Freedom's Orphans David L. Tubbs, 2009-02-09 Has contemporary liberalism's devotion to individual liberty come at the expense of our society's obligations to children Divorce is now easy to obtain and access to everything from violent movies to sexually explicit material is zealously protected as freedom of speech But what of the effects on the young with their special needs and vulnerabilities *Freedom's Orphans* seeks a way out of this predicament Poised to ignite fierce debate within and beyond academia it documents the increasing indifference of liberal theorists and jurists to what were long deemed core elements of children's welfare Evaluating large changes in liberal political theory and jurisprudence particularly American liberalism after the Second World War David Tubbs argues that the expansion of rights for adults has come at a high and generally unnoticed cost In championing new lifestyle freedoms liberal theorists and jurists have ignored forgotten or discounted the competing interests of children To substantiate his arguments Tubbs reviews important currents of liberal thought including the ideas of Isaiah Berlin Ronald Dworkin and Susan Moller Okin He also analyzes three key developments in American civil liberties the emergence of the right to privacy in sexual and reproductive matters the abandonment of the traditional standard for obscenity prosecutions and the gradual acceptance of the doctrine of strict separation between religion and public life

To Build a Wall Gregg Ivers, 1995 *To Build a Wall* represents the first extensive study of the effect of Jewish interest groups on church state litigation Ivers carefully traces the evolution of the American Jewish Committee the American Jewish Congress and the ADL from benevolent social service agencies to powerful organized interest groups active on all fronts of American politics and public affairs He draws extensively upon original sources and archival materials from each organization personal interviews over a five year period as well as the personal files and papers of Leo Pfeffer the lead counsel or amicus curiae in nearly every establishment clause case from the late 1940s through the early eighties Ivers concludes that organized interests can and do have critical influence in the legal process but that organizational needs and external demands result in a more ad hoc less planned approach to law and litigation than much previous scholarship has suggested Ivers also argues that the ethnic economic and religious differences that led to the formation of competing Jewish organizations eighty years ago continue to drive a dynamic pluralism within the Jewish community manifest in part in
