Abstract: The crisis of development in Nigeria has been an ugly state of the nation over the decades. Stringent economic and political conditions characterizing the period put the lives of most Nigerians in serious jeopardy. Hence, the paper examined ethnic reactions to the crisis of development presented in form of agitations for restructuring Nigeria. The target is to interrogate the underlying forces perpetuating the crisis and the resultant agitations informed by the stringent socio-economic and political conditions of the people. The paper is descriptive as well as qualitative in typology. Methodology relied on the analysis of published data and anchored on the Marxist political economy of international capitalism for an explanation. Findings showed that colonial centralization of Nigerian state power lingered into the post-independence era and developed an ideology that neo-international capitalism in Nigeria without committed effort to development. The government's failure to control corruption, illegal accumulation, insecurity, and the arbitrary use of state power resulted in the undesirable conditions of life and ethnic clamour for restructuring. Those haunted by this present situation clamour for restructuring. Others who felt they are favoured by the system are jockey for a change. A workable option for a stable and prosperous Nigeria finds better expression in the re-federalisation of the polity. Re-federalisation requires committed efforts to basic federating principles and practices.

Keywords: Development, Crisis of Development, Ethnicity, Ethnic Agitation, Restructuring

1. Introduction

The crisis of development in Nigeria and ethnic agitations found their roots in the underlying colonial economic motives and the accompanying neglect for domestic development by colonial and post-independent regimes. The situation was reinforced by the post-independence militarization of the polity and the attendant erosion of human and material resources by successive governments. Colonial character in Nigeria lingered into the post-colonial era and development was not on the agenda (Ake, 2009). Ethnic imperialism in Nigeria was re/instated by the 1955 Berlin Conference that divided Africa, from the Sahel to the Atlantic Sea, to the United Kingdom as British Crown Territory, Nigeria areas inclusive. Thus, the British Government colonized Nigerian areas and centralized state power in the colony'. Russell, at 1956 All Nigerian Constitutional Conference Houston, delegates in their wisdom adopted the federal system of government for the country (Olatun, 2017). But January 1966 coup marked the beginning of military intervention in Nigerian politics and the attendant dismantling of the regional structure, states created and restoration of state power (Obi-Azu & Obi-Azu, 2006).

The attendant implications and adverse conditions resulting from the situation remain the tragedy of life in this present-day Nigeria. The effects stripped Nigerians the opportunity and freedom to choose and aspire for the courses of life they desire to live. Self-determination and development became unsustainable as the over-powerful central governments always controlled persons and resources, and used force to tame opposition. The situation is politically and economically structural and has been of age. With the fall in crude oil price, lack of productive and export capacity, high-level corruption, mismanagement, and leadership ineptitude, government, people's living condition worsened.

From the beginning, Nigerian National Development Plans lacked a domestic foundation to succeed. They were imperial packages for explanation, deceptive political propaganda and plans without domestic vision. As such, the attendant effect of failure to development manifested in hunger, poverty, corruption, mass murder, unemployment, crime, insecurity, terrorism etcetera.

Democracy and

Post-Communism Graeme Gill, 2003-08-27 The collapse of communism was widely heralded as the dawn of democracy across the former Soviet region. However, the political outcome has been much less uniform. The post-communist states have developed political systems from democracy to dictatorship. Using examples and empirical data collected from twenty-six former Soviet states, Graeme Gill provides a detailed comparative analysis of the core issues of regime change, the creation of civil society, economic reform, and the changing nature of post-communism. Within these individual cases, it becomes clear that political outcomes have not been arbitrary but directly reflect the circumstances surrounding the birth of independence. Students of Comparative Politics, International Relations, and Russian and Post-Soviet Studies should find this book essential reading.

Future Survey Annual 1991 Michael Marien, 1991-01-01 Military Implications of START I and START II United States. Congress. Senate. Committee on Armed Services, 1993 **Swords & Ploughshares**, 1997 **Personalism and Personalist Regimes** Alex Baturo, Luca Anceschi, Francesco Cavatorta, 2024-05-10 Personalist leaders such as Russia's Vladimir Putin, Belarus's Alexander Lukashenko, or Venezuela's Nicol's Maduro are increasingly prominent players in the international landscape. Their motivations and policies, however, are poorly understood. The regimes they lead are difficult to examine mostly because of their most defining feature: an inordinate concentration of power in the hands of one single individual. Yet personalist leaders do not rule alone; even if they do not always govern through institutional channels. How do personalist regimes really work? How do their rulers acquire and maintain personal control? How does contemporary personal rule differ from how it was practised during the Cold War? These are the key questions addressed in *Personalism and Personalist Regimes*, which offers a systematic examination of the logic of personalism or personalist rule, tackling comprehensively the study of personalist leaders and personalist regimes. The book is underpinned by a theoretical framework that combines historical and comparative analyses brought forward through a series of detailed country studies authored by a distinguished group of comparativists and area studies experts. The book also revisits and builds upon *Sultanistic Regimes*, the seminal study by H. E. Chehabi and Juan Linz. In contrast to *Sultanistic Regimes*, which studied sultanism as an extreme form of personalism, *Personalism and Personalist Regimes* examines personal rule on its full continuum, from Turkey under Erdoğan or Venezuela under Maduro to Turkmenistan under Berdimuhamedov or Libya under Gaddafi. Because personalism or personal rule can be present across all regimes, the book also includes several studies of personalism and institutions in party dictatorships, China or Cuba, amongst others.

Power To The People Robert K. Schaeffer, 1997-07-31 *Power to the People* documents the emergence of a new interstate system and the Cold War that divided it in the postwar period. It examines the factors that led to the process of democratization in countries around the world.

Democracy at Large, 2005 IFES published this quarterly magazine from 2004-2006 for scholars and practitioners interested in democratic development. Each issue addresses current affairs in the field of democracy promotion.

Russia's Changing Economic and Political Regimes Andrey Makarychev, Andre Mommen, 2013-07-18 The book reveals the interconnection

between social cultural and political protest movements and social and economic changes in a post communist country like Russia still dominated by bureaucratic rulers and oligarchs controlling all basic industries and mining activities Those interests are also dominating Russia s foreign policy and explain why Russia did not succeed in becoming an integral part of Europe The latter is at least wished by many Russian citizens
