*Scientist as Subject* Michael J. Mahoney, 2004-12-31 In this book originally published by Ballinger in 1976 Michael Mahoney documents the idiosyncracies and foibles of the scientific process as a field of endeavor A new introduction updates his discussion in light of subsequent developments including such aspects of academia as politics and tenure publication and power relations science studies and constructivist inquiry and what have come to be called the science wars *A History of Personality Psychology* Frank Dumont, 2010-02-18 In this book Frank Dumont presents personality psychology with a fresh description of its current status as well as its prospects Play sex cuisine creativity altruism pets grieving rituals and other oft neglected topics broaden the scope of this fascinating study This tract is imbued with historical perspectives that reveal the continuity in the evolving science and research of this discipline over the past century The author places classic schemas and constructs as well as current principles in the context of their socio political catalysts He further relates this study of the person to life span developmental issues and to cultural gender specific trait based genetic epigenetic and evolutionary research findings Personality psychology has recently reconciled itself to more modest paradigms for describing explaining and predicting human behaviour than it generated in the 19th and 20th centuries This book documents that transformation providing valuable information for health service professionals as well as to teachers researchers and scientists

**Comparative Psychology of Mental Development** Heinz Werner, 2004-12-31 This classic work first published in German in 1926 and subsequently in English in 1940 was the first comprehensive introduction to the field of comparative developmental psychology In her new prologue to this reprint of the revised edition originally published by International Universities Press in 1948 Margery Franklin sketches the key events in Werner's life the major themes in his concept of development and relevant issues for today's scholars *Foundations for Inquiry* Craig C. Lundberg, Cheri Ann Young, 2005 Most books about research address the how to of inquiry rather than the why Foundations for Inquiry enlightens readers about the variety of philosophic assumptions regarding inquiry and organizational phenomena demonstrates how these assumptions shape subsequent choices about theories and shows how theoretical and philosophic choices consequently shape and guide the research process **Orientation to Inquiry in a Reflective Professional Psychology** Lisa Tsoi Hoshmand, 1994-01-01 This book approaches professional inquiry in psychology from a perspective that integrates research and practice and prepares students for the diversity of methods employed in the field It examines a broad range of models and methods of inquiry in both research and practice and provides a framework for linking issues of knowledge to the special context of professional psychology Guided by a vision of psychology as a self critical discipline and a reflective profession Hoshmand provides a pluralistic perspective on inquiry including alternative paradigms for the professional education of clinical counseling consulting and other practicing psychologists as reflective scientist practitioners She gives special attention to the cognitive development and knowledge processes of the professional and offers suggestions for professional

training and mechanisms of teaching and learning      Critical Thinking and Learning Mark Mason, 2009-02-18 By introducing current debates in the field of critical thinking and posing new questions from contributing scholars Critical Thinking and Learning examines the received wisdom in the field of critical thinking and learning Examines the different perspectives in the field of critical thinking and learning Provides insights into critical thinking by posing new questions from contributing authors Introduces cross cultural viewpoints into the dominant western based educational viewpoint Highlights differences among a variety of thinkers in the field      Psychology of Science Barry Gholson, 1989-07-28 This 1989 book offers a comprehensive overview of the work of scholars in several different disciplines contributing to the development of the psychology of science the systematic elaboration and application of psychological concepts and methods to clarify the nature of the scientific enterprise      *Childhood, Philosophy and Open Society* Chi-Ming Lam, 2013-02-26 The purpose of this book is to develop a theory and practice of education from Karl Popper's non justificationist philosophy for promoting an open society Specifically the book is designed to develop an educational programme for fostering critical thinking in children particularly when they are involved in group discussion The study conducted an experiment to assess the effectiveness of Matthew Lipman's Philosophy for Children P4C programme in promoting Hong Long Chinese children's critical thinking Forty two Secondary 1 students volunteered for the experiment from whom 28 students were randomly selected and randomly assigned to two groups of 14 each one receiving P4C lessons and the other receiving English lessons The students who were taught P4C were found to perform better in the reasoning test than those who were not to be capable of discussing philosophical problems in a competent way and to have a very positive attitude towards doing philosophy in the classroom It was also found that P4C played a major role in developing the students critical thinking Considering that the construction of children by adults as incompetent in the sense of lacking reason maturity or independence reinforces the traditional structure of adult authority over children in society it runs counter to the goal of fostering critical thinking in children As a way to return justice to childhood and to effectively promote critical thinking in children the present study suggested reconstructing the concept of childhood highlighting the importance of establishing a coherent public policy on promotion of agency in children and also the importance of empowering them to participate actively in research legal and educational institutions      **Improving Inquiry in Social Science** Richard E.
