the security legal and operational challenges of contemporary conflict Part II focuses on the interaction between the jus ad bellum humanitarian law and human rights including an analysis of the historical influences that shaped their application as separate bodies of law Emphasis is placed on the influence the proper authority principle has had in the human rights based approach being favored when dealing with criminal non State actors during both international and non international armed conflict Part III analyzes the threats of insurgency and terrorism and the state response This includes exploring their link to criminal activity and the phenomenon of transnational criminal organizations Part IV addresses the conduct of operations against non State actors that span the conflict spectrum from inter state warfare to international law enforcement Lastly Part V looks at the way ahead and discusses the approaches that can be applied to address the evolving diverse and unique security threats facing the international community
