Just One Child Susan Greenhalgh,2008-02-13 Population politics are a major issue in China Susan Greenhalgh explores the origins and development of the one child policy from the late 1970s to the present day showing how sociopolitical life in China has been subject to scientization and statisticalization

Chinese & French Views on Knowledge and Society Today Alain-Marc Rieu,2012

For and Against Scientism Moti Mizrahi,2022-04-04 The term scientism is used in several ways It is used to denote an epistemological thesis according to which science is the source of our knowledge about the world and ourselves Relatedly it is used to denote a methodological thesis according to which the methods of science are superior to the methods of non scientific fields or areas of inquiry It is also used to put forward a metaphysical thesis that what exists is what science says exists In recent decades the term scientism has acquired a derogatory meaning when it is used in defense of non scientific ways of knowing In particular some philosophers level the charge of scientism against those mostly scientists who are dismissive of philosophy Other philosophers however embrace scientism or some variant thereof and object to the pejorative use of the term This book critically examines arguments for and against different varieties of scientism in order to answer the central question Does scientism pose an existential threat to academic philosophy Or should philosophy become more scientific

Mr. Science and Chairman Mao's Cultural Revolution Chunjuan Nancy Wei,Darryl E. Brock,2013-01-01 Despite the verdict of the Cultural Revolution as a disaster for China a number of scholars have called for reexamining socialist science under Mao's aegis This collection examines the viewpoints on social and scientific enterprises of that era probing medicine the space program and the one child policy as outcomes of earlier Maoist science

The Cultural Revolution on Trial Alexander C. Cook,2016-11-07 The trial of Cultural Revolution leaders including Mao's widow and her Gang of Four was the signal event in China's post Mao transition In its

wake Chinese socialism emerged from the rubble of the Cultural Revolution to create the China that we know today This spectacular show trial was a curious example of transitional justice marking a break from the trauma of the past a shift to the present era of reform and a blueprint for building a better future In this groundbreaking reconstruction of the most famous trial in Chinese history Alex Cook shows how the event laid the cornerstone for a new model of socialist justice at the same time a comparison of official political and legal sources with works of popular literature reveals the conflicted cultural dimensions of this justice The result Cook argues saved Chinese socialism as ruling ideology but at the cost of its revolutionary soul *The People's Peking Man* Sigrid Schmalzer,2024-05-31 In the 1920s an international team of scientists and miners unearthed the richest evidence of human evolution the world had ever seen Peking Man After the communist revolution of 1949 Peking Man became a prominent figure in the movement to bring science to the people In a new state with twin goals of crushing superstition and establishing a socialist society the story of human evolution was the first lesson in Marxist philosophy offered to the masses At the same time even Mao's populist commitment to mass participation in science failed to account for the power of popular culture represented most strikingly in legends about the Bigfoot like Wild Man to reshape ideas about human nature *The People's Peking Man* is a skilled social history of twentieth century Chinese paleoanthropology and a compelling cultural and at times comparative history of assumptions and debates about what it means to be human By focusing on issues that push against the boundaries of science and politics *The People's Peking Man* offers an innovative approach to modern Chinese history and the history of science

Party intellectuals' demands for reform in contemporary China , **China's Great Proletarian Cultural Revolution** Woei Lien Chong,2002 Treating China's Cultural Revolution as much more than a political event this innovative volume explores its ideological dimensions The contributors focus especially on the CR's discourse of heroism and messianism and its demonization of the enemy as reflected in political practice official literature and propaganda art arguing that these characteristics can be traced back to hitherto neglected undercurrents of Chinese tradition Moreover while most studies of the Cultural Revolution are content to point to the discredited cult of

heroism and messianism this book also explores the alternative discourses that have flourished to fill the resulting vacuum The contributors analyze the intense intellectual and artistic ferment in post Mao China that embody resistance to CR ideology as well as the urgent quest for authentic individuality new forms of social cohesion and historical truth

Cultivating Global Citizens Susan Greenhalgh, 2010-10-15 Current accounts of China's global rise emphasize economics and politics largely neglecting the cultivation of China's people Susan Greenhalgh one of the foremost authorities on China's one child policy places the governance of population squarely at the heart of China's ascent Focusing on the decade since 2000 and especially 2004-09 she argues that the vital politics of population has been central to the globalizing agenda of the reform state By helping transform China's rural masses into modern workers and citizens by working to strengthen technoscience and legitimize the PRC regime and by boosting China's economic development and comprehensive national power the governance of the population has been critically important to the rise of global China After decades of viewing population as a hindrance to modernization China's leaders are now equating it with human capital and redefining it as a positive factor in the nation's transition to a knowledge based economy In encouraging human development the regime is trying to induce people to become self governing self enterprising persons who will advance their own health education and welfare for the benefit of the nation From an object of coercive restriction by the state population is being refigured as a field of self cultivation by China's people themselves
