# Sex And Pregnancy In Adolescence Library Of Social Research Vol 133

**SA Adler**

### **Sex And Pregnancy In Adolescence Library Of Social Research Vol 133:**

**Sex Equity and Sexuality in Education** Susan Shurberg Klein, 1992-08-17 Neither sex equity nor sexuality are new topics to educators but little attention has been given to their combination This book identifies critical issues that researchers reformers and educators have failed to address publicly The authors show that it is necessary for educators to increase their understanding of ways that sex education can be sex equitable and ways that sexuality contributes to sex inequities in general education The book covers sexuality issues of special concern to minority disabled and homosexual students latchkey children and early parents The discussions show why it is important to break the barriers of silence confusion and disunity to enable females and males of all ages to receive equal opportunities and outcomes in and through education

*Adolescents* Inger P. Davis, 2012-12-06 This book deals with ways of helping families cope with the difficulty of raising adolescents Professional social workers along with other human service professionals encounter these families in numerous settings child welfare and family service agencies hospitals schools community mental health clinics residential treatment centers juvenile halls and detention centers recreational and vocational training organizations and many others While families from all walks of life may be found in these settings families who have suffered the additional stresses of poverty discrimination and the consequences of physical and mental illness are commonly overrepresented Even under the best of circumstances the adolescent years often put the strongest family structures to the test sometimes to the breaking point A recent national study of over one thousand average middle income two parent families reviewed the strengths stresses and satisfactions of the family life cycle Olson and McCubbin 1983 As many would expect families with adolescents were found to experience more stress and lower levels of family adaptability cohesion and marital and family satisfaction than any other developmental stage The families with adolescents who fared best were those with such marital resources as good communication and conflict resolution skills satisfying sexual relations and good parent adolescent communication

*School-age Pregnancy and Parenthood* Jane Beckman Lancaster, Beatrix A. Hamburg, This important work examines in detail and depth how as a consequence of changing technologies diet patterns of reproduction and work relations between children and parents have altered The editors and contributors hold that biosocial science is particularly relevant to research on human family systems and parenting behavior The family is the universal social institution in which the care of children is based and the turf where cultural tradition beliefs and values are transmitted to the young as they fulfill their biological potential for growth development and reproduction The biosocial perspective takes into account the biological substratum and the social environment as critical co determinants of behavior and pinpoints areas in which contemporary human parental behavior exhibits continuities with and departures from patterns evident throughout history This work crosses disciplinary lines without ignoring their relevance to the broader themes of the book School age pregnancy and parenthood is a powerful anchor for the dissection of large scale issues The contributors deal in turn with ethnic and historical experience

examine normative and ethical issues and cast new light on methodological concerns What the editors call culturally defined responses to basic needs helps explain both dramatic improvements in this area and how they expand the challenge of teen reproduction Contributors emphasize new demands for training and education to research this growing phenomenon The book contributes to humane concerns as well as the scientific imagination Jane B Lancaster is professor of anthropology at the University of New Mexico She serves as editor of a major journal in the field Human Nature An Interdisciplinary Biosocial Perspective She also edited two related volumes Child Abuse and Neglect 1987 Parenting across Life Span 1987 Beatrix A Hamburg is at the Mount Sinai School of Medicine in New York in the field of Child and Adolescent Psychiatry She is recipient of the Gallagher Award for Outstanding Achievement in Adolescent Medicine and the Distinguished Service Award from the Alcohol Drug Abuse and Mental Health Administration and edits Behavioral and Psychosocial Issues in Diabetes

*Health Policies and Black Americans* David P. Willis, 1989-01-01 Demography and epidemiology sociology and economics political science and policy analysis are all brought to bear in this rigorous yet fair minded examination an excellent timely and useful volume Paul D Stolley University of Pennsylvania

**School-age Pregnancy and Parenthood** Beatrix A. Hamburg, 2017-07-28 This important work examines in detail and depth how as a consequence of changing technologies diet patterns of reproduction and work relations between children and parents have altered The editors and contributors hold that biosocial science is particularly relevant to research on human family systems and parenting behavior The family is the universal social institution in which the care of children is based and the turf where cultural tradition beliefs and values are transmitted to the young as they fulfill their biological potential for growth development and reproduction The biosocial perspective takes into account the biological substratum and the social environment as critical co determinants of behavior and pinpoints areas in which contemporary human parental behavior exhibits continuities with and departures from patterns evident throughout history This work crosses disciplinary lines without ignoring their relevance to the broader themes of the book School age pregnancy and parenthood is a powerful anchor for the dissection of large scale issues The contributors deal in turn with ethnic and historical experience examine normative and ethical issues and cast new light on methodological concerns What the editors call culturally defined responses to basic needs helps explain both dramatic improvements in this area and how they expand the challenge of teen reproduction Contributors emphasize new demands for training and education to research this growing phenomenon The book contributes to humane concerns as well as the scientific imagination

**Essays on the Family and Historical Change** David Levine, 1983 In recent years a growing number of scholars have used the family as a prism through which to view historical change The ways in which people cope with their world have always been reflected in familial decisions Thus a focus on the family has allowed historians the clearest view of the dynamic relationship between the people of the past and the evolution of society and the economy These five essays combine the economics and values of the family two elements whose separation has been an impediment to our best

understanding of its history The ways in which people cope with their circumstances have always been reflected in familial decisions These five essays combine the economics and values of the family      Women at Risk Ann O'Leary, PhD, Loretta Sweet Jemmott, 2013-06-29 AIDS is the fourth leading cause of death among women of childbearing age and is increasing by about 8% a year in this group And yet our understanding of the impact of HIV and AIDS on women's lives remains fragmented and incomplete After a decade of struggling with mounting surveys of risk behavior clinical trials and behavioral interventions that were based primarily on experience with gay communities in large cities and subsequently on the needs of injection drug users we have not given programs for women the attention they require if they are to be meaningful effective and gender appropriate This book will introduce the reader to the range of complex issues of HIV and AIDS in women's lives Ann O'Leary and Loretta Sweet Jemmott have assembled an impressive list of authors who have contributed chapters from different disciplinary viewpoints The reader will find information on prevention programs that have been effective for adolescent girls on culturally specific strategies for African American and Latina women and on the multiple issues of substance use and HIV that need to be faced by any outreach and intervention programs for drug using women      **Sexual Attitudes and Behaviours**, 1989 This bibliography and review of the literature on sexual behaviors and attitudes toward sexual behavior was developed to contribute to an understanding of changes in attitudes toward sexual behaviors and in community patterns of sexual behaviors and to assist in the development of Acquired Immune Deficiency Syndrome AIDS education programs It reports on Australian and major overseas studies describing community patterns of sexual behavior with special reference to the period since 1978 It includes a review and analysis of the results of these studies and reports on the reliability and validity of survey results Comments are made concerning the implications of the survey results for AIDS prevention and community education strategies and programs for both the general community and specific subgroups intravenous drug users bisexual and homosexual males and adolescents Sources for the information in this review include commercial polls and sample surveys work commissioned by governments and their agencies studies by voluntary agencies and academic studies Individual sections of the review focus on 1 patterns of sexual behavior from the Kinsey reports of 1948 and 1953 to the 1970s 2 patterns of sexual behavior found in Australia studies between 1980 and 1988 3 cohabitation 4 heterosexual adolescents and the risk of human immunodeficiency virus infection 5 intravenous drug users AIDS and behavior change 6 the arrival of AIDS and patterns of homosexual behavior 7 behavioral changes in the homosexual community in response to the threat of AIDS 8 research methodologies and 9 a summary of findings A 29 page bibliography is included NB      Adolescent Reproductive Behaviour: Evidence from developed countries United Nations. Department of International Economic and Social Affairs, 1988      Destinies of the Disadvantaged Frank F. Furstenberg, 2007-11-15 Teen childbearing has risen to frighteningly high levels over the last four decades jeopardizing the life chances of young parents and their offspring alike particularly among minority communities Or at least that's what politicians on the right and left

often tell us and what the American public largely believes But sociologist Frank Furstenberg argues that the conventional wisdom distorts reality In *Destinies of the Disadvantaged* Furstenberg traces the history of public concern over teen pregnancy exploring why this topic has become so politically powerful and so misunderstood Based on over forty years of Furstenberg's research on teen childbearing *Destinies of the Disadvantaged* relates how the issue emerged from obscurity to become one of the most heated social controversies in America Both slipshod research by social scientists and opportunistic grandstanding by politicians have contributed to public misunderstanding of the issue Although out of wedlock teen pregnancy rose notably between 1960 and 1990 a cause for concern given the burdens of single motherhood at a young age this trend did not reflect a rise in the rate of overall teen pregnancies In fact teen pregnancy actually declined dramatically in the 1960s and 1970s The number of unmarried teenage mothers rose after 1960 not because more young women became pregnant but because those who did increasingly chose not to rush into marriage Furstenberg shows how early social science research on this topic exaggerated the adverse consequences of early parenthood both for young parents and for their children Researchers also inaccurately portrayed single teenage motherhood as a phenomenon concentrated among minorities Both of these misapprehensions skewed subsequent political debates The issue became a public obsession and remained so during the 1990s even as rates of out of wedlock teen childbearing plummeted Addressing teen pregnancy was originally a liberal cause led by advocates of family planning services legalized abortion and social welfare programs for single mothers The issue was later adopted by conservatives who argued that those liberal remedies were encouraging teen parenthood According to Furstenberg the flexible political usefulness of the issue explains its hold on political discourse The politics of teen parenthood is a fascinating case study in the abuse of social science for political ends In *Destinies of the Disadvantaged* Furstenberg brings that tale to life with the perspective of a historian and the insight of an insider and provides the straight facts needed to craft effective policies to address teen pregnancy
