## **Rehab Drought Famine In Ethiopia:**

*Rehab* Abdul Mejid Hussein, 1976 Monograph of articles on drought and malnutrition in Ethiopia surveys the effects of the drought upon agricultural production in the various provinces before and during the natural disaster and discusses recent aid programmes for economic recovery in rural areas Illustrations maps and statistical tables      **Drought, Famine and Revolution in Ethiopia** M. Fitzgerald, 1980      *Rehab* Abdul M. Hussein, 1976      **Enough with Famines in Ethiopia** Fasil G. Kiros, 2005 When in 2002/03 Ethiopia was ushered into the twenty first century by the threat of famine of unprecedented proportion it stirred a deeply felt reaction to call on policy makers and ordinary citizens to raise arms against a scourge which has afflicted their country throughout its long history The announcement of the threat of famine amounted to a virtual acknowledgement that the country's past national development goal has been little more than a pipe dream For no claim of development can be made in the face of the prospect of mass starvation It is proposed that a new start is needed in Ethiopia in the pursuit of the goal of lasting food security and the prevention of recurrent famine one which can at times put to question the conventional development wisdom and calls for a commitment to certain key principles which can help prevent the repetition of past failures while at the same time providing the foundation for future progress It is argued that lasting food security can only be achieved by means of an interactive development process involving the sustainable development of agriculture and an increasingly diversified national economy In concluding the main questions which may likely concern many people are addressed directly Wherefrom are the investment resources to be obtained and where the capacities are to be summoned to promote the scale and tempo of the development envisaged Examples are offered of the types of measures which could be considered in response to the future development challenges Ultimately both the ends of development and the means by which they might be attained must derive impetus from the cravings and drive for accomplishment of ordinary people acting individually or collectively in the pursuit of their common interests The primary instrument for unleashing this potential belongs to the political realm      *Conservation in Africa* David Anderson, Richard H. Grove, 1987 This book provides a new inter disciplinary look at the practice and policies of conservation in Africa Bringing together social scientists anthropologists and historians with biologists for the first time the book sheds some light on the previously neglected but critically important social aspects of conservation thinking To date conservation has been very much the domain of the biologist but the current ecological crisis in Africa and the failure of orthodox conservation policies demand a radical new appraisal of conventional practices This new approach to conservation the book argues cannot deal simply with the survival of species and habitats for the future of African wildlife is intimately tied to the future of African rural communities Conservation must form an integral part of future policies for human development The book emphasises this urgent need for a complementary rather than a competitive approach It covers a wide range of topics important to this new approach from wildlife management to soil conservation and from the Cape in the nineteenth century to Ethiopia in the

1980s It is essential reading for all those concerned about people and conservation in Africa Famine in Ethiopia Patrick Webb, Joachim Von Braun, Yisehac Yohannes, 1992 Concepts and research approach A record of drought and famine in Ethiopia Household responses to drought and famine Agricultural constraints conflict policy and drought Prices and markets during famine Public intervention during famine The New Famines Stephen Devereux, 2006-11-22 The recent occurrences of famine in Ethiopia and Southern Africa have propelled this key issue back into the public arena for the first time since 1984 as once again it becomes a priority not only for lesser developed countries but also for the international community Exploring the paradox that is the persistence of famine in the contemporary world this book looks at the way the nature of famine is changing in the face of globalization and shifting geo political forces The book challenges perceived wisdom about the causes of famine and analyzes the worst cases of recent years including close analysis of food scarcity in North Korea Ethiopia Sudan and Malawi and less well known cases in Madagascar Iraq and Bosnia With fresh conceptual frameworks and analytical tools major theoretical constructs which have previously been applied to analyze famines such as the democracy ends famine argument Sen s entitlement approach and the complex political emergency framework are confronted This volume assembles an international team of contributors including Marcus Noland Alex de Waal and Dan Maxwell an impressive roster which helps make this book an important resource for those in the fields of development studies and political economics **People of the Plow** James McCann, 1995-07-15 For more than two thousand years Ethiopia s ox plow agricultural system was the most efficient and innovative in Africa but has been afflicted in the recent past by a series of crises famine declining productivity and losses in biodiversity James C McCann analyzes the last two hundred years of agricultural history in Ethiopia to determine whether the ox plow agricultural system has adapted to population growth new crops and the challenges of a modern political economy based in urban centers This agricultural history is set in the context of the larger environmental and landscape history of Ethiopia showing how farmers have integrated crops tools and labor with natural cycles of rainfall and soil fertility as well as with the social vagaries of changing political systems McCann traces characteristic features of Ethiopian farming such as the single tine scratch plow which has retained a remarkably consistent design over two millennia and a crop repertoire that is among the most genetically diverse in the world People of the Plow provides detailed documentation of Ethiopian agricultural practices since the early nineteenth century by examining travel narratives early agricultural surveys photographs and engravings modern farming systems research and the testimony of farmers themselves collected during McCann s five years of fieldwork He then traces the ways those practices have evolved in the twentieth century in response to population growth urban markets and the presence of new technologies Drought Mitigation and Management S. Kumar, S.P.S. Tanwar, A. Singh, 2017-10-01 Drought is a natural hazard characterized by lower than expected or lower than normal rainfall having slow but widespread impact This book focus on drought management and mitigation in agriculture and allied sectors The chapters cover Basic concepts assessment

monitoring forecasting early warning vulnerability and adaptation to drought and mitigation and management strategies Management of different land use systems under drought and finally socio economic impact and livelihood issues of drought are also focussed It would be useful to a wide range of stakeholders i e planners researchers students and interested public This will also serve as text book as well as supplementary reading for courses in agronomy ecology geography and agro meteorology besides administration and disaster management units Climate Change Adaptation in Africa Gufu Oba,2014-07-11 In the context of growing global concerns about climate change this book presents a regional and sub continental synthesis of pastoralists responses to past environmental changes and reflects on the lessons for current and future environmental challenges Drawing from rock art archaeology paleoecological data trade ancient hydrological technology vegetation social memory and historical documentation this book creates detailed reconstructions of past climate change adaptations across Sahelian Africa It evaluates the present and future challenges to climate change adaptation in the region in terms of social memory rainfall variability environmental change and armed conflicts and examines the ways in which governance and policy drivers may undermine pastoralists adaptive strategies The book s scope covers the Red Sea coast Somaliland Somalia the Ogaden region of Ethiopia and northern Kenya part of the Ethiopian highlands and Eritrea areas where past climate change has been extreme and future change makes it vital to understand the dynamics of adaptation This book will be of interest to students and scholars of environmental history human ecology geography climate change environment studies development studies pastoralism anthropology and African studies Famine and Survival Strategies Dessalegn Rahmato,1991 What do peasants do in the face of severe food crisis and ecological stress and how do they manage to survive on their own This study revolves around a case study conducted by the author in the awraja district in the Ambassel Wollo province in northeastern Ethiopia This is in the region that was hit hardest by the 1984 85 famine which Rahmato calls the worst tragedy rural Ethiopia had ever experienced The author also critically examines other literature on famine response The focus of this study is on what happens before famine comes and how the peasants prepare for it From a wealth of evidence the author concludes that the seeds of famine are sown during the years of recovery **Health, Disease, Medicine and Famine in Ethiopia** Helmut Kloos,Zein Ahmed Zein,1991-01-30 Kloos and Zein s excellent bibliography provides a thorough guide to an amazing amount of information With 4 614 entries it is more than twice the size of the earlier version Its scope includes infectious and noninfectious diseases physical trauma mental health health services maternal and child health nutrition and famine including resettlement and refugees The works are well selected including both standard publications and less well known Ethiopian and Italian works The broad scope makes the work useful for medical workers as well as those engaged in social or cultural research Choice This bibliography provides the most up to date and comprehensive listing of published and unpublished works on health and disease in Ethiopia for the period 1940 1990 It brings together in one volume more than 4 000 citations for writings in all areas of health and disease many of which

have not been previously cited in the English language literature on the subject The volume s ten chapters are divided into subsections that classify major disease groups and health problems The bibliographic entries are organized alphabetically within each chapter Further subdivisions of the topics including diseases and specific problems are provided in the subject index About half of the references deal with infectious diseases and approximately 700 with malnutrition nutritional deficiency diseases famine and supplementary feeding An effort was made to include as many references as possible on mother and child health health services and traditional medicine all extremely important but relatively neglected subjects While the great majority of the references cited are on Western style medicine many works on traditional medicine socioeconomic problems and famine are also included The complexity and immensity of health problems in developing countries demand that they be understood by health officials and researchers if significant and sustained improvements in the health status of the population is to be achieved By presenting the great bulk of the biomedical famine and health related socio economic literature this bibliography contributes to a better understanding of both broadly based and specific health problems in one of the world s least developed countries It will be valuable as an interdisciplinary research tool for students senior researchers health officials and relief aid organizations

The Long Struggle of Eritrea for Independence and Constructive Peace Lionel Cliffe,Basil Davidson,1988      *Problems of Communism* ,1990      *Population and Development Projects in Africa* International Geographical Union. Commission on Population Geography,1985-10-10 Articles comparison of the impact of development projects on population dynamics and rural development trends in Sudan and other African countries discusses rural urban disparity social implications of internal migration and deliberate rural population geographic distribution land settlement schemes to increase self reliance among refugees and nomads forced population removals under Apartheid etc examines changing agrarian structures and labour demand in response to drought vs Increased water supply

Bibliography graphs      The Political Economy of Hunger: Volume 2: Famine Prevention Jean Drèze,Amartya Sen,1990 Part of a major report on world hunger instigated by the World Institute for Development Economics Research this volume deals with possible solutions to the problem of regular outbreaks of famine in various parts of the world      **Palaeoecology of Africa, volume 14** J.A.K. Coetzee,E.M. van Zinderen Bakker,2022-04-18 This reference provides up to date information on research in many different disciplines which give an overall insight into the environmental history of Africa      **Poverty and Famines** Amartya Sen,1983-01-20 The main focus of this book is on the causation of starvation in general and of famines in particular The author develops the alternative method of analysis the entitlement approach concentrating on ownership and exchange not on food supply The book also provides a general analysis of the characterization and measurement of poverty Various approaches used in economics sociology and political theory are critically examined The predominance of distributional issues including distribution between different occupation groups links up the problem of conceptualizing poverty with that of analyzing starvation      **Bibliographia Aethiopica II** Hans Wilhelm Lockot,1998 Erstmals wird hier die

Fülle der englischsprachigen Äthiopienliteratur geordnet dargeboten In 100 Sections führt der Autor alle für die wissenschaftliche Beschäftigung mit Äthiopien wichtigen Buch und Zeitschriftenbeiträge zum Beispiel zur History of Research Archaeology Religion aber auch Fragen der Sociology Agriculture Zoology und Medical Sciences auf Wie im Falle der deutschsprachigen Literatur Bibliographia Aethiopica Die äthiopienkundliche Literatur des deutschsprachigen Raumes Äthiopistische Forschungen 9 1982 berücksichtigt der Autor auch alle ihm zugänglichen Besprechungen womit bei einer Aufnahme von mehr als 24 000 Titeln eine Art Bibliographic Encyclopedia entstanden ist Long-term Impacts of Famine Carl Mabbs-Zeno, 1987
