

are as susceptible to such suggestion as the boys and girls who crowd into our libraries.

It is easy to understand why there is a predominance of stories in this list which are written with the definite purpose of developing the theme of youth problems and how they are met by the particular heroes and heroines in these books. I would like to see some of these acceptable but commonplace books replaced by others which adhere to the same fundamental principles of behavior but which have, at the same time, more spontaneity, more penetrating insight into human character and more outstanding literary qualities. A particular instance may help to illustrate this point. Experience in using McNeely's "Jumping-off Place" and Ransome's "We didn't mean to go to sea" with children has shown that they read both books with equal enthusiasm and enjoyment. These two stories have several things that are similar about their themes. Both tell a story of children under conditions which require endurance and courage: both meet their difficulties with fortitude and ingenuity. But the living qualities in the characterization, style and conception of the Ransome book will bring a child into closer contact with the basic problems of life than the somewhat self-conscious idealism of "The Jumping-off Place." If children, whose judgments and tastes are still unformed, read these two books with equal pleasure, I would like to see that they have an opportunity of becoming familiar with more books which are of the calibre of "We didn't mean to go to sea." It is not the social background of children that provides a barrier to literary appreciation but a lack of familiarity and encouragement to read the best things while their minds are still flexible and able to be influenced. The national emphasis in the book selection would limit the usefulness of the list outside of the United States but it is easy to see why the committee felt this was a wise choice of subject, and it has a definite value to the children for whom this list was designed.

On the practical side I would recommend separating informational material on people and places from information on things to do. These are not interests which go hand in hand and in a list of this kind the choice of books on hobbies, and simple practical science is most important.

The experiment is an interesting one from the point of view of the psychologist as well as the librarian. I like especially the broad outlook of the committee and their evident freedom from prejudice. The usefulness of the list would seem to be assured by the flexible attitude of the committee toward the experiment in general and toward the list in particular, and it is this attitude which will bring about the best and most permanent results.

LILLIAN H. SMITH,
The Public Library of Toronto.

THE NOVEL OF ADOLESCENCE IN FRANCE; THE STUDY OF A LITERARY THEME.
By Justin O'Brien, Ph.B., A.M., Ph.D. (New York: Columbia University Press, 1937.)

"Literature," said Matthew Arnold, "is the criticism of life." Perhaps in most instances literature is a phase of life, especially if it is agreed with

Novel Of Adolescence In France A Study O

Karen L. Taylor

Novel Of Adolescence In France A Study O:

The Novel of Adolescence in France. The Study of a Literary Theme Justin O'Brien, 1937 A World Apart Beth W. Gale, 2010 Many of the novels analyzed in this study enjoyed mitigated success in France when they were first published and are all but forgotten today Societal conditions gave female writers secondary status and repressed the expression of subversive ideas regarding young women These novels mark the birth of French interest in the documentation and shaping of young female experience through literature Literary portrayals of the unique space of female adolescence reveal hopes and fears concerning the future gender relations social institutions and a country's place in the world **The Novel of Adolescence in France** Justin O'Brien (Letteratura francese), 1937 A Reference Guide for English Studies Michael J. Marcuse, 2023-11-15 **The Adolescent in the American Novel, 1920-1960** W. Tasker Witham, 1964 A guide to the literature of adolescence mirroring the changing attitudes of novelist from the genteel tradition to the new era of frankness For students of literature sociologists teachers clergymen parents librarians **The English Catalogue of Books Published from January, 1835, to January, 1863**, 1864 **Téodor de Wyzewa** Elga Liverman Duval, 1961 *Sexing the Citizen* Judith Surkis, 2018-07-05 How did marriage come to be seen as the foundation and guarantee of social stability in Third Republic France In *Sexing the Citizen* Judith Surkis shows how masculine sexuality became central to the making of a republican social order Marriage Surkis argues affirmed the citizen's masculinity while also containing and controlling his desires This ideal offered a specific response to the problems individualism democratization and rapid technological and social change associated with France's modernity This rich wide ranging cultural and intellectual history provides important new insights into how concerns about sexuality shaped the Third Republic's pedagogical projects Educators political reformers novelists academics and medical professionals enshrined marriage as the key to eliminating the risks of social and sexual deviance posed by men especially adolescents bachelors bureaucrats soldiers and colonial subjects Debates on education reform and venereal disease reveal how seriously the social policies of the Third Republic took the need to control the unstable aspects of male sexuality Surkis's compelling analyses of republican moral philosophy and Emile Durkheim's sociology illustrate the cultural weight of these concerns and provide an original account of modern French thinking about society More broadly *Sexing the Citizen* illuminates how sexual norms continue to shape the meaning of citizenship

Catalog of Copyright Entries, Third Series Library of Congress. Copyright Office, 1965 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc **The Adolescent in the Novels of François Mauriac** Wade Arden Provo, 1964 Genius in France Ann Jefferson, 2014-12-21 This engaging book spans three centuries to provide the first full account of the long and diverse history of genius in France Exploring a wide range of examples from literature philosophy and history as well as medicine

psychology and journalism Ann Jefferson examines the ways in which the idea of genius has been ceaselessly reflected on and redefined through its uses in these different contexts She traces its varying fortunes through the madness and imposture with which genius is often associated and through the observations of those who determine its presence in others Jefferson considers the modern beginnings of genius in eighteenth century aesthetics and the works of philosophes such as Diderot She then investigates the nineteenth century notion of national and collective genius the self appointed role of Romantic poets as misunderstood geniuses the recurrent obsession with failed genius in the realist novels of writers like Balzac and Zola the contested category of female genius and the medical literature that viewed genius as a form of pathology She shows how twentieth century views of genius narrowed through its association with IQ and child prodigies and she discusses the different ways major theorists including Sartre Barthes Derrida and Kristeva have repudiated and subsequently revived the concept Rich in narrative detail *Genius in France* brings a fresh approach to French intellectual and cultural history and to the burgeoning field of genius studies

Performing the Pied-Noir Family Aoife Connolly, 2020-10-16 The impact of the Algerian War 1954 1962 continues to resonate in France where the subject was long repressed in the collective psyche This book sheds new light on a memory community at the heart of the conflict the million European settlers known as the *Pieds noirs* who migrated to France as the war reached its bloody end Aoife Connolly draws on theories of performativity to explore autobiographical and fictional narratives by the settlers in over 30 canonical and non canonical works of literature and film produced from the colony s imminent demise up to the present day Connolly focuses on renewed attachment to the family in exile in a comprehensive analysis of settler masculinity femininity childhood and adolescence that uncovers neglected representations including homosexual and Jewish voices Findings on the construction of a post independence identity and collective memory have broader implications for communities affected by colonization and migration Scholars of French Studies Postcolonial Studies Cultural Studies Gender and Identity Studies Memory Studies and Migration Studies will find this book particularly useful

Victims of the Book Francois Proulx, 2019-11-04 *Victims of the Book* uncovers a long neglected but once widespread subgenre the *fin de siècle* novel of formation in France In the final decades of the nineteenth century social commentators insistently characterized excessive reading as an emasculating illness that afflicted French youth Novels about and geared toward adolescent male readers were imbued with a deep worry over young Frenchmen s masculinity as evidenced by titles like *Crise de jeunesse* Youth in Crisis 1897 *La Crise virile* Crisis of Virility 1898 *La Vie stérile* A Sterile Life 1892 and *La Mortelle Impuissance* Deadly Impotence 1903 In this book Francois Proulx examines a wide panorama of these novels as well as polemical essays pedagogical articles and medical treatises on the perceived threats posed by young Frenchmen s reading habits *Fin de siècle* writers responded to this pathologization of reading with a profusion of novels addressed to young male readers paradoxically proposing their own novels as potential cures In the early twentieth century this corpus was critically revisited by a new generation of writers *Victims of the Book* shows how Andr

Gide and Marcel Proust in particular reworked the fin de siècle paradox to subvert cultural norms about literature and masculinity proposing instead a queer pact between writer and reader *Growing Up in France* Colin Heywood, 2007-02-15

How did French people write about their childhood between the 1760s and the 1930s *Books Abroad*, 1927 The Publishers Weekly, 1923 The End of Youth Robert Gibson, 2005

For over half a century Robert Gibson has published extensively on Alain Fournier's life and work and is now acknowledged as the leading authority on this subject in the English speaking world His previous book on Fournier *The Land Without a Name* was widely praised In the thirty years since this was published much new material has come to light This includes biographical and photographic material about the two great loves of Fournier's life the hitherto elusive Yvonne de Quiivrecourt and Simone the leading boulevard actress of her day a host of letters to and from Fournier's friends and fellow writers a substantial compilation of his work as a prolific literary gossip columnist the complete drafts of his second novel and the plays left unfinished when he went off to the war in 1914 and finally his body unearthed in the woods near Verdun where it had lain undetected for three quarters of a century In the light of all this Gibson now provides a re appraisal of Fournier's complex love life his undervalued career as a journalist a re examination of the long and complicated genesis of *Le Grand Meaulnes* the fullest analysis in any language of all his poetry and prose together with an authoritative overview of the remarkable range of critical interpretations to which his haunting masterpiece has been subject The result is a compelling piece of literary detective work and a human story sensitively and movingly told Lavishly illustrated this is a book which will appeal both to the serious scholar and the general reader *The Facts on File Companion to the French Novel* Karen L. Taylor, 2006

French novels such as *Madame Bovary* and *The Stranger* are staples of high school and college literature courses This work provides coverage of the French novel since its origins in the 16th century with an emphasis on novels most commonly studied in high school and college courses in world literature and in French culture and civilization **The National Union Catalogs, 1963-**, 1964 **André Gide** Patrick Pollard, 1991-01-01

Andre Gide renowned French essayist novelist and playwright was also a homosexual apologist whose sexuality was central to the whole of his literary and political discourse This book by Patrick Pollard the first serious study of homosexuality in Gide's theater and fiction analyzes his ideas and traces the philosophical anthropological scientific and literary movements that influenced his thought Pollard begins by discussing *Corydon* a defense of pederasty that Gide felt was his most important book He then provided a historical and analytical survey of books that contributed to Gide's perception of homosexuality including works on philosophy social theory natural history and medicolegal questions Pollard goes on to investigate works of fiction ancient and modern European and Oriental in which Gide saw homosexual elements He concludes by considering the homosexual themes in Gide's own works analyzing the ways that Gide constantly tried to resolve conflicts between nature and culture hypocrisy and honesty corruption and sound moral judgment anomaly and conformity and sexual freedom and religious constraint The book provides a new perspective on Gide's work a reconstruction

of the moral and intellectual climate in Europe at the beginning of the twentieth century and a substantial contribution to the cultural history of homosexuality
