Bishop and Chapter in Twelfth-Century England Everett U. Crosby,2003-10-30 This book is the first detailed examination on a comparative basis of the economic and political relations between the bishops and their cathedral clergy in England during the century and a half after the Conquest In particular it is a study of the structure and historical development of the mensal endowments and the redistribution of wealth which led in the course of time to the establishment of the chapter as a largely independent body with substantial political power A description of the constitutional importance of the mensa and its treatment in recent scholarly writing is followed by a discussion of property rights and liberties in the church and the role of the bishop in ecclesiastical and civil government The core of the book consists of an analysis based on contemporary sources of the episcopal and capitular organisation in each of the ten monastic and seven secular sees

Medieval England Edward Miller,John Hatcher,2014-06-17 This is the first volume of a two volume study of medieval England covering the period between the Norman Conquest and the Black Death The book opens with a summary portrait of the English economy and society in the reign of William I It goes on to examine in detail the population increase from 1086 to 1349 and to investigate the structure of society where relationships were rooted in the dependence of man upon man

Michael Burger,2012-10-22 This book investigates how bishops deployed reward and punishment to control their administrative subordinates in thirteenth century England Bishops had few effective avenues available to them for disciplining their clerks and rarely pursued them preferring to secure their service and loyalty through rewards The chief reward was the benefice often granted for life Episcopal administrators security of tenure in these benefices however made them free agents allowing them to transfer from diocese to diocese or even leave administration altogether they did not constitute a standing episcopal civil service This tenuous bureaucratic relationship made the personal relationship between bishop and clerk more important Ultimately many bishops communicated in terms of friendship with their administrators who responded with expressions of devotion Michael Burger s study brings together ecclesiastical social legal and cultural history producing the first synoptic study of thirteenth century English diocesan administration in decades His research provides an ecclesiastical counterpoint to numerous studies of bastard feudalism in secular contexts **The Architectural**

way in which church architecture from the earliest centuries of Christianity has been shaped by holy bones the physical remains or relics of those whom the Church venerated as saints The Church's holy dead continued to exercise an influence on the living from beyond the grave and their earthly remains provided a focus for prayer The memoriae house churches and crypts of early Christian Rome the elaborately decorated monuments containing the bodies of the bishops of Merovingian Gaul the revival of ring crypts in the Carolingian empire the crypts tomb shrines and later high shrines of medieval England all demonstrate how the presence of a holy body within a church influenced its very architecture This is the first complete modern study of this hitherto somewhat neglected aspect of medieval church architecture in western Europe *Catalogue of the London Library ...: Catalogue* London Library,1888 **Middle English Dictionary** Hans Kurath,1954 The most important modern reference work for Middle English studies Sweet & Maxwell's Complete Law Book Catalogue: A bibliography of English law to 1650, including books dealing with that period, printed from 1480 to 1925 Sweet & Maxwell,1925 **A Bibliography of English Law ...** Sweet & Maxwell,1925 *Catalogue of the Astor Library* Astor Library,1888 *Catalogue of the Astor Library* Charles Alexander Nelson,1888 Accessions, 1876-1886 London univ, libr,1886 **On the Agricultural Community of the Middle Ages, and Inclosures of the Sixteenth Century in England** Erwin Nasse,1872 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **On the Agricultural Community of the Middle Ages, and Inclosures of the Sixteenth Century in England** Erwin Nasse,1872 **On the Agricultural Community of the Middle Ages and Inclosures of the Sixteenth Century.
