Religion And Contemporary Liberalism

**Gavin D'Costa, Malcolm Evans, Tariq
Modood, Julian Rivers**

Religion And Contemporary Liberalism:

Religion and Contemporary Liberalism Paul J. Weithman, 1997 This collection of papers makes a step towards increased dialogue among philosophical liberals and their theological sociological and legal critics The text should be significant for those concerned with the place of religion within a liberal society **Religion in a Liberal State** Gavin D'Costa, Malcolm Evans, Tariq Modood, Julian Rivers, 2013-08-29 Leading authors in politics law sociology and theology discuss what the proper place of religion is in a liberal state *Liberalism in Contemporary Religion* Willard Learoyd Sperry, 1924 Religion and Biopolitics Mirjam Weiberg-Salzmänn, Ulrich Willems, 2019-05-31 Given the profound moral ethical controversies regarding the use of new biotechnologies in medical research and treatment such as embryonic research and cloning this book sheds new light on the role of religious organizations and actors in influencing the bio political debates and decision making processes Further it analyzes the ways in which religious traditions and actors formulate their bio ethical positions and which rationales they use to validate their positions The book offers a range of case studies on fourteen Western democracies highlighting the bio ethical and political debates over human stem cell research therapeutic and reproductive cloning and pre implantation genetic diagnosis The contributing authors illustrate the ways in which national political landscapes and actors from diverse and often fragmented moral communities with widely varying moral stances premises and commitments formulate their bio ethical positions and seek to influence political decisions Rawls and Religion Tom Bailey, Valentina Gentile, 2014-12-23 John Rawls s influential theory of justice and public reason has often been thought to exclude religion from politics out of fear of its illiberal and destabilizing potentials It has therefore been criticized by defenders of religion for marginalizing and alienating the wealth of religious sensibilities voices and demands now present in contemporary liberal societies In this anthology established scholars of Rawls and the philosophy of religion reexamine and rearticulate the central tenets of Rawls s theory to show they in fact offer sophisticated resources for accommodating and responding to religions in liberal political life The chapters reassert the subtlety openness and flexibility of his sense of liberal respect and consensus revealing their inclusive implications for religious citizens They also explore the means he proposes for accommodating nonliberal religions in liberal politics developing his conception of public reason into a novel account of the possibilities for rational engagement between liberal and religious ideas And they reevaluate Rawls s liberalism from the transcendent perspectives of religions themselves critically considering its normative and political value as well as its own religious character Rawls and Religion makes a unique and important contribution to contemporary debates over liberalism and its response to the proliferation of religions in contemporary political life **Liberal Politics and Public Faith** Kevin Vallier, 2014-06-13 In the eyes of many liberalism requires the aggressive secularization of social institutions especially public media and public schools The unfortunate result is that many Americans have become alienated from the liberal tradition because they believe it threatens their most sacred forms of life This was not always the case in American history the relation

between liberalism and religion has often been one of mutual respect and support In *Liberal Politics and Public Faith Beyond Separation* Kevin Vallier attempts to reestablish mutual respect by developing a liberal political theory that avoids the standard liberal hostility to religious voices in public life He claims that the dominant form of academic liberalism public reason liberalism is far friendlier to religious influences in public life than either its proponents or detractors suppose The best interpretation of public reason convergence liberalism rejects the much derided privatization of religious belief instead viewing religious contributions to politics as a resource for liberal political institutions Many books reject privatization *Liberal Politics and Public Faith Beyond Separation* is unique in doing so on liberal grounds Schools of Faith David Fergusson, Bruce McCormack, 2019-01-10 *Schools of Faith* represents a diversity of essays from scholars in several continents The contributors all leading theologians and ethicists offer reflections on historical and contemporary themes which are significant for wider debates in theological education and church life in today's world The range of contributor and content provides a fitting tribute to the work of Iain R Torrance over many years Amid the numerous subjects discussed the authors focus on liturgy textual criticism public theology the ethics of war Christian doctrine divine action ecumenism inter faith dialogue spiritual formation the office of the minister and the interface between religion and literature The multi faceted nature of this collection signifies its importance for historical systematic and practical theology A Dictionary of Philosophy of Religion Charles Taliaferro, Elsa J. Marty, 2010-08-19 **Liberalism's Religion** Cécile Laborde, 2017-09-25 Cécile Laborde argues that religion is more than a statement of belief or a moral code It refers to comprehensive ways of life theories of justice modes of association and vulnerable collective identities By disaggregating these dimensions she addresses questions about whether Western secularism and religion can be applied more universally **Religion in Liberal Political Philosophy** Cécile Laborde, Aurélia Bardon, 2017-05-19 Until now there has been no direct and extensive engagement with the category of religion from liberal political philosophy Over the last thirty years or so liberals have tended to analyze religion under proximate categories such as conceptions of the good in debates about neutrality or culture in debates about multiculturalism US constitutional lawyers and French political theorists both tackled the category of religion head on under First Amendment jurisprudence and the political tradition of *laïcité* respectively but neither of these specialized national discourses found their way into mainstream liberal political philosophy This is somewhat paradoxical because key liberal notions state sovereignty toleration individual freedom the rights of conscience public reason were elaborated as a response to 17th Century European Wars of Religion and the fundamental structure of liberalism is rooted in the western experience of politico religious conflict So a reappraisal of this tradition and of its validity in the light of contemporary challenges is well overdue This book offers the first extensive engagement with religion from liberal political philosophers The volume analyzes from within the liberal philosophical tradition itself the key notions of conscience public reason non establishment and neutrality Insofar as the contemporary religious revival is seen as posing a challenge to liberalism it seems

more crucial than ever to explore the specific resources that the liberal tradition has to answer it

Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author

Religion and Modern Thought Victoria S. Harrison, 2007 Written specifically for level 2 undergraduates this textbook introduces readers to the extremely wide range of forms of religious thought and the responses of religion to modern ideas cultural phenomenon and events of the 20th century

Rorty, Liberal Democracy, and Religious Certainty Neil Gascoigne, 2019-07-24 This book asks whether there are any limits to the sorts of religious considerations that can be raised in public debates and if there are by whom they are to be identified Its starting point is the work of Richard Rorty whose pragmatic pluralism leads him to argue for a politically motivated anticlericalism rather than an epistemologically driven atheism Rather than defend Rorty's position directly Gascoigne argues for an epistemological stance he calls Pragmatist Fideism The starting point for this exercise in what Rorty calls Cultural Politics is an acknowledgement that one must appeal to both secularists and those with religious commitments In recent years reformed epistemologists have aimed to establish a parity of epistemic esteem between religious and perceptual beliefs by exploiting an analogy in respect of their mutual vulnerability to sceptical challenges Through an examination of this analogy and in light of Wittgenstein's On Certainty this book argues that understood correctly the parity argument in fact lends epistemological support to the argument that religious considerations should not be raised in public debate The political price paid paying the price of politics is worth it the religious thinker is provided with a good reason for maintaining that their practices and beliefs are not undermined by other forms of religious life

The Political Morality of Liberal Democracy Michael J. Perry, 2010 This important new work elaborates and defends an account of the political morality of liberal democracy

The Religious Left and Church-State Relations Steven H. Shiffrin, 2012-09-16 In *The Religious Left and Church State Relations* noted constitutional law scholar Steven Shiffrin argues that the religious left not the secular left is best equipped to lead the battle against the religious right on questions of church and state in America today Explaining that the chosen rhetoric of secular liberals is poorly equipped to argue against religious conservatives Shiffrin shows that all progressives religious and secular must appeal to broader values promoting religious liberty He demonstrates that the separation of church and state serves to protect religions from political manipulation while tight connections between church and state compromise the integrity of

religious institutions Shiffrin discusses the pluralistic foundations of the religion clauses in the First Amendment and asserts that the clauses cannot be confined to the protection of liberty equality or equal liberty He explores the constitutional framework of religious liberalism applying it to controversial examples including the Pledge of Allegiance the government s use of religious symbols the teaching of evolution in public schools and school vouchers Shiffrin examines how the approaches of secular liberalism toward church state relations have been misguided philosophically and politically and he illustrates why theological arguments hold an important democratic position not in courtrooms or halls of government but in the public dialogue The book contends that the great issue of American religious politics is not whether religions should be supported at all but how religions can best be strengthened and preserved *Religion, Science, and Democracy* Lisa L. Stenmark,2013-03-08 Despite the increasing popularity of religion and science as an academic discourse the intersection of science and religion remains a front line in an ongoing culture war The reasons for this lie in an approach to discourse that closely resembles the model of discourse promoted by John Rawls in which plural discourse such as between religion and science is based on a foundation of shared beliefs and established facts This leads to a doctrines and discoveries approach to the relationship of religion and science which focuses on their respective truth claims in an attempt to find areas of agreement This framework inherently privileges scientific perspectives which actually increases conflict between religion and science and undermines public discourse by inserting absolutes into it To the extent that the science and religion discourse adopts this approach it inadvertently increases the conflict between religion and science and limits our ability to address matters of public concern This book suggests an alternative model for discourse a disputational friendship based on the work of Hannah Arendt This approach recognizes the role that authorities and thus religion and science play in public life but undermines any attempt to privilege a particular authority because it promotes the position of the storyteller who never settles on a single story but always seeks to incorporate many particular stories into her account A disputational friendship promotes storytelling not by seeking agreement but by exploring areas of disagreement in order to create the space for more conversations and to generate more stories and additional interpretations Successful discourse between religion and science is not measured by its ability to determine truth or fact but by its ability to continually expand the discourse and promote public life and public judgment **SCM Core Text: Religion and Modern Thought** Victoria Harrison,2013-01-03 Written specifically for level 2 undergraduates this textbook introduces readers to the extremely wide range of forms of religious thought and the responses of religion to modern ideas cultural phenomenon and events of the 20th century Rawls Sebastiano Maffettone,2010 The most complete introduction to the work of John Rawls The literature on Rawls and his main arguments are presented in an unprecedented way An indispensable tool for teachers and students This book is necessary reading for anyone interested in contemporary political thought Islam, Secularism, and Liberal Democracy Nader Hashemi,2009-04-02 Islam s relationship to liberal democratic politics has emerged as one of the most pressing and

contentious issues in international affairs Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal democratic development are structurally incompatible While there are certainly tensions between religion and democracy the two are not irreconcilable Liberal democracy requires a form of secularism to sustain itself yet the main political cultural and intellectual resources that Muslim democrats can draw upon are religious How can this paradox be reconciled Hashemi makes three principal arguments First in societies where religion is a key marker of identity the road to liberal democracy must pass through the gates of religious politics The process of democratization therefore cannot be artificially de linked from debates about the normative role of religion in government Secondly while liberal democracy requires secularism religious traditions are not born with an inherent secular and democratic conception of politics These ideas must be developed and in an emerging democracy how they are developed is critical Finally Hashemi argues that there is an intimate relationship between religious reformation and political development While the first often precedes the second these processes are deeply interlinked Democratization does not require a privatization of religion but it does require a reinterpretation of religious ideas that are conducive to liberal democracy By engaging in this reinterpretation religious groups can play a central role in the development and consolidation of democracy Islam Secularism and Liberal Democracy argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy In the process it proves that an indigenous theory of Muslim secularism is not only possible but is a necessary requirement for the advancement of liberal democracy in Muslim societies Religion and Politics in America

Frank J. Smith, 2016-07-11 There has always been an intricate relationship between religion and politics This encyclopedia provides a comprehensive overview of the interrelation of religion and politics from colonial days to the present Can a judge display the Ten Commandments outside of the courthouse Can a town set up a nativity scene on the village green during Christmas Should U S currency bear the In God We Trust motto Should public school students be allowed to form bible study groups Controversies about the separation of church and state the proper use of religious imagery in public space and the role of religious beliefs in public education are constantly debated This work offers insights into contemporary controversies regarding the uneasy intersections of religion and politics in America Organized alphabetically the entries place each topic in its proper historical context to help readers fully grasp how religious beliefs have always existed side by side and often clashed with political ideals in the United States from the time of the colonies The information is presented in an unbiased manner that favors no particular religious background or political inclination This work shows that politics and religion have always had an impact on one another and have done so in many ways that will likely surprise modern students

Religion And Contemporary Liberalism Introduction

In today's digital age, the availability of Religion And Contemporary Liberalism books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Religion And Contemporary Liberalism books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Religion And Contemporary Liberalism books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Religion And Contemporary Liberalism versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Religion And Contemporary Liberalism books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Religion And Contemporary Liberalism books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Religion And Contemporary Liberalism books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare,

which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Religion And Contemporary Liberalism books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Religion And Contemporary Liberalism books and manuals for download and embark on your journey of knowledge?

FAQs About Religion And Contemporary Liberalism Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Religion And Contemporary Liberalism is one of the best book in our library for free trial. We provide copy of Religion And Contemporary Liberalism in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Religion And Contemporary Liberalism. Where to download Religion And Contemporary Liberalism online for free? Are you looking for Religion And Contemporary Liberalism PDF? This is definitely going to save you time and cash in something you should think about.
