

PRIMARY FOCUS

Direct Facilitation of Learning (Instructional Component)

- High quality teachers
- Improved academic assessment systems
- Standards-based instruction
- Staff development

- Shared governance
- Improved data collection systems
- Increased accountability
- Building level budget control & management
- Flexible funding

Governance, Resources, & Operations (Management Component)

SECONDARY/MARGINALIZED FOCUS

Addressing Barriers to Learning & Teaching (Not a unified component)

Districts and schools have a variety of marginalized interventions that are implemented in a fragmented manner. They are not well integrated with each other or with the instructional and management components.

• A few examples are:

- School-wide positive behavioral supports and interventions
- Response to intervention
- Safe Schools, Healthy Students Program
- Coordinated School Health Program
- Full Service Community Schools Initiatives
- School Based Health Centers
- Specialized instructional support services
- Compensatory and special education interventions
- Bullying prevention
- Family Resource Centers
- Foster Child and Homeless Student Education

Despite the fact that student and learning supports are essential, they are developed as a comprehensive system and are not treated in school improvement policy and practice as a primary component of school improvement.

of a policy analysis group with a carefully selected chairperson research to obtain all relevant information and adaptation of the five step method to local needs Among the issues policymakers will be facing in the near future are parental choice the uses of electronic technology the provision of educational services for dropouts and preschool children and the relationship between education and economic development A list of 29 references is appended PGD

get serious about world class mathematics and science and permit serious students to learn problems will dissolve
