national arts funding bodies This is seen in the light of the current context as the sector responds to Covid Brexit austerity and the future challenges of a Climate Emergency Building Culture is a comprehensive survey and commentary of the processes and power of cultural development and its reach across the United Kingdom The authors then present some of the urgent and important challenges and issues of our time expertly framed through a diverse set of exemplar projects as case studies situated within the complex world of planning policy and funding regimes The result will prove an essential resource to students practitioners and others looking to understand the world of cultural development with all its many challenges and opportunities The recommendations the authors present to us here are central to a dialogue which is much needed about the values and principles needed for our society in the future Donald Hyslop Chair of Creative and Cultural Skills UK This in depth study of how cultural spaces are conceived and procured is hugely valuable to clients and design teams who often work in seeming isolation creating and adapting projects It is especially valuable as returning from the pandemic we can appreciate the strategic and symbolic significance of cultural spaces and their role in coalescing places and sustaining relationships between people The impressive depth and span of evidence gathered demonstrates how we could invest more wisely with a greater common understanding of the processes that prepare the ground for inspiring robust and sustainable cultural buildings The case studies demonstrate how this is done well Juliet Bidgood Architect and RIBA Client Adviser
