Reima Pietila Architecture Context And Modernism:

Reima Pietilä Malcolm Quantrill, Reima Pietilä, 1985 *Leven en werk van de Finse architect Reima Pietil 1923* **Reima Pietilä** Malcolm Quantrill, Reima Pietilä, 1985 *Leven en werk van de Finse architect Reima Pietil 1923* **Finnish Architecture and the Modernist Tradition** Malcolm Quantrill, 2012-12-06 This is a unique and comprehensive study of the entire span of Finnish architecture in the 20th century Using comparative critical analysis the author weaves Aalto's contribution into his overview of the evolution of modern Finnish architecture and includes the work of a range of lesser published figures It will be of considerable interest to architects art historians and all those interested in modern Finnish architecture **Great Windows in Modern Architecture** Kevin Adams, 2024-03-29 Windows are moments in modern architecture where we look to ascertain elegance technical expression and material language or to capture a certain atmosphere A window opening is as much an interval and an opportunity as it is a device for admitting light air or views it is simultaneously a physical aperture but also a philosophical opening of collaboration and reflection In order to understand the language of a building we might look to the detail of the window But what does this mean and why does modern architecture invest so much expression in the window This book explores how the act of detailing and situating windows in buildings is a key proponent in the language of architecture which both informs and works with the contingencies of design and construction It investigates 18 case studies in depth using painstakingly drawn details and vivid photographs in full colour to define what makes these windows great and how each window is situated within both its technical and philosophical context and as an overall development of modern architecture Case studies include the work of Walter Gropius Mies van der Rohe Pierre Chareau Frank Lloyd Wright Alvar Aalto Carlo Scarpa Le Corbusier Stirling and Gowan Raili and Reima Pietil Louis Kahn Peter Womersley Miralles Pin's Steven Holl Glen Murcutt and O'Donnell Tuomey **A Critical History of Contemporary Architecture** Elie G. Haddad, David Rifkind, 2016-12-05 1960 following as it did the last CIAM meeting signalled a turning point for the Modern Movement From then on architecture was influenced by seminal texts by Aldo Rossi and Robert Venturi and gave rise to the first revisionary movement following Modernism Bringing together leading experts in the field this book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 It consists of two parts the first section providing a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects **Graphic Horizons** Luis Hermida González, João Pedro Xavier, Jose Pedro Sousa, Vicente López-Chao, 2024-03-29 This book reports on several advances in architectural graphics with a special emphasis on education training and research It gathers a selection of contributions to the 20th International Congress of Architectural Graphic

Expression EGA 2024 held on May 27-29, 2024 in Porto, Portugal with the motto Graphic Horizons. This is the first of a 3 volume set.

Transcultural Architecture Thorsten Botz-Bornstein, 2016-03-09. Critical Regionalism is a notion which gained popularity in architectural debate as a synthesis of universal modern elements and individualistic elements derived from local cultures. This book shifts the focus from Critical Regionalism towards a broader concept of Transcultural Architecture and defines Critical Regionalism as a subgroup of the latter. One of the benefits that this change of perspective brings about is that a large part of the political agenda of Critical Regionalism which consists of resisting attitudes forged by typically Western experiences is softened and negotiated according to premises provided by local circumstances. A further benefit is that several responses dependent on factors that initial definitions of Critical Regionalism never took into account can now be considered. At the book's centre is an analysis of Reima and Raili Pietilä's Sief Palace Area project in Kuwait. Further cases of modern architecture in China, Korea and Saudi Arabia show that the critique which holds that Critical Regionalism is a typical Western exercise is not sound in all circumstances. The book argues that there are different Critical Regionalisms and not all of them impose Western paradigms on non-Western cultures. Non-Western regionalists can also successfully participate in the Western enlightened discourse even when they do not directly and consciously act against Western models. Furthermore, the book proposes that a certain architectural rationality can be contained in architecture itself, not imposed by outside parameters like aesthetics, comfort or even tradition, but flowing out of a social game of which architecture is a part. The key concept is that of the form of life as developed by Ludwig Wittgenstein, whose thoughts are here linked to Critical Regionalism. Kenneth Frampton argues that Critical Regionalism offers something well beyond comfort and accommodation. What he has in mind are ethical precepts closely linked to a
