

Le règlement amiable

Introduction :

Le règlement amiable, également connu sous le nom de conciliation, est une procédure préventive de redressement des entreprises en difficulté en Tunisie. Elle vise à trouver une solution concertée entre le débiteur (l'entreprise en difficulté) et ses créanciers pour garantir la poursuite de son activité et éviter la faillite. Cette procédure, était organisée par la loi du 17 avril 1995 (les articles 9 à 17) est actuellement régie par les nouvelles dispositions du code de commerce apportées par la loi de 2016 (articles 422 à 432), offre une alternative plus souple et moins coûteuse aux procédures contentieuses de redressement et liquidation judiciaire.

Problématique : Dans quelle mesure le règlement amiable participe-t-il au sauvetage de l'entreprise en difficulté économique ?

The European Convention on Human Rights is the world's most effective human rights regime. The book combines 25 national reports with a General Report analyzing the major trends in civil and commercial mediation worldwide. A number of the key variables that make mediation so effective are studied in depth in the book. The concept of mediation that varies from country to country. Its legal framework and the branches of public and private law in which it is used. The legal condition of the mediation agreement and its relevant conditions of form and content. The responsibilities of the parties in the event that they violate this agreement and the effects of this agreement on potential recourse to the courts or to arbitration as well as with regard to pending cases. As well as the role played by the mediator his or her appointment or designation. Legal and ethical responsibilities and the role of institutions in mediation. As well as the mediation process its applicable rules and principles and its costs are analyzed on a comparative basis. The book also pays special attention to the outcome of mediation.
