examines interactions between greyhounds and their owners in England from 1200 to 1900 to make a compelling case that history is an evolutionary process Challenging the popular notion that animal breeds remain uniform over time and space Russell integrates history and biology to offer a fresh take on human animal coevolution Using greyhounds in England as a case study Russell shows that greyhounds varied and changed just as much as their owners Not only did they evolve in response to each other but people and dogs both evolved in response to the forces of modernization such as capitalism democracy and industry History and evolution were not separate processes each proceeding at its own rate according to its own rules but instead were the same *The Cultural Lives of Greyhounds* John Stokes,2025-02-07 This book aims to enhance our intellectual understanding of the relationship between human beings and domestic animals with a focus on a specific breed of dog the greyhound It combines literary criticism cultural history and the rapidly expanding field of human animal studies by tracing the creative representation of the greyhound from the earliest references in classical myth to multiple appearances in contemporary literature performance and the fine arts Each representation whether of hunter or racer of pet or predator is treated not simply as a stage in some inevitable humanitarian progression but as part of a series of co evolutionary exchanges between humans and their canine collaborators that together constitute a shared experience Writers who have been fascinated by greyhounds range from Shakespeare to Dryden from William Wordsworth to George Meredith from Marcel Proust to Colette from William Butler Yeats to Ted Hughes and beyond The haunting image of the

*The Master of Game* Edward of Norwich,2013-10-09 The Master of Game is the oldest and most important work on the chase in the English language Based primarily on Gaston de Foix s *Livre de chasse* originally composed in 1387 The Master of Game was written by Edward of Norwich at his leisure between 1406 and 1413 mostly while being held prisoner for having treasonous designs against his cousin Henry IV While much of the book is almost an exact translation of de Foix Edward added five chapters of his own to form the major source for our knowledge of the medieval hunt The book begins with a description of the nature of popular quarry such as the hare deer and badger including their behavior characteristics and even smells and then moves to a discussion of various hunting dog breeds and how to train them The medieval chase was a ritual event so the book continues with an explanation of the various rules and techniques for a successful hunt including how food was to be distributed among the hunters the support persons and the dogs Weapons and traps of choice are also described as well as the different horn calls used for communication The Master of Game is a unique text for naturalists hunters and persons interested in social history Although hunting is nowadays far removed from most people s experience it was of major interest in the time of Edward of Norwich for ritual sport and of course food Some knowledge of the chase was essential for all persons of medieval

times This edition the first paperback ever of the original version edited in 1909 includes a hearty foreword by Theodore Roosevelt who adds some important contextual information about the chase and draws on his own vast hunting experience A delight to read even for those who are not keen on the sport The Master of Game has as one review exclaimed all Chaucer s freshness love of the open sky and fragrant woodland *AKC Gazette* ,2004 **International Review for the Sociology of Sport** ,2005 **The history of the earth and animated nature** Oliver Goldsmith,1832 *The Sportsman's Cyclopaedia* Thomas Burgeland Johnson,1848 The Dog; Its Origin, Natural History and Varieties.
