The Age of Wars of Religion, 1000-1650 Cathal J. Nolan, 2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires

Beyond the Military Revolution Jeremy Black, 2011-04-01 The seventeenth century has long been seen as a period of crisis or transition from the pre modern to the modern world This book offers a chance to explore this crisis from the perspective of war and military institutions in a way that should appeal to those doing global history By placing 17th century warfare in a global context Black challenges conventional chronologies and permits a reappraisal of the debate over what has been seen as the Military Revolution of the

early modern period The book discusses war with regard to strategic cultures assesses military capability in terms of tasks and challenges faced and attaches styles of warfare to their social and political contexts Genuinely global in range this up to date and wide ranging account provides fresh historiographical insights into this crucial period in world history **The Whispers of Cities** John-Paul A. Ghobrial,2013-12-12 In recent years global historians have painted an impressionistic picture of what they call the connected world of the seventeenth century Inspired perhaps by the globalised world in which they write scholars have emphasised how the circulation of people objects and ideas linked the distant reaches of the early modern world Yet for all the advocates of such a connected history we are only beginning to make sense of what global connectedness meant in practice in the lives of ordinary people To this end *The Whispers of Cities* explores interactions between early modern Europe and the Ottoman Empire through the kaleidoscope of communication It does so by focusing on how information flows linked Istanbul London and Paris in the late seventeenth century Because individuals were at the heart of communication the book offers a micro historical reading of the experiences of Sir William Trumbull English ambassador to Istanbul from 1687 to 1692 It follows Trumbull as he was transformed from a civil lawyer and state official in London to a European notable at the heart of Ottoman social networks in Istanbul In this way *The Whispers of Cities* reveals how information flows between Istanbul London and Paris were rooted in the personal encounters that took place between Ottomans and Europeans in everyday communication At the intersection of global history and the history of communication therefore the author argues that worlds of information tied Europeans to their Ottoman counterparts long before the age of modernisation as news stories and even fictions transcended linguistic and confessional boundaries and connected people across Europe and the Mediterranean world What emerges here is a picture of globalization that is as much about networks flows and circulation as it is about the imperfections asymmetries and unevenness of connectedness in the early modern world **Auction catalogues of books** Puttick and Simpson (messrs.),1846 *A Collection of Voyages and Travels* Thomas Osborne,1747 **Ring of Fire III** Eric Flint,2011-07-01 Let s do the Time Warp again Another anthology of rollicking thought provoking collection of tales by a star studded array of top writers such as bestseller Mercedes Lackey and Eric Flint himself all set in Eric Flint s phenomenal Ring of Fire series After a cosmic accident sets the modern day West Virginia town of Grantville down in war torn seventeenth century Europe these everyday resourceful Americans must adapt or be trod into the dust of the past Rock on Renaissance A cosmic accident sets the modern West Virginia town of Grantville down in war torn seventeenth century Europe It will take all the gumption of the resourceful freedom loving up timers to find a way to flourish in mad and bloody end of medieval times Are they up for it You bet they are The third rollicking and idea packed collection of Grantville tales edited by Eric Flint and inspired by his now legendary 1632 At the publisher s request this title is sold without DRM Digital Rights Management *A Bibliographical Catalogue of Italian Books Printed in England 1603-1642* Soko Tomita,Masahiko Tomita,2016-12-05 A sequel to Tomita s *A Bibliographical Catalogue of Italian Books*
