## Several Works Of Unknown Alchemistical Philosophers:

**Lives of alchemystical philosophers** Francis Barrett, 2022-09-12 Those unfamiliar with modern alchemical criticism even if they have some acquaintance with the mystical labyrinth of the turba philosophorum will probably learn with astonishment that the opinions of competent judges are divided not only upon the methods of the mysterious Hermetic science but upon the object of alchemy itself That it is concerned with transmutation is granted but with the transmutation of metals or of any physical substance into material gold is strenuously denied by a select section of reputable students of occultism The transcendental theory of alchemy which they expound is steadily gaining favour though the two text books which at present represent it are both out of print and both exceedingly scarce In the year 1850 A Suggestive Inquiry concerning the Hermetic Mystery and Alchemy being an attempt to recover the Ancient Experiment of Nature was published anonymously in London by a lady of high intellectual gifts but was almost immediately withdrawn for reasons unknown and which have given occasion in consequence to several idle speculations This curious and meritorious volume quaintly written in the manner of the last century originated the views which are in question and opened the controversy

Spiritual Alchemy Mike A. Zuber, 2021-10-06 Most professional historians see the relationship between pre modern and modern alchemy as one of discontinuity and contrast Mike A Zuber challenges this dominant understanding and explores aspects of alchemy that have been neglected by recent work in the

history of science The predominant focus on the scientific aspect of alchemy such as laboratory experiment practical techniques and material ingredients argues Zuber marginalizes the things that render alchemy so fascinating its rich and vivid imagery reliance on the medium of manuscript and complicated relationship with religion Spiritual Alchemy traces the early modern antecedents of modern alchemy through generations of followers of Jacob Boehme the cobbler and theosopher of Grlitz As Boehme's disciples down the generations including the Silesian nobleman Abraham von Franckenberg and the London based German immigrant Dionysius Andreas Freher among others studied his writings they drew on his spiritual alchemy adapted it and communicated it to their contemporaries Spiritual alchemy combines traditional elements of alchemical literature with Christian mysticism Defying the boundaries between science and religion this combination was transmitted from Grlitz ultimately to England In 1850 it inspired a young woman later known as Mary Anne Atwood to write her *Suggestive Inquiry into the Hermetic Mystery* usually seen as the first modern interpretation of alchemy Drawing extensively on manuscript or otherwise obscure sources Zuber documents continuity between pre modern and modern forms of alchemy while exploring this hybrid phenomenon **Nature London** ,1873
