Religion as Magical Ideology Konrad Talmont-Kaminski, 2014-10-20 Religion as Magical Ideology examines the relationship between rationality and supernatural beliefs arguing that such beliefs are products of evolution cognition and culture The book does not offer a false rapprochement between reason and religion instead it explores their interrelationship as a series of complex adaptations between cognitive and cultural processes Exploring the nature of the tension between religious traditions and reason Religion as Magical Ideology develops a dual inheritance theory of religion which combines the cognitive byproduct and

prosocial adaptation accounts and analyses the connection between the function of a belief and the degree of protection it gets from potential counter evidence With discussion ranging from individual cognitive mechanisms general functional considerations to the limits of evolutionary and cognitive processes the book offers readers a systematic account of how cognition shapes religious beliefs and practices

The Biological Evolution of Religious Mind and Behavior Eckart Voland, Wulf Schiefenhövel, 2009-08-12 In a Darwinian world religious behavior just like other behaviors is likely to have undergone a process of natural selection in which it was rewarded in the evolutionary currency of reproductive success This book aims to provide a better understanding of the social scenarios in which selection pressure led to religious practices becoming an evolved human trait i e an adaptive answer to the conditions of living and surviving that prevailed among our prehistoric ancestors This aim is pursued by a team of expert authors from a range of disciplines Their contributions examine the relevant physiological emotional cognitive and social processes The resulting understanding of the functional interplay of these processes gives valuable insights into the biological roots and benefits of religion

Confucianism, A Habit of the Heart Philip J. Ivanhoe, Sungmoon Kim, 2016-02-01 Employs Robert Bellah's notion of civil religion to explore East Asia's Confucian revival Can Confucianism be regarded as a civil religion for East Asia This book explores this question bringing the insights of Robert Bellah to a consideration of various expressions of the contemporary Confucian revival Bellah identified American civil religion as a religious dimension of life that can be found throughout US culture but one without any formal institutional structure Rather this civil form of religion provides the ethical principles that command reverence and by which a nation judges itself Extending Bellah's work contributors from both the social sciences and the humanities conceive of East Asia's Confucian revival as a habit of the heart an underlying belief system that guides a society and examine how Confucianism might function as a civil religion in China Korea and Japan They discuss what aspects of Confucian tradition and thought are being embraced some of the social movements political factors and opportunities connected with the revival of the tradition and why Confucianism has not traveled much beyond East Asia The late Robert Bellah's reflection on the possibility for a global civil religion concludes the volume

Religion and the Philosophy of Life Gavin Flood, 2019-01-10 Religion and the Philosophy of Life considers how religion as the source of civilization transforms the fundamental bio sociology of humans through language and the somatic exploration of religious ritual and prayer Gavin Flood offers an integrative account of the nature of the human based on what contemporary scientists tell us especially evolutionary science and social neuroscience as well as through the history of civilizations Part one contemplates fundamental questions and assumptions what the current state of knowledge is concerning life itself what the philosophical issues are in that understanding and how we can explain religion as the driving force of civilizations in the context of human development within an evolutionary perspective It also addresses the question of the emergence of religion and presents a related study of sacrifice as fundamental to religions views about life and its transformation Part two offers a reading of religions in three

civilizational blocks India China and Europe the Middle East particularly as they came to formation in the medieval period It traces the history of how these civilizations have thematised the idea of life itself Part three then takes up the idea of a life force in part three and traces the theme of the philosophy of life through to modern times On the one hand the book presents a narrative account of life itself through the history of civilizations and on the other presents an explanation of that narrative in terms of life *Science & Engineering Indicators* ,1989 **Big Gods** Ara Norenzayan,2015-08-25 Examines how the

belief in gods has lead to cooperation and sometimes conflict between groups The author also looks at how some cooperative societies have developed without belief in gods *Herbert Spencer and the Invention of Modern Life* Mark

Francis,2014-12-23 The English philosopher Herbert Spencer 1820 1903 was a colossus of the Victorian age His works ranked alongside those of Darwin and Marx in the development of disciplines as wide ranging as sociology anthropology political theory philosophy and psychology In this acclaimed study of Spencer the first for over thirty years and now available in paperback Mark Francis provides an authoritative and meticulously researched intellectual biography of this remarkable man that dispels the plethora of misinformation surrounding Spencer and shines new light on the broader cultural history of the nineteenth century In this major study of Spencer the first for over thirty years Mark Francis provides an authoritative and meticulously researched intellectual biography of this remarkable man Using archival material and contemporary printed sources Francis creates a fascinating portrait of a human being whose philosophical and scientific system was a unique attempt to explain modern life in all its biological psychological and sociological forms *Herbert Spencer and the Invention of Modern Life* fills what is perhaps the last big biographical gap in Victorian history An exceptional work of scholarship it not only dispels the plethora of misinformation surrounding Spencer but shines new light on the broader cultural history of the nineteenth century Elegantly written provocative and rich in insight it will be required reading for all students of the period
