Fighting from Above Brian D. Laslie,2024-03-19 The story of the United States Air Force USAF stretches back to aerial operations prior to the First World War well before the USAF became a separate service and looks forward to a new era of airpower in space Fighting from Above presents a concise account of this expansive history offering a new perspective on how the air forces of the United States created an independent way of warfare over time From the earliest battles of the USAF s predecessor organizations to its modern incarnation Brian D Laslie identifies four distinct and observable ways of war that developed over four distinct epochs Beginning with the development of early air power 1906 1941 he highlights the

creation of roles and missions with bombardment theory and practice ascendant An era of strategic dominance 1942 1975 followed in which the ideas of strategic bombardment ruled the air force when such notions were unceremoniously proven false during the Vietnam era conflicts a period of tactical ascendancy 1975 2019 began Finally Laslie considers the current environment where much of the story of the USAF remains unwritten as it grapples with the prospects and challenges posed by drones and the U S Space Force While detailing combat operations Fighting from Above also pays close attention to technology politics rivalries logistics policy organization equipping and training Thorough concise and innovative in its approach it is an authoritative exceptionally readable history of the development of American airpower *U.S. Air Services*, 1949 *Congressional Record* United States. Congress, 1971 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 American Aviation, 1937 Issues for include Annual air transport progress issue The Oxford Companion to American Military History, Rise of the War Machines Raymond Patrick O'Mara, 2022-03-15 Rise of the War Machines The Birth of Precision Bombing in World War II examines the rise of autonomy in air warfare from the inception of powered flight through the first phase of the Combined Bomber Offensive in World War II Raymond P O Mara builds a conceptual model of humans machines and doctrine that demonstrates a distinctly new way of waging warfare in human machine teams Specifically O Mara examines how the U S Army's quest to control the complex technological and doctrinal system necessary to execute the strategic bombing mission led to the development of automation in warfare Rise of the War Machines further explores how the process of sharing both physical and cognitive control of the precision bombing system established distinct human machine teams with complex human to human and human to machine social relationships O Mara presents the precision bombing system as distinctly socio technical constructed of interdependent specially trained roles the pilot navigator and bombardier purpose built automated machines the Norden bombsight specialized navigation tools and the Minneapolis Honeywell C 1 Autopilot and the high altitude daylight bombing doctrine all of which mutually shaped each other's creation and use **Comparative History of Research and Development Policies Affecting Air Materiel, 1915-1944** Martin P.
