Sex From The Inside Out:

Relationships from the InsideOut Kim Olver,2008-07-24 A fifteen 15 page document loaded with helpful tips on how to improve your relationship with the significant people in your life Create more intimacy and romance Learn how to communicate more effectively build trust and respect *Taking Sexy Back* Alexandra H. Solomon,2020-02-02 For women sex has been hijacked Today s sexual climate leaves little to no space for honoring the complexities of sex sex as pleasure sex as connection sex as creative expression and sex as healing In *Taking Sexy Back* relationship expert Alexandra Solomon shows women that they are more than just sexy objects of someone else s desire and offers real tools to help women explore their own sexuality communicate their needs draw boundaries to be safe and build the satisfying relationships they truly want Visible Women Susan James,Stephanie Palmer,2002-02 How should feminist theories conceive of the subject What is it to be a legal person What part does embodiment play in subjectivity Can there be a conception of rights which does justice to the social contexts in which rights claims are embedded Is the way the law constitutes legal subjects a form of violence These questions lie at the heart of contemporary feminist theory and in this collection they are addressed by a group of distinguished international scholars working in law philosophy and politics The volume in which the concerns of one author are taken up by others advances current debate on two interconnected levels First it contains original and ground breaking discussions of the questions raised above At the same time it contains a more reflexive strand of argument about the intellectual resources available to feminist thinkers and the advantages and dangers of borrowing from non feminist traditions of thought It thus provides an exceptionally rich examination of contemporary legal and political feminist theory

Wapner,2005-04-29 Take an apple and cut it into five pieces Would you believe that these five pieces can be reassembled in such a fashion so as to create two apples equal in shape and size to the original Would you believe that you could make something as large as the sun by breaking a pea into a finite number of pieces and putting it back together again Neither did Leonard Wapner author of *The Pea and the Sun* when he was first introduced to the Banach Tarski paradox which asserts exactly such a notion Written in an engaging style *The Pea and the Sun* catalogues the people events and mathematics that contributed to the discovery of Banach and Tarski s magical paradox Wapner makes one of the most interesting problems of advanced mathematics accessible to the non mathematician **Fleshing Out America** Carolyn Sorisio,2002-12-01 Can we work through the imaginative space of literature to combat the divisive nature of the politics of the body That is the central question asked of the writings Carolyn Sorisio investigates in *Fleshing Out America* The first half of the nineteenth century ushered in an era of powerful scientific and quasi scientific disciplines that assumed innate differences between the types of humankind Some proponents of slavery and Indian Removal as well as opponents of women s rights supplanted the

Declaration of Independence's higher law of inborn equality with a new set of laws proclaiming the physical inferiority of women, Negroes and Aborigines. *Fleshing Out America* explores the representation of the body in the work of seven authors all of whom were involved with their era's reform movements: Lydia Maria Child, Frances E. W. Harper, Ralph Waldo Emerson, Margaret Fuller, Walt Whitman, Harriet Jacobs, and Martin R. Delany. For such American writers who connected the individual body symbolically with the body politic, the new science was fraught with possibility and peril. Covering topics from representation, spectatorship, and essentialism to difference, power, and authority, Carolyn Sorisio places these writers' works in historical context and in relation to contemporary theories of corporeality. She shows how these authors struggled in diverse and divergent ways to flesh out America to define even defend the nation's body in a tumultuous period. Drawing on Euro and African American authors of both genders who are notable for their aesthetic and political differences, *Fleshing Out America* demonstrates the surprisingly diverse literary conversation taking place as American authors attempted to reshape the politics of the body which shaped the politics of the time.

Torn Sprockets Gerald Pratley, 1987 The history of Canadian filmmaking is a fascinating topic and in this book the author takes the reader through the early years of the twentieth century when Hollywood monopolized the industry. Edison's Kinetoscope enthralled the public and motion picture exhibitions swept across Canada.

Mother Camp Esther Newton, 1979-05-15 For two years Ester Newton did field research in the world of drag queens: homosexual men who make a living impersonating women. Newton spent time in the noisy bars, the chaotic dressing rooms, and the cheap apartments and hotels that make up the lives of drag queens, interviewing informants whose trust she had earned and compiling a lively first-hand ethnographic account of the culture of female impersonators. *Mother Camp* explores the distinctions that drag queens make among themselves as performers, the various kinds of night clubs and acts they depend on for a living, and the social organization of their work. A major part of the book deals with the symbolic geography of male and female styles as enacted in the homosexual concept of drag, sex role transformation, and camp, an important humor system cultivated by the drag queens themselves. Newton's fascinating book shows how study of the extraordinary can brilliantly illuminate the ordinary: that social sexual division of personality, appearance, and activity we usually take for granted.

Montaigne's Unruly Brood Richard L. Regosin,2023-04-28 Perhaps as old as writing itself the metaphor of the book as child has depicted textuality as an only son conceived to represent its father uniformly and to assure the integrity of his name Richard L Regosin demonstrates how Montaigne s *Essais* both departs from and challenges this conventional figure of textuality He argues that Montaigne s writing is best described as a corpus of siblings with multiple faces and competing voices a hybrid textuality inclined both to truth and dissimulation to faithfulness and betrayal to form and deformation And he analyzes how this unruly mixed brood also discloses a sexuality and gender dynamic in the *Essais* that is more conflicted than the traditional metaphor of literary paternity allows Regosin challenges traditional critics by showing how the logic of a faithful filial text is disrupted and how the writing self displaces the author s desire for mastery and totalization He approaches the *Essais* from diverse critical and theoretical perspectives that provide new ground for understanding both Montaigne s complex textuality and the obtrusive reading that it simultaneously invites and resists His analysis is informed by poststructuralist criticism by reception theory and by gender and feminist studies yet at the same time he treats the *Essais* as a child of sixteenth century Humanism and late Renaissance France Regosin also examines Montaigne s self proclaimed taste for Ovid and the role played by the seminal texts of self representation and aesthetic conception Narcissus and Pygmalion and the myth of sexual metamorphosis Iphis This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1966

The One-Sex Body on Trial: The Classical and Early Modern Evidence Helen King,2016-02-17 By far the most influential work on the history of the body across a wide range of academic disciplines remains that of Thomas Laqueur This book puts on trial the one sex two sex model of Laqueur s *Making Sex* Body and Gender from the Greeks to Freud through a detailed exploration of the ways in which two classical stories of sexual difference were told retold and remade from the mid sixteenth to the nineteenth century Agnodike the first midwife who disguises herself as a man and then exposes herself to her potential patients and Phaethousa who grows a beard after her husband leaves her are stories from the ancient world that resonated in the early modern period in particular Tracing the reception of these tales shows how they provided continuity despite considerable change in medicine being the common property of those on different sides of professional disputes about women s roles in both medicine and midwifery The study reveals how different genres used these stories changing their characters and plots but always invoking the authority of the classics in discussions of sexual identity The study raises

important questions about the nature of medical knowledge the relationship between texts and observation and the understanding of sexual difference in the early modern world beyond the one sex model
