemporary feminist and social theories on the body biology and sex Celia Roberts urges us to refuse a discourse of crisis and to rethink puberty as a combination of biological psychological and social forces

Misfit Children Markus Bohlmann, 2016-12-14 Misfits are often confused with outcasts Yet misfits rather find themselves in between that which fits and that which does not This volume is interested in this slipperiness of misfits and explores the blockages and the promises of such movements as well as the processes and conditions that produce misfits the means that enable them to undo their denomination as misfits and the practices that turn those who fit into misfits and vice versa This collection of essays on misfit children produces transmissible motions across and engages in scholarly conversations that unfold betwixt and between in order to make rigid concepts twist and twirl and ultimately fail to fit

Tween Girls' Dressing and Young Femininity in Singapore Bernice Loh,2022-04-19 This book provides an insight into girls cultural identities and young femininities through an understanding of tween girls dressing in Singapore The book adopts a girl centred approach to shed light on the narratives and experiences of young Singaporean girls that have often been overlooked It draws on the conversations with young Singaporean girls aged 8 to 12 to understand how they wanted to dress from where they gained their inspiration and what the social factors were that influenced their dressing Through understanding how girls want to fashion themselves the book shows that it is imprecise to discuss issues based on the assumption that there is one dominant correct way to grow up

as a young person in Singapore This book unpacks how young Singaporean girls negotiate their cultural identities through clothing that do not simply conform to or reflect their roles as students It also shows how girlhood in Singapore is multifaceted and the values and meanings that tween girls attach to their dressing intersect at the personal social and cultural level The book offers new ways of approaching and looking at girls adult like dressing that move beyond the discourse of sexualisation In establishing a space for young Singaporean girls voices in an area that has been dominated by studies from the West this book also shows how the focus on tween girls in Asia can contribute to and advance the current state of girls studies
