Regional Public Goods:

Regional Public Goods in Asia and Europe Asian Development Bank, 2021-01-29 This report reviews regional public goods along with the challenges and benefits of their provision in Asia and Europe Case studies and comparative analysis offer lessons for Asia As economies become more integrated development challenges are becoming more transnational The provision of regional public goods can help address such challenges in Asia They can play an important role in sustainable economic development at the national and regional levels by addressing common issues across borders Regional Public Goods and the Future of International Development Co-operation Patrik Stalgren, Sweden. Expert Group on Development Issues, 2000* Regional Public Goods Antoni Estevadeordal, Brian Frantz, Tam Robert Nguyen, 2004 The production and financing of regional public goods (Occasional Paper IECI = Documento de Divulgación SITI ; n. 8) Vito Tanzi, 2005

Toward Optimal Provision of Regional Public Goods in Asia and the Pacific Asian Development Bank, 2018-10-01 This publication presents highlights of a conference that gathered leading academics policymakers and international organizations to discuss the theory practice and policy considerations of regional public goods Jointly organized by the Asian Development Bank Economic Research and Regional Cooperation Department and the Asian Development Bank Institute the conference brought together Asia's policymakers in order to consider and develop new ways of regional policy cooperation to deal with the region's common challenges Regional Public Goods in Asia and Europe, 2021 *21st Century Cooperation* Antoni Estevadeordal, Louis Goodman, 2017-05-18 This edited volume explains the importance of regional public goods RPGs for sustainable development and shows why they are particularly important in the context of 21st century international relations By presenting a new and original data set and by presenting original essays by renowned scholars this book lays the foundation for what will become an increasingly important focus for both economic development and international relations as well as for their intersection The volume contains four parts The first introduces the core issues and concepts that are explored throughout the book as well as a new and original data set on RPGs The second part further develops specific concepts important for understanding 21st century RPGs regional leadership alliances networks and outcomes The third examines how cooperation takes place worldwide for a range of important RPGs Finally the fourth part discusses how public goods are produced in specific regions stressing that each region has a distinct context and that these contexts overlap in a decentered multiplex manner Global economic cooperation will be different in the 21st century and this volume will be of interest to students and scholars of global governance economic development international political economy sustainable development and comparative regionalism Regional Public Goods in Official Development Assistance Marco A. Ferroni, 2001 *Future of Regional Cooperation in Asia and the Pacific* Bambang Susantono, Cyn-Young Park, 2020-11-01 This book reviews progress with regional cooperation and integration in Asia and the Pacific and explores how it can be reshaped to achieve a more resilient sustainable and inclusive future Consisting of papers contributed by renowned scholars

and Asian Development Bank staff the book covers four major areas public goods trade and investment financial cooperation and regional health cooperation The book emphasizes how the region can better leverage regional integration to realize its vast potential as well as overcome challenges such as the coronavirus disease COVID 19 pandemic **China - Neighboring Asian Countries Relations** Li Xiangyang,2013-03-01 China has a myriad and diverse range of neighbours who are significant in their own right but are also of global importance Asia accounts for 25% of global GDP This book evaluates the potential for both co operation and conflict within the Asian region Border problems and historical problems are still plaguing countries in the region and are affecting the relations between them China and India have not yet resolved their land frontier issues Furthermore China has maritime disputes with Japan South Korea Vietnam and the Philippines The historical issues among China Japan and South Korea make the cooperation between them lack a basis of political mutual trust Therefore although there are close trade contacts among these countries China Japan and South Korea have not reached any FTA In South Asia because of long term India Pakistan conflicts South Asia s Association for Regional Cooperation SAARC has been useless and is unable to effectively promote regional economic cooperation which is a factor in pushing India to develop towards the East These unstable factors have not only hindered the formation of long term institutional arrangements on economic and trade cooperation within the region but have also caused various unexpected events to disrupt existing cooperation Throughout this book economic data and analysis is provided which gives an insight into the trade and financial links that bind this region together Written by experts in China it gives a fascinating view of China s approach to its neighbours China is assuming a more important role on the world stage but it is important to not forget the key role it plays in its own neighbourhood **Less Pretension, More Ambition** Peter van Lieshout,Robert Went,Monique Kremer,2025-10-01 Development aid has become the subject of much discussion Why do we give aid and does it help What do we know about the development paths being taken by various countries or the possibilities of helping them to achieve their goals from outside How relevant is development aid now that remittances and foreign direct investments have increased as a result of globalization When does aid have more negative than positive effects What is the significance of shifting power relations in the world And do policies focusing on issues like climate migration financial stability knowledge trade and security not have a greater impact than aid on the development opportunities of poor countries These questions inspired the Dutch Scientific Council for Government Policy WRR to examine what form development aid should take in the era of globalization At the start of 2010 on the basis of over 500 interviews with experts and an extensive literature survey the WRR presented its far reaching recommendations In October 2010 the new Dutch government decided to use the report as the basis of a thorough modernization of its development policy This book is based on the WRR report It builds on the many responses to the report resulting in more elaboration on specific lines of reasoning coverage of new themes and more comprehensive analyses without changing the core of the original report *World Development Report 2009* World

Bank,2008-11-04 Rising densities of human settlements migration and transport to reduce distances to market and specialization and trade facilitated by fewer international divisions are central to economic development The transformations along these three dimensions density distance and division are most noticeable in North America Western Europe and Japan but countries in Asia and Eastern Europe are changing in ways similar in scope and speed World Development Report 2009 Reshaping Economic Geography concludes that these spatial transformations are essential and should be encouraged The conclusion is not without controversy Slum dwellers now number a billion but the rush to cities continues Globalization is believed to benefit many but not the billion people living in lagging areas of developing nations High poverty and mortality persist among the world's bottom billion while others grow wealthier and live longer lives Concern for these three billion often comes with the prescription that growth must be made spatially balanced The WDR has a different message economic growth is seldom balanced and efforts to spread it out prematurely will jeopardize progress The Report documents how production becomes more concentrated spatially as economies grow proposes economic integration as the principle for promoting successful spatial transformations revisits the debates on urbanization territorial development and regional integration and shows how today's developers can reshape economic geography

Regional Integration and Economic Development in South Asia Sultan Hafeez Rahman,Sridhar Khatri,Hans-Peter Brunner,2012-04-01 South Asian leaders have made it a priority to tackle key regional issues such as poverty environment degradation trade and investment barriers and food insecurity among others

Energy Market Integration in East Asia Yanrui Wu,Fukunari Kimura,Xunpeng Shi,2013-12-04 East Asian nations through the dialogue between ASEAN and its partners have been promoting energy market integration EMI for a decade The formation of the East Asian Summit EAS group in 2005 adds new momentum to the EMI course in the region The objective of this edited volume is to present new insights into the understanding of EMI in East Asia and draw implications for further development This book is the first publication of its kind exclusively focusing on EMI in East Asia The chapters are written by a distinguished group of specialists in the field of energy policy business and economics The covered topics range from the general debates about EMI to regional policy responses A variety of qualitative and quantitative methods are employed in this book For qualitative methods public goods theory and the comparative study method are two examples The quantitative methods include economic growth theory principle component approach input output table computable general equilibrium CGE models and econometric techniques Important policy implications can be drawn from the findings One clear message is that EMI should be promoted actively but in a gradual incremental manner Other policy implications are related to inter regional governance infrastructure development and gas market integration The content has not been published elsewhere and hence makes a unique contribution to the literature There are also case studies of specific energy sectors such as petroleum and natural gas Overall this book should be of interest to a wide audience such as academia business analysts and policy makers

Maghreb Regional and Global Integration Gary

Clyde Hufbauer, Claire Brunel, 2008-10-01 Increasing terrorist activity has led the Maghreb countries Morocco Algeria Tunisia Mauritania and Libya to focus on antiterrorism efforts unintentionally at the expense of full fledged economic reform These countries have tightened their border restrictions on the flow of people and goods reducing commerce and depressing economic activity In fact Maghreb has one of the lowest rates of intra regional trade in the world other factors like rigid economic structures slow productivity growth and modest investment levels continue to stymie progress toward economic integration Do these countries diverse circumstances symbolize insurmountable obstacles in achieving economic cooperation and an improved standard of living for citizens How can the United States and European Union facilitate economic progress Maghreb Regional and Global Integration A Dream to Be Fulfilled utilizes two distinct econometric tools to assess four key sectors energy banking and insurance transport and agribusiness and outlines achievable sector specific recommendations This book not only assesses the gains from economic integration among the Maghreb countries but also focuses on the tangible benefits from enhanced economic ties between the region and the world economy With this critical analysis the authors provide an in depth look at practical measures such as bilateral trade and investment agreements regional arrangements and financial assistance that can significantly boost short term success and ensure long term gains through integration in an unstable region

Fiscal Federalism and Decentralization in Mongolia Ariunaa Lkhagvadorj, 2010 Fiscal federalism has been an important topic among public finance theorists in the last four decades There is a series of arguments that decentralization of governments enhances growth by improving allocation efficiency However the empirical studies have shown mixed results for industrialized and developing countries and some of them have demonstrated that there might be a threshold level of economic development below which decentralization is not effective Developing and transition countries have developed a variety of forms of fiscal decentralization as a possible strategy to achieve effective and efficient governmental structures A generalized principle of decentralization due to the country specific circumstances does not exist Therefore decentralization has taken place in different forms in various countries at different times and even exactly the same extent of decentralization may have had different impacts under different conditions The purpose of this study is to investigate the current state of the fiscal decentralization in Mongolia and to develop policy recommendations for the efficient and effective intergovernmental fiscal relations system for Mongolia Within this perspective the analysis concentrates on the scope and structure of the public sector the expenditure and revenue assignment as well as on the design of the intergovernmental transfer and sub national borrowing The study is based on data for twenty one provinces and the capital city of Mongolia for the period from 2000 to 2009 As a former socialist country Mongolia has had a highly centralized governmental sector The result of the analysis below revealed that the Mongolia has introduced a number of decentralization measures which followed a top down approach and were slowly implemented without any integrated decentralization strategy in the last decade As a result Mongolia became de concentrated state with fiscal centralization The

revenue assignment is lacking a very important element for instance significant revenue autonomy given to sub national governments which is vital for the efficient service delivery at the local level According to the current assignments of the expenditure and revenue responsibilities most of the provinces are unable to provide a certain national standard of public goods supply Hence intergovernmental transfers from the central jurisdiction to the sub national jurisdictions play an important role for the equalization of the vertical and horizontal imbalances in Mongolia The critical problem associated with intergovernmental transfers is that there is not a stable predictable and transparent system of transfer allocation The amount of transfers to sub national governments is determined largely by political decisions on ad hoc basis and disregards local differences in needs and fiscal capacity Thus a fiscal equalization system based on the fiscal needs of the provinces should be implemented The equalization transfers will at least partly offset the regional disparities in revenues and enable the sub national governments to provide a national minimum standard of local public goods

Scarcity, Entitlements, and the Economics of Water in Developing Countries P. B. Anand, 2010-01-01 it will provide a fascinating and stimulating read for researchers students and academics with an interest in water economics and public policy Practitioners focusing on water management sustainable development water supply and health will also find this book invaluable CABI Those seeking an informed overview of the social and economic aspects of water issues in developing contexts today would do well to read P B Anand's book *Scarcity Entitlements and the Economics of Water in Developing Countries* is extensive covering local sub national and international aspects of water scarcity the human right to water transboundary water disputes and progress on the Millennium Development Goals It will be of interest to water resource managers urban water and sanitation policy makers international donors and students of environmental justice water issues and development more broadly Anand's book is recommended as useful and interesting reading primarily for its broad range and interdisciplinary approach Mark Zeitoun *Waterlines* In this creative study Anand applies environmental economic tools and concepts to analyze water issues in developing countries The author carefully integrates the poverty inequality and development issues of water and he meticulously discusses the intertwined rivalrous and excludable public good characteristics of water supply Highly recommended B F Hope *Choice* The book eloquently illustrates the economics of water and how economics can increase the understanding of topics such as water inequalities and the role of institutions It convincingly explores and explains water scarcity supply and demand to demystify water topics It commendably presents different views and interpretations on contentious water topics such as large scale dams transboundary water and privatization of household water supply In particular the conceptual framework is helpful in illuminating the interface between water and well being The book contains several case studies and water multi sectors such as dams water supply and sanitation and water resources and appeals to a wide readership interested in various water topics and their implementation H kan Tropp Stockholm International Water Institute SIWI Sweden The author has sought to weave diverse strands of water policy in developing countries into a

coherent framework A multi country database is used to make the point that scarcity is not the absolute lack of water but the result of policy and management failure The sustainable access to drinking water one of the targets of the Millennium Development Goals as well as consumer preferences for water supply are illustrated with data from the author s research in Chennai a chronically water starved Indian city Resolution of conflict in a river basin is analysed using the case of the Cauvery an interstate river in India All these themes are brought together using Sen s Capability approach to highlight the fact that water policy is not a technocratic exercise but a matter of justice and entitlements Water managers academicians and civil society groups will benefit from reflecting on the important issues raised by Dr Anand in this book Paul Appasamy Madras School of Economics Anand s book discusses in detail the economics of water and how societies deal with this scarce resource The complexities of water as highlighted in his book have previously been little explored in any standard economic development textbook Anand presents a fascinating framework on water and well being by linking water and the capability approach It is a must read for all those dealing with water issues in particular and development issues in general Naren Prasad United Nations Research Institute for Social Development UNRISD Switzerland This is a very thorough analysis of water s critical role as both a basic human need and an economic good It is unlikely to be surpassed for so

Less Pretension, More Ambition Peter van Lieshout, Robert Went, Monique Kremer, 2010 *Ontwikkelingshulp* heeft onder de Nederlandse bevolking nog altijd een groot draagvlak zo blijkt uit opinieonderzoek Maar de twijfels nemen toe Ook in de media worden steeds meer vraagtekens geplaatst bij de effecten van hulp Met name de situatie in Afrika stelt velen teleur Waarom geven we eigenlijk ontwikkelingshulp en helpt die hulp Wat weten we over ontwikkelingstrajecten van landen en over de mogelijkheid daar van buiten aan bij te dragen Hoe

relevant is hulp nog voor ontwikkelingslanden nu andere financiële stromen zoals remittances en buitenlandse investeringen FDI door globalisering zijn toegenomen En heeft beleid gericht op thema's als klimaat migratie financiële stabiliteit kennis handel en veiligheid niet meer invloed op de ontwikkelingskansen van arme landen Deze en andere vragen komen aan bod in dit rapport van de Wetenschappelijke Raad voor het Regeringsbeleid Op basis van bijna vijfhonderd gesprekken in het veld en een uitgebreide bestudering van de literatuur formuleert de WRR aanbevelingen voor forse wijzigingen in de organisatie van ontwikkelingshulp en voor gestructureerde aandacht voor terreinen die ontwikkelingsrelevant zijn en voor mondiale publieke goederen

Asian Economic Integration Report 2018 Asian Development Bank, 2018-10-01 This publication is the annual report of the Asian Development Bank ADB on Asia's progress in regional cooperation and integration It covers ADB's 48 regional members and analyzes regional and global economic linkages This year's special chapter Toward Optimal Provision of Regional Public Goods in Asia and the Pacific examines how collective action among countries can help find solutions to growing transnational development challenges It discusses how to best provide regional public goods that transcend the so called collective action problem which occurs when individual interests are too weak on their own to drive cooperation on common issues The chapter suggests that multilateral development banks should act as honest broker in enhancing mutual trust and facilitating regional cooperation for regional public goods
