Soviet 2nd and 3rd Ukrainian Fronts and Romanian attackers The operations to take the city ran across several phases from the initial Soviet approach to Budapest commencing in late October 1944 through the encirclement of city first on the Pest side of the Danube and then on the Buda bank and on to the savage urban fighting that began in December 1944 for the Hungarian capital This superbly detailed work analyses the background chronology and consequences of the siege from both a military and political perspective and documents the huge losses in military and civilian casualties and material damage
