Science Empire And The European Exploration Of The Pacific The Pacific World:

Science, Empire and the European Exploration of the Pacific Tony Ballantyne, 2017 **Science, Empire and the European Exploration of the Pacific** Tony Ballantyne, 2018-10-24 This collection of essays assesses the interrelationship between exploration empire building and science in the opening up of the Pacific Ocean by Europeans between the early 16th and mid 19th century It explores both the role of various sciences in enabling European imperial projects in the region and how the exploration of the Pacific in turn shaped emergent scientific disciplines and their claims to authority within Europe Drawing on a range of disciplines from the history of science to geography imperial history to literary criticism this volume examines the place of science in cross cultural encounters the history of cartography in Oceania shifting understandings of race and cultural difference in the Pacific and the place of ships books and instruments in the culture of science It reveals the exchanges and networks that connected British French Spanish and Russian scientific traditions even in the midst of imperial competition and the ways in which findings in diverse fields from cartography to zoology botany to anthropology were disseminated and crafted into an increasingly coherent image of the Pacific its resources peoples and histories This is a significant body of scholarship that offers many important insights for anthropologists and geographers as well as for historians of science and European imperialism The French and the Pacific World, 17th-19th Centuries Annick Fouquier, 2020-11-30 In *The French in the Pacific World* Annick Fouquier has brought together an important set of studies on the French presence in the Pacific up to the start of the 20th century The volume opens with a section on the context of the French expansion including its rivalries with other European powers Following studies treat patterns of trade and exchange and settlement and migration then look at the French image of and reaction to the worlds round the Pacific and the people of the islands covering the period from the voyages of exploration to the era of colonization **Urbanization and the Pacific World, 1500-1900** Lionel Frost, 2017-05-15 Between 1500 and 1900 there was a constant growth in the numbers of large cities and networks of smaller towns throughout the Pacific world in which traders and primary producers did business The essays in *Urbanization and the Pacific World* explore the increasingly complex economic relationships that connected cities in and around the Pacific world to each other and pay particular attention to the impact that growing cities had on the economies of their hinterlands The volume also contains articles that examine the problems that city growth created and the ways in which people were able to cope with them Along with the new introduction the essays cover all of the regions of the Pacific world in which city growth took place and will allow the reader to consider a wide range of common and contrasting urban experiences *When the Waves Ruled Britannia* Jonathan Scott, 2011-02-24 How did a rural and agrarian English society transform itself into a mercantile and maritime state What role was played by war and the need for military security How did geographical ideas inform the construction of English and then British political identities Focusing upon the deployment of geographical imagery and arguments for political purposes Jonathan Scott's ambitious and interdisciplinary

study traces the development of the idea of Britain as an island nation state and then empire from 1500 to 1800 through literature philosophy history geography and travel writing One argument advanced in the process concerns the maritime origins nature and consequences of the English revolution This is the first general study to examine changing geographical languages in early modern British politics in an imperial European and global context Offering a new perspective on the nature of early modern Britain it will be essential reading for students and scholars of the period Johann Reinhold Forster and the Making of Natural History on Cook's Second Voyage, 1772-1775 Anne Mariss, 2019-09-09 James Cook's voyages of exploration are a turning point not only in the history of the British Empire but also in the history of science and exploration of the Pacific The last decades have seen a wide ranging scholarly interest in Cook's voyages focusing on their impact on European and Polynesian societies their scientific results and their protagonists such as Cook himself or the nobleman Joseph Banks who took part in Cook's first voyage of exploration This book examines the hitherto underestimated role of the German scholar Johann Reinhold Forster who together with his son Georg Forster accompanied Cook on his second voyage of exploration 1772-1775 as a principal naturalist For a long time the German traveler has remained a rather shadowy figure of Cook's voyages of exploration and has only attracted scholarly attention occasionally Focusing on the making of knowledge onboard the ship and the islands where it made landfall the study provides a historical reappraisal of Forster's scientific performance as a leading naturalist of his time By examining Forster's Resolution Journal Anne Mariss takes a microhistorical approach toward the making of natural history knowledge during the expedition to the Pacific Mariss unveils the difficulties the traveling naturalists encountered while collecting describing classifying and painting the natural world Her study brings to light the contribution of the various actors who were involved in this undertaking such as the scientific assistants sailors officers and the local actors of the Pacific world **Explorations and Entanglements** Hartmut Berghoff, Frank Biess, Ulrike Strasser, 2018-11-16 Traditionally Germany has been considered a minor player in Pacific history its presence there was more limited than that of other European nations and whereas its European rivals established themselves as imperial forces beginning in the early modern era Germany did not seriously pursue colonialism until the nineteenth century Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific The studies gathered here offer fascinating research into German missionary commercial scientific and imperial activity against the backdrop of the Pacific's overlapping cultural circuits and complex oceanic transits **American Empire in the Pacific** Arthur Power Dudden, 2022-02-16 American Empire in the Pacific explores the empire that emerged from the Oregon Treaty of 1846 with Great Britain and the outcome of the Mexican War in 1848 Together they signalled the mastery of the United States over the continent of North America the Pacific Ocean and the ancient civilizations of Asia at last lay within reach England's East India Company in the 17th and 18th centuries had introduced Asian wares including tea to the American colonists but wars

against France and then the struggle for American independence held back expansion by Yankee entrepreneurs until 1783. Thereafter from the Atlantic seaboard American ships began regularly to reach China. Merchants, sailors and missionaries motivated toward trade and redemption like the Europeans they met along the way encountered the exotic peoples and cultures of the Pacific. Would-be empire builders projected a manifest destiny without limits. Russian Alaska, the native kingdom of Hawaii, Japan, Korea, Samoa and Spain's Philippine Islands as well as a transcontinental railroad and an isthmian canal acquired strategic significance in American minds in time to outweigh both commerce and conversion.

Religions and Missionaries around the Pacific, 1500-1900 Tanya Storch, 2017-05-15 This volume takes an interdisciplinary approach to the study of religious cultural exchanges around the Pacific in the period 1500-1900 relating these to economic and political developments and to the expansion of communication across the area. It brings together twenty-two pieces from diaries of religious exiles and missionary field observations to studies from a variety of academic disciplines so enabling a multitude of voices to be heard. The articles are grouped in sections dealing with the Islamic period, the Iberian Catholic period, the Jewish diaspora, the Russian Orthodox church, the epoch of Protestant culture and finally Asian immigrant religions in the West. A substantial introduction contextualizes these chapters in terms of both historical and contemporary approaches.

Pacific Histories David Armitage, Alison Bashford, 2014-01-23 The first comprehensive account to place the Pacific Islands, the Pacific Rim and the Pacific Ocean into the perspective of world history. A distinguished international team of historians provides a multidimensional account of the Pacific, its inhabitants and the lands within and around it over 50,000 years, with special attention to the peoples of Oceania. It provides chronological coverage along with analyses of themes such as the environment, migration and the economy, religion, law and science, race, gender and politics.

Japan and the Pacific, 1540-1920 Matsuda Koichiro, 2017-05-15 This volume seeks to capture the rich array of images that define Japan's encounters with the Pacific Ocean. Contemporary Japanese most readily associate Pacific with the devastating war that their country fought over a half century ago. The ensuing occupation realized a situation that this people had striven to avoid ever since the Portuguese first arrived in 1543, their subjugation by a foreign power. But the Pacific Ocean also extended Japan's overseas contacts. From antiquity Japanese and their neighbours crossed it to trade ideas and products. From the mid-16th century it carried people from more distant lands, Europe and America, and thus expanded and diversified Japan's cultural and economic exchange networks. From the late 19th century it provided the highway to transport Japanese imperial expansion in Northeast Asia and later to encourage overseas migration into the Pacific and the Americas. The studies selected for inclusion in this volume, along with the introduction, explain how the Pacific Ocean thus nurtured images of both threat and opportunity to the island nation that it surrounds.

Epidemic Encounters, Communities, and Practices in the Colonial World Poonam Bala, Russel Viljoen, 2023-01-24 The essays in this volume examine the nature and extent of disease on indigenous communities and local populations located within the vast regions of the Indian and Pacific Oceans as a result

of colonial sea power and colonial conquest While this established a long term impact of disease on populations the essays also offer insights into the dynamics of these populations in resisting colonial intrusions and introduction of disease to newly acquired territories

Iberian Visions of the Pacific Ocean, 1507-1899 R. Buschmann, 2014-10-28 In this work Buschmann incorporates neglected Spanish visions into the European perceptions of the emerging Pacific world The book argues that Spanish diplomats and intellectuals attempted to create an intellectual link between the Americas and the Pacific Ocean

Changing Contexts, Shifting Meanings Elfriede Hermann, 2011-09-30 This book sheds new light on processes of cultural transformation at work in Oceania and analyzes them as products of interrelationships between culturally created meanings and specific contexts In a series of inspiring essays noted scholars of the region examine these interrelationships for insight into how cultural traditions are shaped on an ongoing basis The collection marks a turning point in the debate on the conceptualization of tradition Following a critique of how tradition has been viewed in terms of dichotomies like authenticity vs inauthenticity contributors stake out a novel perspective in which tradition figures as context bound articulation This makes it possible to view cultural traditions as resulting from interactions between people their ideas actions and objects and the ambient contexts Such interactions are analyzed from the past down to the Oceanian present with indigenous agency being highlighted The work focuses first on early encounters initially between Pacific Islanders themselves and later with the European navigators of the late eighteenth and early nineteenth centuries to clarify how meaningful actions and contexts interrelated in the past The present day memories of Pacific Islanders are examined to ask how such memories represent encounters that occurred long ago and how they influenced the social political economic and religious changes that ensued Next contributors address ongoing social and structural interactions that social actors enlist to shape their traditions within the context of globalization and then the repercussions that these intersections and intercultural exchanges of discourses and practices are having on active identity formation as practiced by Pacific Islanders Finally two authorities on Oceania who themselves move in the intersecting space between anthropology and history discuss the essays and add their own valuable reflections With its wealth of illuminating analyses and illustrations *Changing Contexts Shifting Meanings* will appeal to students and scholars in the fields of cultural and social anthropology history art history museology Pacific studies gender studies cultural studies and literary criticism Contributors Aletta Biersack Fran oise Douaire Marsaudon Bronwen Douglas David Hanlon Brigitta Hauser Sch ublin Peter Hempenstall Margaret Jolly Miriam Kahn Martha Kaplan John D Kelly Wolfgang Kempf Gundolf Kr ger Jacquelyn Lewis Harris Lamont Lindstrom Karen Nero Ton Otto Anne Salmond Serge Tcherk zoff Paul van der Grijp Toon van Meijl

Matsuda, 2023-01-05 Volume I of *The Cambridge History of the Pacific Ocean* provides a wide ranging survey of Pacific history to 1800 It focuses on varied concepts of the Pacific environment and its impact on human history as well as tracing the early exploration and colonization of the Pacific the

evolution of Indigenous maritime cultures after colonization and the disruptive arrival of Europeans Bringing together a diversity of subjects and viewpoints this volume introduces a broad variety of topics engaging fully with emerging environmental and political conflicts over Pacific Ocean spaces These essays emphasize the impact of the deep history of interactions on and across the Pacific to the present day

The Global Histories of Books Elleke Boehmer, Rouven Kunstmann, Priyasha Mukhopadhyay, Asha Rogers, 2017-07-26 This book is an edited volume of essays that showcases how books played a crucial role in making and materialising histories of travel scientific exchanges translation and global markets from the late eighteenth century to the present While existing book historical practice is overly dependent on models of the local and the national we suggest that approaching the book as a cross region travelling and therefore global object offers new approaches and methodologies for a study in global perspective By thus studying the book in its transnational and inter imperial textual inter textual and material dimensions this collection will highlight its key role in making possible a global imagination shaped by networks of print material readers publishers and translators

The Pacific in the Age of Early Industrialization Kenneth Pomeranz, 2017-05-15 The essays selected for this volume show how the Pacific rapidly became part of an industrializing world Its raw materials notably rubber and copper were critical some of its handicraft industries were devastated by mechanized competition others survived and adapted contributing to distinctive patterns of industrialization that made Japan a new center of power and also laid the groundwork for later growth in Taiwan Korea and coastal China The Pacific coast of the Americas was also first drawn into an industrial world largely as an exporter of raw materials but North and South diverged rapidly portending futures even more different than those of Northeast and Southeast Asia By the 1930s when the uneven effects of industrialization would have much to do with plunging the Pacific into war one can already glimpse in outline the structural bases for many of the region's contemporary characteristics All this is set in context in the important introduction by Kenneth Pomeranz

The Eighteenth-century Current Bibliography, 2000

Textiles in the Pacific, 1500-1900 Debin Ma, 2017-03-02 Textiles in the Pacific 1500 1900 brings together 13 articles which include both classics and lesser known but important works related to the trade and production of textiles in the Pacific region extending from the tip of Northeast Asia to the other end of South America and Australia Collectively these articles bring out two central themes as highlighted in the introduction First there is the leading role of textiles in linking up the economies across the Pacific in the era before the 19th century rise of steam engine powered global integration Second is the crucial role of textile manufacturing and trade in the early stage of industrialization for most of the developing Pacific economies after the 19th century The volume also reflects both revolutionary shifts in paradigms and revisions of traditional consensus and seeks to present a more balanced account of global trade and market integration in the early modern period

The Chinese Diaspora in the Pacific Anthony Reid, 2017-05-15 The essays reprinted here trace the history of Chinese emigration into the Pacific region first as individuals traders or exiles moving into the Nanyang Southeast Asia then as a

mass migration across the ocean after the mid 19th century The papers include discussions of what it meant to be Chinese the position of the migrants vis vis China itself and their relations with indigenous peoples as well as the European powers that came to dominate the region Together with the introduction they constitute an important aid to understanding one of the most widespread diasporas of the modern world
