of practical and theoretical insights Expanding on her paradigm for combating educational injustice Anyon discusses the Occupy Wall Street movement as a recent example of popular resistance in this new edition set against a larger framework of civil rights history A ringing call to action Radical Possibilities reminds readers that throughout U S history equitable public policies have typically been created as a result of the political pressure brought to bear by social movements Ultimately Anyon s revelations teach us that the current moment contains its own very real radical possibilities

**Urban Sprawl** Gregory D. Squires,2002-05-02 Urban Sprawl is not simply a development that undercuts the quality of life for suburbanites It has raised alarms across the nation as fair housing advocates environmentalists land use planners and even many suburban employers who cannot find the workers they need have recognized that the costs go far beyond aesthetics Despite the agreement that something needs to be done there is no consensus on what works Urban Sprawl Causes Consequences and Policy Responses assembles leading scholars who analyze the major causes and consequences of

Ong, Anastasia Loukaitou-Sideris, 2006 A new agenda for revitalizing minority neighborhoods      **Governing Urban Regions Through Collaboration** Joël Thibert, 2016-04-22 With the demise of the Old Regionalist project of achieving good regional governance through amalgamation voluntary collaboration has become the modus operandi of a large number of North American metropolitan regions Although many researchers have become interested in regional collaboration and its determinants few have specifically studied its outcomes This book contributes to filling this gap by critically re evaluating the fundamental premise of the New Regionalism which is that regional problems can be solved without regional higher government In particular this research asks to what extent does regional collaboration have a significant independent influence on the determinants of regional resilience Using a comparative Canada U S mixed method approach with detailed case studies of the San Francisco Bay Area the Greater Montreal and trans national Niagara Buffalo regions the book examines the direct and indirect impacts of inter local collaboration on policy and policy outcomes at the regional and State Provincial levels The book research concentrates on the effects of bottom up state mandated and functional collaboration and the moderating role of regional awareness higher governmental initiative and civic capital on three outcomes environmental preservation socio economic integration and economic competitiveness In short the book seeks to highlight those conditions that favor collaboration and might help avoid the collaborative trap of collaboration for its own sake More specifically this research concentrates on the effect of bottom up state mandated and functional collaboration the moderating role of regional awareness governmental initiative and civic capital on environmental preservation socio economic integration and economic competitiveness In short the book seeks to understand whether and how urban regional collaboration contributes to regional resilience      *Neighborhood Decline* Ronald van Kempen, Gideon Bolt, Maarten van Ham, 2018-10-18 The global financial and economic crisis that hit the world since 2008 has affected the lives of many people all over the world and resulted in declining incomes rising unemployment foreclosures forced residential moves and cut backs in government expenditure The extent to which the crisis has affected urban neighborhoods and has led to rising intra

urban inequalities has not yet received much attention The implemented budget cuts and austerity programs of national and local governments are likely to have hit some neighborhoods more than others The authors of this this book which come from a variety of countries and disciplines show that the economic crisis has affected poor neighborhoods more severely than more affluent ones The tendency of the state to retreat from these neighborhoods has negative consequences for their residents and may even nullify the investments that have been made in many poor neighborhoods in the recent past This book was originally published as a special issue of Urban Geography

*Growing Smarter* Robert D. Bullard, 2007-01-12 The smart growth movement aims to combat urban and suburban sprawl by promoting livable communities based on pedestrian scale diverse populations and mixed land use But as this book documents smart growth has largely failed to address issues of social equity and environmental justice Smart growth sometimes results in gentrification and displacement of low and moderate income families in existing neighborhoods or transportation policies that isolate low income populations *Growing Smarter* is one of the few books to view smart growth from an environmental justice perspective examining the effect of the built environment on access to economic opportunity and quality of life in American cities and metropolitan regions The contributors to *Growing Smarter* urban planners sociologists economists educators lawyers health professionals and environmentalists all place equity at the center of their analyses of place space and race They consider such topics as the social and environmental effects of sprawl the relationship between sprawl and concentrated poverty and community based regionalism that can link cities and suburbs They examine specific cases that illustrate opportunities for integrating environmental justice concerns into smart growth efforts including the dynamics of sprawl in a South Carolina county the debate over the rebuilding of New Orleans after Hurricane Katrina and transportation related pollution in Northern Manhattan *Growing Smarter* illuminates the growing racial and class divisions in metropolitan areas today and suggests workable strategies to address them
