between the two communities However colonial and independent government policies generated contradictions over the Bukusu Bugisu borderland area that made the control of the interactions between the two communities within the distinct geopolitical spaces problematic As such both formal and informal dynamics made the common Bukusu Bugisu borderland a site of numerous permutations

Space and Time in Thai-Lao Relations Thanachate Wisaijorn, 2022-06-07 Wisaijorn explores how the concepts of space and temporality in traditional geopolitics have influenced the understanding of the Thai Lao border since Laos became independent in 1954 Arguing that a state centric conceptualisation of the Thailand Laos border falls into both a territorial and temporal trap Wisaijorn contests that privileging a theoretical border silences the voices of people on the ground In doing so he expands the concept of a temporal trap with the addition of a temporal dimension analysing how the state claims a monopoly not only on a geography but also a history Rooted in orientalism colonialism and the expediciencies of the Cold War the border operates in the interest of elites and ignores the lived reality of peoples on the ground By bringing these voices back into the discussion Wisaijorn presents a more complex framework which reveals a human dimension missing not only from this particular case but more broadly from

the conceptions of borders within International Relations theory A fascinating case study for scholars with an interest in mainland Southeast Asia which also makes a valuable theoretical contribution to International relations discourse **The Relations of Geography & History** Hereford Brooke George, 2022-10-27 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
