Relations With Children:

Friendship and Social Relations in Children Hugh Carrie Foot, Anthony J. Chapman, Jean R. Smith, **Rebuilding Family Relations for Children and Youth Separated from Family** Sarah Hean, Vanessa Heaslip, Jonathan Parker, Pravin Tembjerg, 2024-10-16 This edited volume explores a range of causes for separation of children and young people from family the impact of these causes and methods that both professionals and families may employ to build or rebuild these relations In particular contributions focus on six high priority crises through which children and young people become either permanently or temporarily separated from their families removal by child welfare services migration family breakdown placement into institutional care incarceration and or the death of a parent Authors emphasize the feelings of grief and loss experienced both by the child and their family whatever the separation context and the eventual impact on the young person s mental health They conclude that reunification with the family is not always possible or desirable and permanent alternative sources of care and or attachment may be required But if reunification is possible it is a complex and a multidimensional pathway as children move from one care context to the next Innovation coproduction with the birth family and tackling stigma and discrimination associated with family separations is a high priority **Parent-child Relations** Jerry J. Bigner, Clara Gerhardt, 2014 This is the eBook of the printed book and may not include any media website access codes or print supplements that may come packaged with the bound book Now in the Ninth Edition Jerry Bigner s Parent Child Relations the classic resource for child development professionals and parents themselves has undergone a thorough revision anchored by the vision of the late Dr Bigner and executed by new co author Clara Gerhardt Maintaining its fundamental structure and unique approach the text uses family systems and systemic family development theory as a framework to explore how parent child re *Participation, Citizenship and Intergenerational Relations in Children and Young People's Lives* J. Westwood, C. Larkins, D. Moxon, Y. Perry, N. Thomas, 2014-04-14 Research about children and young people s participation and involvement in research is an emerging area of academic inquiry Based on the themes of participation citizenship and intergenerational relations this edited collection draws on the latest research in this area and includes chapters co authored with children and young people Conceptualising Child-Adult Relations Leena Alanen, Berry Mayall, 2002-11 Brings together case studies from a wide range of societies with varying social expectations in order to examine how childhood differs from adulthood Handbook of Dynamics in Parent-Child Relations Leon Kuczynski, 2003 This handbook provides an interdisciplinary perspective on theory research and methodology on dynamic processes in parent child relations It focuses on cognitive behavioural and relational processes that govern immediate parent child interactions and long term relationships **Parenting Beliefs, Behaviors, and Parent-Child Relations** Kenneth H. Rubin, Ock Boon Chung, 2013-09-05 The purpose of this book is to present a rather simple argument Parents thoughts about childrearing and the ways in which they interact with children to achieve particular parenting or developmental goals are culturally

determined Within any culture children are shaped by the physical and social settings within which they live culturally regulated customs and childrearing practices and culturally based belief systems The psychological meaning attributed to any given social behavior is in large part a function of the ecological niche within which it is produced Clearly it is the case that there are some cultural universals All parents want their children to be healthy and to feel secure However healthy and unhealthy at least in the psychological sense of the term can have different meanings from culture to culture *Parent-child Relations* Jerry J. Bigner, 1994 *Of Human Bonding* Peter Peter Henry Rossi, This life course analysis of family development focuses on the social dynamics among family members It features parent child relationships in a larger context by examining the help exchange between kin and nonkin and the intergenerational transmission of family characteristics

Children's Peer Relations: Issues in Assessment and Intervention B. H. Schneider, K. H. Rubin, J. E. Ledingham, 2012-12-06 Willard W Hartup This volume amounts to an anniversary collection It was 50 years ago that Lois Jack 1934 published the findings from what most investigators consider to be the first intervention study in this area The experiment later replicated and extended by Marjorie Page 1936 and Gertrude Chittenden 1942 concerned ascendant behavior in preschool children which was defined to include a The pursuit of one's own purposes against interference and b directing the behavior of others Individual differences in ascendance were assumed to have some stability across time and hence to be important in personality development But ascendance variations were also viewed as a function of the immediate situation Among the conditions assumed to determine ascendance were the individual's status in the group as expressed in others attitudes toward him his conception of these attitudes and his previously formed social habits Jack 1934 p 10 Dr Jack's main interest was to show that nonascendant children identified on the basis of observations in the laboratory with another child were different from their more ascendant companions in one important respect They lacked self confidence And having demonstrated that Dr Jack devised a procedure for teaching the knowledge and skill to nonascendant children that the play materials required She guessed correctly that this training would bring about an increase in the ascendance scores of these children *New Developments in Parent-child Relations* Dorothy M. Devore, 2006 In the life of a person there are probably no events outside influences or genetic characteristics even approaching the significance of the broad category of acts and actions called parent child relations These include decisions and actions and lack thereof from the first day of life and sometimes throughout the life span They include learning by example schooling disciplining coping skills behavioural practices eating habits communication skills conflict management and a plethora of other actions This book presents new research in this dynamic field Children's Peer Relations and Social Competence Gary W. Ladd, 2005-01-01 This book examines the role of peer relationships in child and adolescent development by tracking research findings from the early 1900s to the present Dividing the research into three generations the book describes what has been learned about children's peer relations and how children's participation in peer relationships contributes to their health adjustment and achievement

Gary W Ladd reviews and interprets the investigative focus and findings of distinct research eras to highlight theoretical or empirical breakthroughs in the study of children's peer relations and social competence over the last century. He also discusses how this information is relevant to understanding and promoting children's health and development. In a final chapter, the author appraises the major discoveries that have emerged during the three research generations and analyzes recent scientific agendas and discoveries in the peer relations discipline. *Parent-Child Relations* Hisham

Altalib, Abdulhamid Abusulayman, Omar Altalib, 2013. This easy to read comprehensive guide contains what you need to know on how to parent with confidence. Packed with advice and powerful tips using the latest research on child development and parenting techniques, it offers a mine of information on how to let children flourish, take the frustration out of parenting, and develop happy family relations. Authors provide guidance on developing character, knowledge, values, and skills, as well as a faith-based outlook in children, benefitting parents with kids of all ages. Many strategies and techniques offered include teaching children how to problem solve, make decisions, and develop self-esteem. Raising God-conscious, moral, successful children with a sense of civic responsibility in today's world is not easy. It is also not impossible. Effective parenting is the key.

Room to Grow Carroll Davis, 1966-12-15. Room to Grow is a source of insight into the needs of children and the problems of parents. The lives of seven children provide the focus for this penetrating look into the experiences that shape personality.

Relationship-Based Treatment of Children and Their Parents Elizabeth Sylvester, Kat Scherer, 2022-11-01. Immediate interventions for struggling families integrating four distinct areas of psychology. Children and families burdened with attachment disruption, emotional distress, or psychological disorders need effective and immediate assistance. They do not have the time to wait for long-term interventions or developmental changes to improve the parent-child relationship. Here, psychologists Elizabeth A. Sylvester and Kat Scherer provide the most effective approach in such situations: interventions that impact the entire family at relational, emotional, and cognitive-behavioral levels and that give parents agency to have rapid therapeutic impact on their children's lives and well-being. This addition to the celebrated Norton Series on Interpersonal Neurobiology integrates four distinct areas of psychology: neurobiology, attachment theory, emotion, and relationship-based discipline. This integration produces a clear point of entry for therapists working with struggling families and provides interventions that are logical, doable, and highly effective.

Parent-Child Interaction and Parent-Child Relations M. Perlmuter, 2013-10-28. This volume contains the papers presented at the seventeenth Minnesota Symposia on Child Psychology, held October 28-30, 1982, at the University of Minnesota, Minneapolis. As has been the tradition for this annual series, the faculty of the Institute of Child Development invited internationally eminent researchers to present their research and to consider problems of mutual concern to scientists studying development. For this symposium, there also were commentary papers prepared by members of the University of Minnesota community. The theme of the seventeenth symposium and the present volume was parent-child interaction and parent-child relations. The Relations of General
