figuration as well as on the forms of these books The analysis focuses on the interaction of image and text as manifestation of authenticity This book then contributes to clarifying the complex medial role of printing with movable type in its early period and offers a novel interpretation of the cultural significance of artefacts in the Renaissance This book is a translation of *Die Textur des Bildes Das Heiltumstbuch im Kontext religiöser Medialität des Spätmittelalters* De Gruyter 2013

Relics for the Curious, 1824

The Dickens Collection of Books, Manuscripts and Relics Formed by the Late Dr. R.T. Jupp of London R. T. Jupp, 1922

[Relics of the Buddha](#) John Strong, 2007-01-01 Buddhism is popularly seen as a religion stressing the truth of impermanence How then to account for the long standing veneration in Asian Buddhist communities of bone fragments hair teeth and other bodily bits said to come from the historic Buddha Early European and American scholars of religion influenced by a characteristic Protestant bias against relic worship declared such practices to be superstitious and fraudulent and far from the true essence of Buddhism John Strong's Book by contrast argues that relic veneration has played a serious and integral role in Buddhist traditions in south and Southeast Asia and that it is in no way foreign to Buddhism The book is structured around the life story of the Buddha starting with traditions about relics of previous buddhas and relics from the past lives of the Buddha Sakyamuni It then considers the death of the Buddha the collection of his bodily relics after his cremation and stories of their spread to different parts of Asia The Book ends with a consideration of the legend of the future parinirvana extinction of the relics prior to the advent of the next Buddha Maitreya Throughout the author does not hesitate to explore the many versions of these legends and to relate them to their ritual doctrinal artistic and social contexts In 1561 an interesting ceremony during a military operation in Sri Lanka Portuguese troops had captured what local idolaters i.e. Buddhists claimed was the tooth of the Buddha and had delivered it as a prize to their viceroy Don Constantino da Braganca The viceroy had hoped to hold it for ransom but now the archbishop of Goa Don Gaspar was insisting that it be destroyed On a porch overlooking the river in the presence of a great crowd of Christians and pagans he called for the tooth and placed it in a mortar and with his own hand reduced it to powder and cast the pieces into a brazier which stood ready for the purpose after which the ashes and the charcoal together were cast into the river in sight of all those who were crowding the verandahs and windows which looked upon the water Tennent 1859 2 215 See also chapter 7 in this book As benighted as such an action may seem to us today it can at least be said that the Portuguese archbishop appreciated the nature of relics Conscious of the power of holy objects from his own tradition he felt that the tooth had to be utterly and permanently eradicated In his mind this was not just a piece of bone that he was destroying but a relic of the devil *reliquia do demonio* something alive that had to be killed Tennent 1859 2 214 text in De Couto 1783 17 429 Rather different were the attitudes of some of Don Gaspar's Protestant contemporaries in Europe John Calvin to my knowledge never said anything about Buddhist relics but in 1543 he wrote a whole treatise on Roman Catholic ones Calvin 1970 And although he too given the chance would probably have crushed the Buddha's tooth to bits he would have done so for different reasons For him relics embodied no

sacred or even demonic presence and it was wrong and exploitative to pretend that they did Relics were nothing but material things as he pointed out when he got rid of what had been two of Geneva's prized relics the arm of Saint Anthony and the brain of Saint Peter the one he proclaimed was but the bone of a stag and the other a piece of pumice Calvin 1970 53
