Transformations in Global and Regional Social Policies A. Kaasch, P. Stubbs, 2014-05-02 This book

discusses key issues in global and regional social policy exploring Bob Deacon's pioneering approach to regulation rights and redistribution. It addresses the role of international actors in shaping social policy and discusses the problems and possibilities of new alliances for global social justice. A Socialism for the Twenty-First Century Tony Smith, 2025-07-10

Marx called for a society where the ruling principle is the full and free development of every individual. Capitalism neither is nor can be such a society. Domination worsening ecological crises and many other pathologies are its intrinsic features, not bugs that can be corrected. But is there truly a better way to organize society? And if we can imagine one, can we be confident it could be put into practice? The answer to both questions is an emphatic Yes. This book makes the case. It describes in detail a workable model of republican socialism, a vision of socialism worth fighting for. **The Dual-Entity of Market**

Competition Yunxian Chen, 2021-12-27 The relationship between the government and the market lies at the heart of Economics as a discipline. This title approaches this issue with a new lens termed mezzoeconomics, a branch of modern economics that mainly studies regional economic entities and the allocation of regional resources after they are generated. Combining mezzoeconomic theory with practice in the light of China's Reform and Opening up, the author analyzes the regional governments' participation in market competition, the dual entities, enterprises, and regional governments of market competition, and a mature market economy featuring a strong form of effective government and efficient market. Three corresponding theories are proposed: the Regional Government Competition Theory, the Dual Entity of Market Competition Theory, DEMC, and the Double Strong Forms Theory. The author hopes that these theories of mezzoeconomics can build a new effective theoretical model and serve as a guidance for regional governments to reform and innovate their governance philosophy and policies. This book will be of keen interest to students and scholars of economics and regional governance.

Social Content Marketing Strategies Yuvraj Mallick, 2025-02-20 Social Content Marketing Strategies explores the effective use of social media platforms for marketing. We divide the book into three sections covering ten chapters in total: Social Business Fundamentals, Running a Social Business, and Social Business Building Blocks. Social Business Fundamentals introduces the basics of social content marketing, discussing social media and customer engagement, the role of customers, building a social business, and the social business ecosystem. Running a Social Business focuses on practical strategies for managing a social business. Chapters in this section cover social technology and business decisions, social analytics, metrics, and measurement, providing insights into successfully carrying out your business. Social Business Building Blocks delves into the social aspects of a business, explaining concepts such as social objects and social graphs. Social Content Marketing Strategies is a valuable resource for anyone looking to enhance their marketing efforts through social media. We provide clear explanations and practical advice to help you succeed in the digital marketing landscape. **Social Enterprise in**

Central and Eastern Europe Jacques Defourny, Marthe Nyssens, 2021-02-26 In the last two decades, the quest for a widely accepted definition of social enterprise has been a central issue in a great number of publications. The main objective of the

ICSEM Project on which this book is based was to show that the social enterprise field would benefit much more from linking conceptualisation efforts to the huge diversity of social enterprises than from an additional and ambitious attempt at providing an encompassing definition Starting from a hypothesis that could be termed the impossibility of a unified definition the ICSEM research strategy relied on bottom up approaches to capture the social enterprise phenomenon in its local and national contexts This strategy made it possible to take into account and give legitimacy to locally embedded approaches while simultaneously allowing for the identification of major social enterprise models to delineate the field on common grounds at the international level Social Enterprise in Central and Eastern Europe the last volume in a series of four ICSEM based books on social enterprise worldwide will serve as a key reference and resource for teachers researchers students experts policy makers journalists and others who want to acquire a broad understanding of the social enterprise and social entrepreneurship phenomena as they emerge and develop in this region

The Institutional Foundations of the Digital Economy in the 21st Century Elena G. Popkova,Artem Krivtsov,Aleksei V. Bogoviz,2021-02-08 The development of the Digital Economy has been a landmark breakthrough for economic systems in the 21st century as it opens up opportunities for the full scale implementation of new digital technologies and the optimization of economic activities While the conceptual essence and specific features of the digital economy are described in detail in the existing literature the practical foundations of its formation are poorly studied In this book the digital economy is studied from the perspective of neo institutional economic theory This allows for the tracking of the process of formation institutionalization of the digital economy determining the basic institutions that are necessary for its formation and that exist in modern economic practice and analyzing scenarios for the future development of the digital economy in the 21st century

Methods For Social Analysis In Developing Countries Kurt Finsterbusch,2019-04-05 This book fills the gap between social science methodology books and the realities of conducting social research under Third World conditions It focuses on social impact assessment methods and cost effective social analyses for development projects and programs in US and Third World countries
