**Subject Guide to Books in Print** ,1996      **Science of Last Rites** Dr. Mita Shah Ph.D.,2018-05-15 This book Science of Last Rites An insightful journey into the World of Spirit is a unique book in itself It deals with the science of last rites performed for the departed loved one The traditions customs and methods of these rites may differ from religion to religion and culture to culture according to time place and circumstances However the belief remains the same The soul after leaving the physical body has to move forward which is possible only when the soul is at peace The author has very insightfully used the regression in life between life states to find out what happens when rituals prayers food or donation are offered in the name of the departed soul In case it has any effect how will the spirit receive this You will find out how small things like reading the scriptures lighting a light bathing the dead body the rites themselves help the departed souls and the survivors This is an unusually interesting and an extensively well researched book      *Meta-Physician on Call for Better Health* Steven E. Hodes M.D.,2007-11-30 Steven E Hodes M D initially trained in traditional high caliber medical programs that led him through graduation at the Albert Einstein Medical School and to a fellowship at Mount Sinai Hospital But many years later he saw something vital missing in his approach to healthcare I was trained as a physician not a healer taught to view the patient as a machine suffering from some mechanical failure My purpose was to be the best diagnostician possible he explains Then events occurred that opened the eyes of this now veteran physician to deep insights about the mind body spirit connection That awakening moved him to a metaphysical view of health a view more spiritual than religious but still firmly grounded in science Embracing his role as a metaphysician he also began to see himself as a meta physician or doctor transformed meta by this new awareness In this book Hodes describes his journey to becoming a metaphysician on call He points out profound yet simple observations and beliefs that affect our perception of the nature of reality metaphysics which in turn can largely affect our well being in all senses body mind and spirit We all can and should take responsibility for our own well being on all levels he explains This book is designed to inspire us to ask our own questions and gather our own

evidence to enhance all areas of our lives and well being and so find healing and peace      Feng Shui: Teaching About Science and Pseudoscience Michael R. Matthews, 2019-07-18 This book provides a richly documented account of the historical cultural philosophical and practical dimensions of feng shui It argues that where feng shui is entrenched educational systems have a responsibility to examine its claims and that this examination provides opportunities for students to better learn about the key features of the nature of science the demarcation of science and non science the characteristics of pseudoscience and the engagement of science with culture and worldviews The arguments presented for feng shui being a pseudoscience can be marshalled when considering a whole range of comparable beliefs and the educational benefit of their appraisal Feng shui is a deeply entrenched three millennia old system of Asian beliefs and practices about nature architecture health and divination that has garnered a growing presence outside of Asia It is part of a comprehensive and ancient worldview built around belief in chi qi the putative universal energy or life force that animates all existence the cosmos the solar system the earth and human bodies Harmonious living requires building in accord with local chi streams good health requires replenishment and manipulation of internal chi flow and a beneficent afterlife is enhanced when buried in conformity with chi directions Traditional Chinese Medicine is based on the proper manipulation of internal chi by acupuncture tai chi and qigong exercise and herbal dietary supplements Matthews has produced another tour de force that will repay close study by students scientists and all those concerned to understand science culture and the science culture nexus Harvey Siegel Philosophy University of Miami USA With great erudition and even greater fluidity of style Matthews introduces us to this now world wide belief system Michael Ruse Philosophy Florida State University USA The book is one of the best research works published on Feng Shui Wang Youjun Philosophy Shanghai Normal University China The history is fascinating The analysis makes an important contribution to science literature James Alcock Psychology York University Canada This book provides an in depth study of Feng Shui in different periods considering its philosophical historical and educational dimensions especially from a perspective of the demarcation problem between science and pseudoscience Yao Dazhi Chinese Academy of Sciences China      Looking In, Seeing Out Minas C. Kafatos, 1991-10-01 Most books on science and mysticism attempt to link modern physics to philosophic views of consciousness This book explores the two as parallel processes one outer one inner Our outward search is for objective reality out there in the world But what we experience as outer is linked to what we can know in ourselves subjectively The inward search is for that level of consciousness that underlies all subjective experience spoken of by the mystics Like other recent others Drs Kafatos and Karatou find parallels between Eastern thought and recent scientific developments in quantum theory and cosmology But they go farther and hold that the realms of consciousness and the objective world are complementary aspect of the same reality Their approach is fresh and unique and shows how we are involved in the cosmic process      Spiritual Energy Forces Nessa Phoenix, AI, 2025-02-14 Spiritual Energy Forces explores the profound concepts of Chi Prana and Kundalini examining their

role in spiritual growth and holistic well being These energies fundamental to diverse spiritual traditions represent the life force influencing physical health mental clarity and spiritual connection The book emphasizes that cultivating and harmonizing these energies offers a tangible means to enhance overall well being and connect more deeply with oneself and the universe It challenges superficial understandings of spiritual energy advocating for a more informed and integrated approach drawing from ancient Chinese Indian and Tibetan philosophies The book progresses by introducing Chi Prana and Kundalini then delves into each energy individually detailing their characteristics and cultivation methods It explores energy pathways like meridians and chakras explaining how imbalances manifest as ailments It also examines practical techniques like breathing exercises and meditation for harnessing these energies By drawing upon historical texts cross cultural analyses and contemporary research in mind body medicine and energy psychology *Spiritual Energy Forces* provides a holistic understanding of these systems

The 5 Steps to Achieve Healing Jacques Martel, 2018-08-14T00:00:00-04:00 With respect to healing it appears that we are not all equal In fact certain persons heal while others do not Why Is there a process that promotes healing This book offers me some enlightening insight in my questionings about healing I will discover not only the available means to help me achieve it but especially the essential steps that will afford me the possibility of getting there The five steps I will discover in this book will enable me to open up and reclaim my power over myself I will become conscious of the fact that I am the key to my own healing process whatever means I choose to use in order to achieve it

The One Question - What Would Love Do Caroline hts Satnam, 2010-10-11 Are you or your loved ones experiencing chaos in your life at work and in matters of the heart or your health Are you spending a lot of time and money getting help the traditional way only to find out you still dont have peace and joy or know your lifes purpose or your soul mate Have you tried alternative solutions handson healing counseling workshops crystals psychics religion spirituality and everything else out there Or are you one of the lucky ones who seems to have the perfect life yet still feel like somethings missing The author of this amazing and revealing book went through all of that and more Caroline was born with the question Why in her mouth and drove all her teachers crazy trying to find the answers Unable to get satisfaction and to escape what seemed like mental torture Caroline became totally physical by joining the Canadian military in 1967 as a Physical Education and Recreation Instructor Pushing herself physically suppressed her mental body for a short period of time Although excelling in all that she did the pull of the Why did not die it just became stronger Sixteen years later Caroline left her physical military life and completely immersed herself in an invisible metaphysical world seeking the key that would unlock the door to all the answers

*Cultural Linguistics and Critical Discourse Studies* Monika Reif, Frank Polzenhagen, 2023-11-15 The present volume explores the meeting ground between Critical Discourse Studies and Cultural Linguistics The contributions investigate culture specific conceptualisations ways of framing and conceptual metaphors in political discourse as well as cultural models cultural stereotypes and stereotyping The individual authors use quantitative e g corpus based approaches and or

qualitative methods They address a range of contexts e g Europe the US Japan West Africa and a variety of topics e g migration presidential elections identity food culture concepts of health The papers included in this volume show that ideologies the key concern of Critical Discourse Studies cannot be analysed independently of cultural conceptualisations In a complementary dialectic fashion cultural conceptualisation the central concern of Cultural Linguistics have ideological implications sometimes subtle sometimes very straightforward The present volume thus illustrates that travelling on this meeting ground is a natural and fruitful endeavour for both approaches *Parapsychology, New Age, and the Occult* ,1993
