Managing (e)Business Transformation Ali Farhoomand, M. Lynne Markus, Guy Gable, Shamza Khan, 2021-01-21 Managing e-Business Transformation comprises text and cases designed to show students how a business can be transformed into an internetworked enterprise where IT infrastructures are used to link customers, suppliers, partners, and employees to create superior economic value. The book is written based on the premise that integrating internet technologies throughout the value chain is crucial to building and managing customer relationships. Importantly, it underscores the centrality of basic business and economic principles within the context of a networked environment.
