**Religion Across Borders** Helen Rose Ebaugh, Janet Saltzman Chafetz, 2002-10-16 The new immigrants coming to the United States and establishing ethnic congregations do not abandon religious ties in their home countries Rather as they communicate with family and friends left behind in their homelands they influence religious structures and practices there Religion Across Borders examines both personal and organizational networks that exist between members in U S immigrant religious communities and individuals and religious institutions left behind Building upon Religion and the New Immigrants 2000 \_their previous study of immigrant religious communities in Houston\_ sociologists Ebaugh and Chafetz ask how religious remittances flow between home and host communities how these interchanges affect religious practices in both settings and how influences change over time as new immigrants become settled The study s unique comparative perspective looks at differing faith groups Catholic Protestant Buddhist from Argentina Mexico Guatemala Vietnam and China Data on ways in which historic geographic economic and religious factors influence transnational religious ties makes necessary reading for students of immigration religion and anyone interested in the increasingly global aspects of American religion Home Across Borders Jagath Bandara Pathirage, 2024-10-08 This book studies how transnational migrants create a sense of home in their host countries It draws on case studies of Sri Lankan migrants living in Australia to argue that home is an existential experience rather than a fixed entity The author looks at how the sense of home arises as a fresh category which is critical in defining one s existentiality in the host society Going beyond the conventional methodological approach of an ethnographer objectivizing other s sense of home into fixed categories the book attempts to foreground the immigrant s articulation of home which evolves parallel to their being It reveals how three important aspects of our lives time space and memory intersect with the trajectories of migration The author also delves into the ways in which migrants engage in building a home as a way of creating materiality in their dwelling practice Unique and compelling the book will be highly useful in studies of diaspora globalisation and transnational migration It will be of interest to students researchers and scholars of anthropology migration and transnational studies as well as sociology and other related disciplines Global Religious Movements Across Borders Stephen M. Cherry, Helen Rose Ebaugh, 2016-04-22 From global missionizing among proselytic faiths to mass migration through religious diasporas religion has traveled from one side of the world and back again It continues to play a prominent role in shaping world politics and has been a vital force in the continued emergence spread and creation of a transnational civil society Exploring how religious roots are shaping organizations that seek to aid people across political and geographic boundaries service movements this book focuses on how religious movements establish structures to assist people with basic human needs such as food clothing shelter education and health Examining a multitude of faith traditions with origins in different parts of the world seven contributing chapters with an introduction and conclusions by the senior author offer a unique discussion of the intersections between religious transnationalism and social movements

Intersections of Religion and Migration Jennifer B. Saunders, Elena Fiddian-Qasmiyeh, Susanna Snyder, 2016-09-28 This innovative volume introduces readers to a variety of disciplinary and methodological approaches used to examine the intersections of religion and migration. A range of leading figures in this field consider the roles of religion throughout various types of migration including forced, voluntary and economic. They discuss examples of migrations at all levels from local to global and critically examine case studies from various regional contexts across the globe. The book grapples with the linkages and feedback between religion and migration, exploring immigrant congregations, activism among and between religious groups, and innovations in religious thought in light of migration experiences among other themes. The contributors demonstrate that religion is an important factor in migration studies and that attention to the intersection between religion and migration augments and enriches our understandings of religion. Ultimately, this volume provides a crucial survey of a burgeoning cross-disciplinary, interreligious and global area of study.

Asian Migrants and Religious Experience Bernardo Brown, Brenda Yeoh, 2025-10-01 Typically, scholars approach migrants' religions as a safeguard of cultural identity, something that connects migrants to their communities of origin. This ethnographic anthology challenges that position by reframing the religious experiences of migrants as a transformative force capable of refashioning narratives of displacement into journeys of spiritual awakening and missionary calling. These essays explore migrants' motivations in support of an argument that to travel inspires a search for new meaning in religion.

Network Governance of Global Religions Michel S. Laguerre, 2012-03-28 This study seeks to explain three models of network governance embedded in digital practices that the mainstream monotheistic religions, Judaism, Catholic Christianity and Islam, have used to lead and manage the worldwide distribution of their local nodes, exploring the connection between network governance and its digital embeddedness and showing how the latter enhances the performance of the former.

**Religion Crossing Boundaries**, 2010-08-18 Across the past twenty years, major change has taken place in the structure of global society with respect to the nature of migration. The predominant pattern since at least the eighteenth century had been for peoples to move to and settle in Western countries permanently, with relatively little substantive interchange with their former homelands, hence adopting the modes of articulation characteristic of their new societies, a process expressed with respect to the USA, for example, as Americanization. This pattern has now changed, and there is considerable interaction between homeland and migrant peoples. One of the places this has become especially important is in religious exchanges. While some negative effects of this process may grab headlines, there have also been extensive positive interactions, not least among African peoples, especially with respect to pentecostal and allied religious movements. The chapters in this book illustrate the variety of these exchanges. Contributors include Wale Adebani, Edlyne Anugwom, J Kwabena Asamoah, Gyadu Marleen de Witte, Laura Grillo, Susan M Kilonzo, Samuel Krinsky, Geraldine Mossi, Philomena Njeri Mwaura, Joel Noret, Ebenezer Obadare, Damaris S Parsitau, Mei Mei Sanford, Linda van de Kamp and Rijk van Dijk.

The strength of U.S. Hispanic churches is an untold story documented in *Emerging Voices, Urgent Choices: Essays on Latino Religious Leadership*. In this pioneering volume, experts from various disciplines examine the remarkable contribution of Hispanic churches to U.S. society and the challenges their leaders face in serving the country's growing Latino population. Chapters analyze success stories in Latino ministry, specific issues for Catholic leadership and Protestant denominations, and the political and community serving activities of diverse congregations. Together, the essays demonstrate how Hispanic churches of every denomination are generating social capital in neglected communities. The book updates previous research on religion that largely ignores U.S. Latinos and adds a new dimension to Latino Studies scholarship by recognizing the important role that religion plays in Hispanic life.
