The Arrow James Dow, 1997 Here is the fascinating story of the rise and fall of the Arrow the legendary interceptor jet aircraft developed by A V Roe Canada in the fifties The Arrow was an unprecedented success story for Canada's fledgling aviation industry It was conceived by its builders as the culmination of an impressive string of world firsts Faster than any previous aircraft it represented the leading edge of technology and an achievement of the highest calibre Then came the dramatic decision whose rationale was not made public at the time and which remains hard to fathom even today The Diefenbaker government cancelled the Arrow and everything was destroyed including the planes themselves Nothing was to remain Working from official documents archives interviews and a wide range of unofficial sources James Dow presents the authoritative story of A V Roe Canada and its projects He describes how the Arrow was developed and why it was killed Dow takes us behind the scenes to the real dynamics and rivalries which were a part of the Arrow from the beginning and which explain its fate This edition of the definitive book on the subject has been updated with a new introduction **Indian Antiquary**, 1883

DONALD DAVIDSON GILBERT HARMAN
EDITORIAL INTRODUCTION The success of linguistics in treating natural languages as formal syntactic systems has aroused the interest of a number of linguists in a parallel or related development of semantics For the most part quite independently many philosophers and logicians have recently been applying formal semantic methods to structures increasingly like natural languages While differences in training method and vocabulary tend to veil the fact philosophers and linguists are converging it seems on a common set of interrelated problems Since philosophers and linguists are working on the same or

very similar problems it would obviously be instructive to compare notes **Charlottesville Beer** Lee Graves, 2017-01-16
 Possibly the region's first craft brewer Thomas Jefferson grew hops and created his own small batch brews at his home at Monticello. His brewing however was only the beginning. Charlie Papazian got his start homebrewing at the University of Virginia and went on to become a founder of the craft brewing movement. The city was not spared the fervent debate over prohibition and the area went dry well in advance of the country in 1907. The Brew Ridge Trail set the standard for regional attractions focused on brewery destinations and sees thousands trek through the beautiful countryside enjoying libations. National award winning breweries like Devils Backbone, Starr Hill and Three Notch elevated Charlottesville to a center of craft beer. Author Lee Graves offers a history and guide to brewing in scenic Charlottesville *Going Native Or Going Naive?* Dagmar Wernitznig, 2003. *Going Native or Going Naive* is a critical analysis of an esoteric Indian movement called white shamanism. This movement originating from the 1980's New Age boom redefines the phenomenon of playing Indian. For white shamans and their followers, Indianness turns into a signifier for cultural cloning. By generating a neo-primitivistic bias, white shamanism utilizes esoteric reconceptualizations of ethnicity and identity. In *Going Native or Going Naive* a retrospective view on psychohistorical and sociopolitical implications of Indianness and its noble savage metaphors should clarify the prefix neo within postmodern adaptations of primitivism. The appropriation of an Indian simulacrum by white shamans as well as white shamanic disciplines connotes a subtle yet hazardous form of ethnocentrism. Transcending mere market trends and profit margins, white shamanism epitomizes synthetic cybernetic acculturations. Through investigating the white shamanic matrix, *Going Native or Going Naive* is intended to make these synthesizing processes more transparent.
