Religion and the Liberal State in Niebuhr's Christian Realism Christoph Rohde,2021-09-02 This book intends to analyze Reinhold Niebuhr's understanding of the state in his Christian Realism Although his overall notion was thoroughly analyzed in different disciplines and respects this specific focus can be diagnosed as a lacuna The task of this book is to develop a hypothesis in terms of under what political social organizational or intellectual context Niebuhr made use of what definition of the state When did he support the extension of state power e g in war times during economic crisis and when did he criticize tendencies toward autocratic structures inside Western style democracies **The Future of Christian Realism**

Dallas Gingles,Joshua Mauldin,Rebekah L. Miles,2023-04-15 In the world's most developed democracies anxiety about the future of democracy is palpable The tension between moral aspiration and moral despair has reached a point of crisis Christian realism arose during a similar time of crisis when Reinhold Niebuhr used the insights of the Christian tradition to interpret the clash between democracy and totalitarianism Beginning with Robin Lovin's account of Christian realism as a nuanced blend of theological moral and political realisms The Future of Christian Realism addresses fundamental topics in theology ethics and politics The contributors come from different traditions span five continents and together present a case for the continuing relevance of Christian realism By paying close attention to many of the most pressing moral challenges facing societies today the authors illustrate and evaluate the enduring relevance of Christian realism **Mormonism in**

Dialogue with Contemporary Christian Theologies David Lamont Paulsen,Donald W. Musser,2007 This volume brings together for the first time a broad range of scholars from Mormon and other Christian traditions Replacing polemics and apologetics with dialogue these exchanges show how the full spectrum of contemporary theologies can be informed by uniquely Mormon ideas and correlatively how Mormon thought can be illuminated through the study of key ideas of the foremost theologians of the twentieth and twenty first centuries Political Realism in American Thought John W.

Rebekah L. Miles, 2001-08-23 In this constructive study Miles proposes a new feminist theological ethic drawing together the contributions of Reinhold Niebuhr Sharon Welch and Rosemary Ruether Seeking to critically reappropriate the Christian realism articulated by Niebuhr she reinterprets solutions to problems emergent from his theology Miles presents feminist Christian realism as an alternative that can reclaim a positive interpretation of divine transcendence and human self transcendence while maintaining newer emphases on human boundedness and divine immanence Theologians and ethicists will find her critical reassessment of the three authors distinctive and her challenging proposal for a positive creative transformation a significant contribution to the development of feminist ethics God & Money Charles McDaniel, 2007 God Money confronts the current dominant right wing Republican evangelical Christian view that unfettered market driven capitalism and Christian faith and values are compatible Drawing on such ethical luminaries as Reinhold Niebuhr G K Chesterton Peter Berger and John Paul II author Charles McDaniel shows that to reverse the current decline in public morality capitalism must be balanced by enduring religious and moral values Challenging the captivity of Christian culture by free market global capitalism McDaniel joins other Christian ethical visionaries in advocating a redemptive economy one that champions individual human dignity true community and the moral regeneration of cultural traditions in vital dialectic with the inevitable market capitalism of the contemporary world **The Journey of Modern Theology** Roger E.

Olson, 2013-11-01 In this major revision and expansion of the classic 20th Century Theology 1992 coauthored with Stanley J Grenz Roger Olson tells the full story of modern theology from Descartes to Caputo from the Kantian revolution to postmodernism now recast in terms of how theologians have accommodated or rejected modernity *Religion and the Realist Tradition* Jodok Troy, 2013-09-11 This volume picks up a rather uninvested field of international relations theory the influence of religion on Realism as well as the power of Realism to address religious issues in world politics Although classical scholars of Realism rarely mention religion explicitly in their well known work this volume suggests that Realism offers serious ground for taking religion and faith into account as well as evaluating the impact of religion on its theoretical framework how religion and religious worldviews influence and affect the theoretical framework of Realism and how Realism approach religious issues in international relations as a relatively new field of international studies Although international relations scholars now widely deal with issues of religion large portions of the theoretical underpinning are missing In addressing this lack the volume illustrates the possibility of reform and change in Realism Furthermore the chapters reach out to normative statements The contributors offer a theoretical view on religion in international relations in the context of Realism but always connect this with actual real world related political problems The volume takes into account not only classical thinkers and approaches of Realism but also present day authors dealing with ethical and normative questions of international relations in the aftermath of 9 11 Offering a fresh perspective on the influence of religion on international relations theory this work will be of great interest to scholars of religion and international relations international relations

theory and political philosophy The American Evasion of Philosophy Cornel West, 1989-05-09 Taking Emerson as his starting point Cornel West's basic task in this ambitious enterprise is to chart the emergence development decline and recent resurgence of American pragmatism John Dewey is the central figure in West's pantheon of pragmatists but he treats as well such varied mid century representatives of the tradition as Sidney Hook C Wright Mills W E B Du Bois Reinhold Niebuhr and Lionel Trilling West's genealogy is ultimately a very personal work for it is imbued throughout with the author's conviction that a thorough reexamination of American pragmatism may help inspire and instruct contemporary efforts to remake and reform American society and culture West may well be the pre eminent African American intellectual of our generation The Nation The American Evasion of Philosophy is a highly intelligent and provocative book Cornel West gives us illuminating readings of the political thought of Emerson and James provides a penetrating critical assessment of Dewey his central figure and offers a brilliant interpretation appreciative yet far from uncritical of the contemporary philosopher and neo pragmatist Richard Rorty What shines through throughout the work is West's firm commitment to a radical vision of a philosophic discourse as inextricably linked to cultural criticism and political engagement Paul S Boyer professor emeritus of history University of Wisconsin Madison Wisconsin Project on American Writers Frank Lentricchia General Editor **Christian Realism and Liberation Theology** Dennis P. McCann, 2001-08-30 Christian Realism and Liberation Theology provides the best interpretation and critique we have of liberation theology Equally important however is McCann's interpretation of Reinhold Niebuhr For it is McCann's contention that Niebuhr is best appreciated as attempting to provide a form of spirituality sufficient to sustain the frustrations of political struggle By bringing Niebuhr and liberation theology into creative contrast McCann not only illuminates the contributions and shortcomings of each but helps us better understand the issues confronting the development of an adequate Christian social ethic This is a book that has needed writing for some time We are in McCann's debt Stanley Hauerwas Gilbert T Rowe Professor of Theological Ethics Divinity School Duke University

Musser, 1996-09-01 In recent years the flow of Christian theology has been channeled in diverse streams represented by such trends and movements as black theology liberation theology feminist theology and womanist theology To survey this abundance and

diversity of current Christian theology this book examines the theologies of representative theologians Particularly to help students navigate the sea of information the editors have identified various routes for reading and have traced several threads or issues common to many of the essays thus demarcating such recurrent concerns as the ways in which the theologians consider the sources and goals for theology their variant assumptions and conclusions about the nature of God their divergent approaches to understanding the person and purpose of the Christ and their distinct expectations for the destiny of history and faith

Pulpit Politics Warren L. Vinz,1997-10-27 Vinz identifies the form of American nationalism as the nationalism of messianism but demonstrates that Protestant leadership throughout the twentieth century gave no consistent voice on what America should be messianic about displaying a cacophonous mix of nationalistic expressions that both reflected and contributed to societal confusion

Religion among We the People Franklin I. Gamwell,2015-10-07 Explores democracy with religious freedom and its dependence on theism Franklin I Gamwell holds that democracy with religious freedom is dependent on metaphysical theism Democratic politics can be neutral to all religious convictions only if its constitution establishes a full and free discourse about the ultimate terms of justice and their application to decisions of the state and the divine good is the true ground of justice Notably Gamwell s view challenges virtually all current accounts of democracy with religious freedom This uncommon position emerges through a series of essays in which Gamwell engages a variety of conversation partners including Thomas Jefferson David Strauss Abraham Lincoln J rgen Habermas Alfred North Whitehead Reinhold Niebuhr and Iris Murdoch Discussions of Jefferson Lincoln and the US Constitution illustrate the promise of neoclassical metaphysics as a context for interpreting US history Gamwell then defends his metaphysics against both modern refusals of metaphysics and accounts of ultimate reality offered by Niebuhr and Murdoch
