Pierce, James W. Guthrie, 2009-02-15 A heated debate is raging over our nation s public schools and how they should be reformed with proposals ranging from imposing national standards to replacing public education altogether with a voucher system for private schools Combining decades of experience in education the authors propose an innovative approach to solving the problems of our school system and find a middle ground between these extremes Reinventing Public Education shows how contracting would radically change the way we operate our schools while keeping them public and accessible to all and making them better able to meet standards of achievement and equity Using public funds local school boards would select private providers to operate individual schools under formal contracts specifying the type and quality of instruction In a hands on concrete fashion the authors provide a thorough explanation of the pros and cons of school contracting and how it would work in practice They show how contracting would free local school boards from operating schools so they can focus on improving educational policy how it would allow parents to choose the best school for their children and finally how it would ensure that schools are held accountable and academic standards are met While retaining a strong public role in education contracting enables schools to be more imaginative adaptable and suited to the needs of children and families In presenting an alternative vision for America s schools Reinventing Public Education is too important to be ignored

**Brookings Papers on Education Policy: 1999** Diane Ravitch, 1999-02-01 This second annual issue of the series focuses on the state of urban education in America It provides in depth jargon free analysis of the most important issues in education today from some of the country s leading experts Edited by Diane Ravitch one of the nation s foremost education authorities Brookings Papers on Education Policy is an indispensable guide to understanding education trends and emerging issues Contents include History of Urban Education in this Century by Jeffrey Mirel Emory University School Reform in Chicago by Anthony Bryk University of Chicago Lessons from Houston by Donald McAdams Houston Independent School Board Problems of Managing a Big City School System by Stanley Litow IBM Corporation Single Sex Schooling Law Policy and Research by Rosemary C Salomone St John s University School of Law How Litigation Has Undermined Schools by Abigail Thernstrom Manhattan Institute Massachusetts Board of Education Creating Successful Urban Schools by James Comer Yale Child Study Center Voucher Experiments by Paul Peterson Harvard University Proposed Reforms of Governance by Paul Hill

University of Washington      **A Primer on America's Schools** Terry M. Moe, 2013-09-01 In this volume the eleven members of the Koret Task Force on K 12 Education provide a broad overview of the American education system pulling together basic facts about its structure and operation identifying key problems that hinder its performance and offering perspectives on the requirements of genuine reform

Choice with Equity Paul T. Hill, 2013-11-01 This review of the furious national debate over school choice examines the benefits of choice for children families and schools and shows how properly designed choice programs can prevent the harmful outcomes opponents fear

The American Dream and the Public Schools Jennifer L. Hochschild, Nathan Scovronick, Nathan B. Scovronick, 2004-10-21 Examines desegregation school funding testing vouchers bilingual education multicultural education and ability grouping These seem to be separate problems but much of the contention over them comes down to the same thing an apparent conflict between policies designed to promote each student's ability to pursue success and those designed to insure the good of all students or the nation as a whole The authors show how policies to promote individual success too often benefit only those already privileged by race or class The book also examines issues such as creationism and afrocentrism

City Schools Diane Ravitch, Joseph P. Viteritti, 2003-05-01 How the story of NYC's schools contain lessons for other cities City Schools brings together a distinguished group of researchers and educators for an in depth look at the nation's largest school system Topics covered include the changing demographics of city schools the impending teacher shortage reading instruction special education bilingual education school governance charter schools choice school finance reform and the role of teacher unions City Schools also provides fresh and fascinating perspectives on Catholic schools Jewish day schools and historically black independent schools Diane Ravitch Joseph P. Viteritti and their coauthors explore pedagogical institutional and policy issues in an urban school system whose challenges are those of American urban education writ large The authors conclude that we know a lot more about how to provide effective educational services for a diverse population of urban school children than performance data would suggest

**Making Money Matter** National Research Council, Division of Behavioral and Social Sciences and Education, Board on Behavioral, Cognitive, and Sensory Sciences, Committee on Education Finance, 1999-12-30 The United States annually spends over 300 billion on public elementary and secondary education As the nation enters the 21st century it faces a major challenge how best to tie this

financial investment to the goal of high levels of achievement for all students In addition policymakers want assurance that education dollars are being raised and used in the most efficient and effective possible ways The book covers such topics as Legal and legislative efforts to reduce spending and achievement gaps The shift from equity to adequacy as a new standard for determining fairness in education spending The debate and the evidence over the productivity of American schools Strategies for using school finance in support of broader reforms aimed at raising student achievement This book contains a comprehensive review of the theory and practice of financing public schools by federal state and local governments in the United States It distills the best available knowledge about the fairness and productivity of expenditures on education and assesses options for changing the finance system The ^AAmerican Dream and the Public Schools Jennifer L.

Hochschild,Nathan Scovronick,2004-10-21 The American Dream and the Public Schools examines issues that have excited and divided Americans for years including desegregation school funding testing vouchers bilingual education and ability grouping While these are all separate problems much of the contention over them comes down to the same thing an apparent conflict between policies designed to promote each student s ability to succeed and those designed to insure the good of all students or the nation as a whole The authors show how policies to promote individual success too often benefit only those already privileged by race or class and often conflict with policies that are intended to benefit everyone They propose a framework that builds on our nation s rapidly changing population in order to help Americans get past acrimonious debates about schooling Their goal is to make public education work better so that all children can succeed Conflicting Missions?

Tom Loveless,2011-04-01 Ask people whether teachers unions are good or bad for education and you are likely to receive a wide variety of opinions A 1998 Gallup Poll asked whether teachers unions helped hurt or made no difference in the quality of education in U S public schools Twenty seven percent responded that unions helped 26 percent that they hurt and 37 percent that they made no difference 10 percent of those surveyed said they did not know Although teachers unions were first organized in the nineteenth century and collective bargaining has been a fact of life in most communities since the 1960s the body of literature evaluating the impact of teachers unions on American education is surprisingly small Conflicting Missions helps close the knowledge gap by providing a clear balanced analysis of the role of teachers unions in education reform The volume emerges from a 1998 conference organized by the Program on Education Policy and Governance at Harvard University The contributors represent a broad array of disciplinary backgrounds and methodological approaches including some of the unions harshest critics and most loyal supporters In examining the relationship of teachers unions and educational reform the authors approach the subject from several directions They ask whether unions affect educational productivity most notably in terms of student achievement They analyze how teachers unions function as professional organizations concerned with the occupation of teaching as institutional actors defending interests within a bureaucratic system of education and as political actors wielding influence on legislation and elections Reflecting a variety of perspectives

and opinions *Conflicting Missions* offers a balanced analysis of a controversial topic. It is a useful starting point for readers who want to discover the complexity of teachers unions and their influence both positive and negative on the national effort to improve America's schools.

**Privatizing Education** Henry Levin, 2018-03-05

*Privatizing Education* is a collection of essays written by such luminaries as Martin Carnoy, Christopher Connell, Wendy Connors, Fred Doolittle, Pearl Rock, Kane, Frank Kemerer, Christopher Lauricella, Arthur Levine, Ellen Magenheimer, Patrick McEwan, Lee D. Mitgang, David Myers, Gary Natriello, Caroline Persell, Mark Schneider, Janelle Scott, Geoffrey Walford, and Amy Stuart Wells, who examine the efforts of some educators, reformers, investors, and political groups to move education from the public to the private sector. This is occurring through tuition tax credits, voucher initiatives, and for-profit educational management organizations. The volume grows out of a conference that took place at Columbia University's Teachers College, which launched the National Center for the Study of Privatization in Education.

**Making School Reform Work** Paul T. Hill, James Harvey, 2004-09-30

Bringing change to our public school system is hard, and the current system of education governance creates barriers that can make that reform even harder. Here, six authorities in public education discuss how local philanthropies can overcome them, even if school districts cannot. *Making School Reform Work* identifies new institutions that can be created by foundations and civic groups to remedy deficiencies in local school governance, formulate bold reforms, and guarantee implementation. These institutions include incubators for starting new schools, independent data analysis centers, public-private partnerships for recruitment and training of school leaders, and new ways of funding and managing school facilities. The contributors are Sarah Brooks, Carleton College; Michael DeArmond, University of Washington; Marguerite Roza, University of Washington; and Abigail Winger, Milwaukee consultant.

[Handbook of Education Policy Research](#) Lora Cohen-Vogel, Peter Youngs, Janelle Scott, 2025-08-15

The second edition of the *Handbook of Education Policy Research*, the largest volume published in AERA's history, addresses a variety of policy and contextual issues in early childhood, K-12, and postsecondary education that have received extensive empirical attention during the past 15 years. With the pandemic and social turmoil as a backdrop, the editors build on the breadth and depth of the first edition while expanding the scope of the project to include subjects, methods, theories, and analyses that have contributed powerfully to the study of education policy and politics in the 2010s and 2020s. The field has become more comprehensive and inclusive, and the authors represent a diversity of racial, ethnic, and gender identities and intellectual and disciplinary orientations. Most chapters come from multiple authors, reflecting the multi-sourced development of research in education policy since the first volume was published. This compilation consists of 70 chapters and nine commentaries that map past, present, and future directions of the field and richly attend to critical issues of interest to students, researchers, policy makers, and practitioners.

[American School Reform](#) Joseph P. McDonald, Cities and Schools Research Group, 2014-04-22

Dissecting twenty years of educational politics in our nation's largest cities, *American School Reform* offers one of the clearest assessments of school reform as it has

played out in our recent history Joseph P McDonald and his colleagues evaluate the half billion dollar Annenberg Challenge launched in 1994 alongside other large scale reform efforts that have taken place in New York Chicago Philadelphia and the San Francisco Bay Area They look deeply at what school reform really is how it works how it fails and what differences it can make nonetheless McDonald and his colleagues lay out several interrelated ideas in what they call a theory of action space Frequently education policy gets so ambitious that implementing it becomes a near impossibility Action space however is what takes shape when talented educators leaders and reformers guide the social capital of civic leaders and the financial capital of governments foundations corporations and other backers toward true results Exploring these extraordinary collaborations through their lifespans and their influences on future efforts the authors provide political hope that reform efforts can work and that our schools can be made better *Understanding and Assessing the Charter School Movement* Joseph Murphy, Catherine Dunn Shiffman, 2002 Shows how charter schools have changed in the years since their development looks at their role in educational reform and provides background information and details for the future of chartering Healthy Schools Phyllis A. Gimbel, Lenesa Leana, 2013-10-17 Creating conditions for better teaching and learning to occur has become an important responsibility for today's school leaders Principals must attend to building and sustaining healthy school cultures The authors take the reader on a journey through several different situations that occur at the elementary middle and high school levels and focus on a different and challenging aspect of educational leadership every time The reader can read and analyze different scenarios and decide whether or not the outcome was the best for all stakeholders involved Not only do all of the vignettes offer beneficial advice to educational leaders of all levels and experience but they also provide research that demonstrates how and why each educational leader does what he or she does in each situation and how those choices affect everyone involved We believe that these vignettes support the most important quality of school leadership Promoting the success of every student by advocating nurturing and sustaining a school culture and instructional program conducive to student learning and staff professional growth ISLLC Standard 2.0 2008 **What Lies Ahead for America's Children and Their Schools** Richard Sousa, 2014-03-01 The coming decade holds immense potential for dramatic improvement in U S education and in the achievement of American children and in this volume members of the Hoover Institution's Koret Task Force on K 12 Education examine both the potential gains and the pitfalls that lie ahead informed by where U S education has been what changes have been made in recent years and what's still required for the comprehensive overhaul that this vital enterprise so urgently needs Looking backward is infinitely easier than predicting the future but planning for the future is necessary if anything is to change and by analyzing the recent past and present condition of American primary and secondary school education across a host of key topics task force members in this volume chart a bold course for the years ahead Optimistic about the opportunities at hand they identify essential and feasible reforms as well as the barriers that must be overcome if those changes are to occur They offer high quality

scholarship and thoughtful prescriptions for productive policy alternatives      **Fixing Urban Schools** Paul T. Hill, Mary Beth Celio, 2010-12-01 Every year in one out of three big cities the school superintendent leaves his or her job sending local community leaders back to square one Cleveland Baltimore and Washington D C are struggling to recreate their failed school systems and many more cities are likely to follow City leaders need more than new superintendents They need stable reform strategies strong enough to move an entrenched system Unfortunately it is not clear where they can turn for help Education experts are deeply divided about whether teacher retraining or new standards are enough to reform a struggling city system or whether more fundamental changes such as family choice and family run schools are needed Based on new research this book identifies the essential elements of reform strategies that can transform school performance in big cities beset by poverty social instability racial isolation and labor unrest It also suggests ways that local leaders can assemble the necessary funding and political support to make such strategies work      *School Choice Or Best Systems* Margaret C Wang, Herbert J. Walberg, 2001-03-01 This book addresses one of the most urgent questions in American society today one that is currently in the spotlight and hotly debated on all sides Who shall rule the schools parents or educators School Choice or Best Systems What Improves Education presents an overview of research and practical applications of innovative even radical school reforms being implemented across the United States These fall along a continuum ranging from parental choice to best systems At the one extreme are schools of choice which allow parents to choose and even govern schools for their children These include charter schools traditional private and parochial schools schools that are privately governed but publicly funded through vouchers and those that are funded by private scholarships provided by both corporations and wealthy individuals At the other extreme are centralized state or district systems based on reform initiatives and new systems of education that have been developed in response to views of citizens and legislators that schools can do much better These schools which specify uniform goals policies and programs for each school are highly innovative systems based on research or representing advanced thinking about what works and have attracted wide interest Important questions related to schools of choice and best systems are addressed How can we choose among schools of choice and best systems Among the various approaches within each of these alternatives How can we understand their guiding principles and operational practices What results do they produce How can we evaluate their claims In choosing among the alternatives how should issues of student achievement accountability costs feasibility and equity be factored in This volume brings together leading researchers and education leaders who have carried out the latest studies and advances in the field providing a forum for them to set forth the arguments and evidence that will be most helpful in making choices for tomorrow s schools It does not provide a single right answer values and preferences differ across parents schools districts and states However there are benefits for all from seeing the rigorous research challenging thinking and alternate points of view this volume presents
