CONFERENCE FORMAT

The Study Conference followed a new intensive format in which the state of our knowledge of the electroweak interaction and the relation of the electroweak sector to Grand Unified and Superunified Theories was reviewed in some depth. During the two week conference 54 experimental and theoretical talks were presented and four evening discussion sessions were held. The Erice surroundings, the wide ranging conference program and the fact that nearly all of the participants were directly involved in recent major experimental or theoretical developments led to animated and very friendly discussions. Participants had the rare opportunity to view most of the major trends in high energy physics in a short interval of time and to discuss and contemplate the trends in the uniquely peaceful yet stimulating atmosphere which is an Erice tradition.
