REIMAGINING THOREAU

ROBERT MILDER

Reimagining Thoreau

Lauren Hehmeyer

Reimagining Thoreau:

Reimagining Thoreau Robert Milder, 1995-03-31 Reimagining Thoreau synthesizes the interests of the intellectual and psychological biographer and the literary critic in a reconsideration of Thoreau's career from his graduation from Harvard in 1837 to his death in 1862. The purposes of the book are threefold: 1 to situate Thoreau's aims and achievements as a writer within the context of his troubled relationship to the microcosm of ante bellum Concord; 2 to reinterpret Walden as a temporally layered text in light of the successive drafts of the book and the evidence of Thoreau's journals and contemporaneous writings; and 3 to overturn traditional views of Thoreau's decline by offering a new estimate of the post-Walden writing and its place within Thoreau's development.

Thoreauvian Modernities François Specq, Laura Dassow Walls, Michel Granger, 2013-02-01 Does Thoreau belong to the past or to the future? Instead of canonizing him as a celebrant of pure nature apart from the corruption of civilization, the essays in *Thoreauvian Modernities* reveal edgier facets of his work: how Thoreau is able to unsettle as well as inspire and how he is able to focus on both the timeless and the timely. Contributors from the United States and Europe explore Thoreau's modernity and give a much needed reassessment of his work in a global context. The first of three sections, *Thoreau and Non-Modernity*, views Thoreau as a social thinker who set himself against the modern currents of his day even while contributing to the emergence of a new era. By questioning the place of humans in the social, economic, natural, and metaphysical order, he ushered in a rethinking of humanity's role in the natural world that nurtured the environmental movement. The second section, *Thoreau and Philosophy*, examines Thoreau's writings in light of the philosophy of his time as well as current philosophical debates. Section three, *Thoreau, Language, and the Wild*, centers on his relationship to wild nature in its philosophical, scientific, linguistic, and literary dimensions. Together, these sixteen essays reveal Thoreau's relevance to a number of fields, including science, philosophy, aesthetics, environmental ethics, political science, and animal studies. *Thoreauvian Modernities* posits that it is the germinating power of Thoreau's thought, the challenge it poses to our own thinking, and its capacity to address pressing issues in a new way that defines his enduring relevance and his modernity. Contributors: Kristen Case, Randall Conrad, David Dowling, Michel Granger, Michel Imbert, Michael Jonik, Christian Maul, Bruno Monfort, Henrik Otterberg, Tom Pughe, David M. Robinson, William Rossi, Dieter Schulz, François Specq, Joseph Urbas, Laura Dassow Walls.

Natural Life David Robinson, 2004 Robinson tells the story of a mind at work, focusing on Thoreau's idea of natural life as both a subject of study and a model for personal growth and ethical purpose. The best, most thoughtful, most carefully worked-out account of Thoreau's major ideas. Robert D. Richardson Jr., author of *Emerson: The Mind on Fire*.

Nineteenth Century Prose, 2019

The Transcendentalists Barbara L. Packer, 2007 Barbara L. Packer's long essay *The Transcendentalists* is widely acknowledged by scholars of nineteenth-century American literary history as the best-written, most comprehensive treatment to date of Transcendentalism. Previously existing only as part of a volume in the magisterial *Cambridge History of American Literature*, it will now be available for the first time in a

stand alone edition Packer presents Transcendentalism as a living movement evolving out of such origins as New England Unitarianism and finding early inspiration in European Romanticism Transcendentalism changed religious beliefs philosophical ideas literary styles and political allegiances In addition it was a social movement whose members collaborated on projects and formed close personal ties Transcendentalism contains vigorous thought and expression throughout says Packer only a study of the entire movement can explain its continuing sway over American thought Through fresh readings of both the essential Transcendentalist texts and the best current scholarship Packer conveys the movement's genuine expectations that its radical spirituality not only would lead to personal perfection but also would inspire solutions to such national problems as slavery and disfranchisement Here is Transcendentalism in whole with Emerson Thoreau and Fuller restored to their place alongside such contemporaries as Bronson Alcott George Ripley Jones Very Theodore Parker James Freeman Clarke Orestes Brownson and Frederick Henry Hedge

The Keys of Power Nathan Crick, 2017-08-31 Examines Transcendentalism as a distinct rhetorical genre concerned primarily and self consciously with questions of power Nathan Crick has crafted a new critical rhetorical history of American Transcendentalists that interprets a selection of their major works between the years 1821 and 1852 as political and ethical responses to the growing crises of their times In The Keys of Power Crick argues that one of the most enduring legacies of the Transcendentalist movement is the multifaceted understanding of transcendental eloquence as a distinct rhetorical genre concerned primarily and self consciously with questions of power Crick examines the Transcendentalist understanding of how power is constituted in both the self and in society conceptualizing the relationships among technology nature language and identity critiquing the ethical responsibilities to oneself the other and the state and defining and ultimately praising the unique role that art action persuasion and ideas have in the transformation of the structure of political culture over historical time What is offered here is not a comprehensive genealogy of ideas a series of individual biographies or an effort at conceptual generalization but instead an exercise in narrative rhetorical theory and criticism that interprets some of the major specific writings and speeches by men and women associated with the Transcendentalist movement Sampson Reed Amos Bronson Alcott Orestes Brownson Ralph Waldo Emerson Margaret Fuller Henry David Thoreau and Frederick Douglass by placing them within a specific political and social history Rather than attempting to provide comprehensive overviews of the life and work of each of these individuals this volume presents close readings of individual texts that bring to life their rhetorical character in reaction to particular exigencies while addressing audiences of a unique moment This rhetoric of Transcendentalism provides insights into the keys of power that is the means of persuasion for our modern era that remain vital tools for individuals seeking to reconcile power and virtue in their struggle to make manifest a higher ideal in the world

Thoreau's Sense of Place Richard J. Schneider, 2000-05 Recent Thoreau studies have shifted to an emphasis on the green Thoreau on Thoreau the environmentalist rooted firmly in particular places and interacting with particular objects In the wake of Buell's

Environmental Imagination the nineteen essayists in this challenging volume address the central questions in Thoreau studies today how green how immersed in a sense of place was Thoreau really and how has this sense of place affected the tradition of nature writing in America The contributors to this stimulating collection address the ways in which Thoreau and his successors attempt to cope with the basic epistemological split between perceiver and place inherent in writing about nature related discussions involve the kinds of discourse most effective for writing about place They focus on the impact on Thoreau and his successors of culturally constructed assumptions deriving from science politics race gender history and literary conventions Finally they explore the implications surrounding a writer s appropriation or even exploitation of places and objects

Dark Nature Richard Schneider, 2016-10-04 In *The Ecological Thought* eco philosopher Timothy Morton has argued for the inclusion of dark ecology in our thinking about nature Dark ecology he argues puts hesitation uncertainty irony and thoughtfulness back into ecological thinking The ecological thought he says should include negativity and irony ugliness and horror Focusing on this concept of dark ecology and its invitation to add an anti pastoral perspective to ecocriticism this collection of essays on American literature and culture offers examples of how a vision of nature s darker side can create a fuller understanding of humanity s relation to nature Included are essays on canonical American literature on new voices in American literature and on non print American media This is the first collection of essays applying the dark ecology principle to American literature

A Wider View of the Universe Robert Kuhn McGregor, 2017-05-15 Thoreau in his early career did not consider nature a worthy subject for his pen Beginning with only a superficial knowledge of nature even while living at Walden Pond he later began to study the subject more intensely in 1849 Over the next dozen years he applied himself especially to botany and ornithology seeking to integrate knowledge into the larger patterns of life Independently deriving what today would be considered an ecological worldview Thoreau devoted the last years of his writing career to nature studies written in his own distinctive voice In this revised edition of a standard study of Thoreau and nature the author traces the origins and development of Thoreau s shift in viewpoint and his painstaking efforts thereafter

American Literature Before 1880 Robert Lawson-Peebles, 2003-11-13 *American Literature Before 1880* attempts to place its subject in the broadest possible international perspective It begins with Homer looking westward and ends with Henry James crossing the Atlantic eastwards In between the book examines the projection of images of the East onto an as yet unrecognised West the cultural consequences of Viking Colombian and then English migration to America the growth and independence of the British American colonies the key writers of the new Republic and the development of the culture of the United States before and after the Civil War It is intended both as an introduction for undergraduates to the richness and variety of American Literature and as a contribution to the debate about its distinctive nature The book therefore begins with a lengthy survey of earlier histories of American Literature

Mahoney, 1998 As the discourse of contemporary cultural studies brings questions of race nationality and gender to the center of critical attention nowadays there is a strong sense that religious or perhaps religious experience should command the attention of the academic and wider reading community Seeing into the Life of Things is a response to that need By combining the theoretical and the practical this book serves as both a pioneering scholarly contribution to a developing field and a valuable guide for those who read reflect on and discuss points of intersection of religion and literature The contributors to this pioneering study represent a range of voices and viewpoints some of them established leaders in their fields others in the process of becoming new leaders E Dennis Taylor Joseph Appleyard Philip Rule John Boyd and Jane and Charles Rzepka work toward the development of a discourse that can take its place with discourses that have developed around a New Historicism and Feminism Robert Kiely Stephen Fix Keven Van Anglen J Robert Barth Richard Kearney Henry Louis Gates Jr Judith Wilt John L Mahoney David Leigh Melinda Ponder John Anderson and Michael Raiger offer more focused approaches to writers as varied as Gerard Manley Hopkins Katherine Lee Bates Flannery O Connor Wallace Stevens T S Eliot and Seamus Heaney and to special genres like spiritual autobiography and film **American Illuminations** David E. Nye, 2018-02-02 How Americans adapted European royal illuminations for patriotic celebrations spectacular expositions and intensely bright commercial lighting to create the world's most dazzling and glamorous cities Illuminated fetes and civic celebrations began in Renaissance Italy and spread through the courts of Europe Their fireworks torches lamps and special effects glorified the monarch marked the birth of a prince or

celebrated military victory Nineteenth century Americans rejected such monarchical pomp and adapted spectacular lighting to their democratic commercial culture In American Illuminations David Nye explains how they experimented with gas and electric light to create illuminated cityscapes far brighter and more dynamic than those of Europe and how these illuminations became symbols of modernity and the conquest of nature Americans used gaslight and electricity in parades expositions advertising elections and political spectacles In the 1880s cities erected powerful arc lights on towers to create artificial moonlight By the 1890s they adopted more intensive commercial lighting that defined distinct zones of light and glamorized the city s White Ways skyscrapers bridges department stores theaters and dance halls Poor and blighted areas disappeared into the shadows American illuminations also became integral parts of national political campaigns presidential inaugurations and victory celebrations after the Spanish American War and World War I

Next Generation Leadership Adam Kingl,2020-02-04 Employers who don't adapt to the expectations of younger generations are losing top talent as they leave for positions at companies with modern practices Learn what companies need to do to fit into the new normal in the workplace Generation Y sees the world differently than any other generation in modern memory and nowhere is this more evident than in the workplace The shifts that this generation has seen in the economy technology and the world have changed what they want from life and work which is not a 9 5 existence for forty plus years leading to a typical retirement at sixty five What older generations call a poor work ethic from a spoiled generation Gen Y sees as a different way of doing things Companies that take the time to listen realize that what Gen Y is asking for isn't that crazy in fact it's better in many ways such as A demand for work life balance isn't a cry for fewer work hours it's a cry to be able to work from outside the office beyond a rigid 9 5 schedule which can lead to Gen Y employees working even more hours than you expected Leaving a job after a couple years isn't an inability to commit it's a need to learn more expand their experience and develop their career at a faster pace which is helpful to companies that hire those individuals including your own Elevating nontraditional benefits over financial benefits is a step toward creating an emotional connection to the company where employees spend most of their time and invest mental and emotional efforts The need to work for a company with a purpose reflects the power that social media has on the social consciousness Next Generation Leadership will explore what's behind these shifts in the character of the emerging workforce It shows that as Gen Y assumes managerial positions the nature of leadership and business will change over the next few decades in irrevocable and profound ways
