Birdsall,2003-11-01 **Regional Landscapes of the U. S. and Canada 6th Edition with National Geographic Atlas of the World Set** Stephen S. Birdsall,2008-05-27 *The United States of America* Charles F. Gritzner,2007 Profiles the United States of America discussing its geography history and environment

The American Landscape Stephen F. Mills,2013-12-19 American landscapes are some of the best known images in the world we recognize Niagara Falls the Grand Canyon the Manhattan skyline and the streets of San Francisco in a thousand advertisements and TV shows But how have these places come to be as they are and why are some places familiar while others are quite unknown The American Landscape introduces the reader to the changing face of the American environment tracing the way in which the present array of forests and farms parks and superhighways cities and suburbs have come about and how these changes have been thought about painted turned into movie sets etc A Regional Geography of the United States and Canada Lisa Benton-Short,John Rennie Short,Chris Mayda,2018-07-25 Now in a thoroughly revised and updated edition this text offers a comprehensive examination of North America s physical and human geography weaving in the key themes of environment and sustainability throughout The authors explore the challenges each region faces such as water shortages climate change increased migration and diversity urbanization and continued economic changes The book also highlights the positive actions that Americans and Canadians are taking to move toward a more sustainable future New features in the second edition include sections on population immigration and diversity and urban trends Each chapter also features a case study that examines a national park representing natural and cultural heritage how the region is coping with climate change how geospatial technologies are applied to environmental challenges iconic images and or cultural festivals urban sustainability best practices and global connections and networks Designed for ease of teaching and learning the book features full color photographs and maps throughout chapter highlights lists of key terms places and major cities for each chapter discussion questions and a glossary **A Guide to Information Sources in the Geographical Sciences** Stephen Goddard,1983-01-01 Geography is a wide ranging discipline and the number of information sources available is truly enormous These include printed books and journal articles maps satellite photographs archives statistical information and much else One particular problem facing geographers is that when one studies a foreign country information may be available only in the foreign country and difficult to obtain This book discusses the information sources available to geographers *Geography in America at the Dawn of the 21st Century* Gary L. Gaile,Cort J. Willmott,2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks

trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White

Regional Geography of the United States and Canada Tom Lee McKnight, 1997 An appreciation of the regional geography of North America this revised text emphasizes the description and interpretation of North American landscapes including their sequential development It covers issues ranging from ecosystems and urban morphology to agriculture and inland waterways
