Rangwala,2022-05-05 TORONTO STAR 1 BESTSELLER GLOBE AND MAIL AND AMAZON BESTSELLER WE Charity had changed the game In its 25 years the international development charity and youth empowerment movement impacted lives the world over Innovation was at its core while most charities focus on making the world a better place for our children WE Charity focused on making better children for our world Founded by the ubiquitous Kielburger brothers WE Charity operated more like a Silicon Valley start up than a traditional NGO From creating stadium filling events with A list celebrity ambassadors to building schools infrastructure a hospital and even a university at lightning speed the organization was always full throttle Its for profit partner ME to WE filled shelves with socially conscious products that allowed consumers to track the impact of their spending invited young people and families to visit and work in communities WE Charity supported and channelled proceeds back into the charity to make it self sustaining Unique and disruptive WE generated energy engagement and accolades But it also bred misunderstanding and in some quarters resentment With a long history of propelling youth to act in support of myriad causes making doing good doable the slogan went WE Charity was the ideal candidate to administer the Canada Student Services Grant CSSG program The program if it had happened involved matching students within non profits in a summer in which Covid had stolen most job opportunities And then WE Charity in Canada was gone It didn t crumble It crashed Unwittingly caught in the crosshairs of a partisan fight that reflects the increasing Americanization of Canadian politics WE Charity was forced to shutter its doors in Canada Once a media darling with politicians of all stripes clamouring to appear at its events the charity was suddenly a pariah accused falsely of a litany of wrongdoings political cronyism governance failures heavy handed decision making by executives lining the pockets of the founders manipulating children mistreating donors racism and international corruption Many were shocked Detractors were delighted Led by fringe

commentators the media quickly piled on Allies who spoke out were castigated and forced to take cover But while most Canadians have heard of the so called WE Charity Scandal at times forming strong views few are able to recount the true facts Misperceptions and confusion have ruled the day And many of the most important voices including those of educators and young people have gone unreported and unheard In this book former WE board member and lawyer Tawfiq Rangwala unpacks the evidence and provides the critical context around the headline grabbing controversies that have shaped the narrative Drawing on the factual record his personal experiences inside the organization and extensive interviews with supporters and critics Rangwala cuts through the fog and explains what really happened why it happened and who should be held to account The author goes even deeper with insightful compassionate and heartbreaking interviews with WE supporters benefactors and the politicians that used the awarding of the contract during the global pandemic crisis to paint a picture of conflicts of interest and special favours by the Prime Minister Along the way we learn what has been lost and the personal cost to Canadians and people around the world More than just a story of the rise and fall of an iconic global charity this is a cautionary tale of the collateral damage that can be levelled by unchecked partisan politics social media pundits and sensationalist headlines In the end Canadians are left to ponder whether the real scandal is the demise of WE Charity and the values of fair play and due process that most of us hold dear Handbook of Automated Essay Evaluation Mark D.

Fewer Rules, Better People Barry Lam, 2025-02-11 A philosopher argues that the proliferation of rules and mandates is making us dumber less moral more deceptive and less able to govern important institutions Wherever there s a rule there is someone with the power to apply or ignore it or add to it in the interest of justice From enforcing chores to issuing life sentences decision makers deliver flawed and sometimes arbitrary outcomes But is their use of discretion good or bad overall As a society should we seek to minimize or maximize discretion with all its potential for bias and other kinds of human error Reframing our understanding of justice and ethics philosopher Barry Lam argues that while use of discretion whether by a sports referee a parent a police officer or a judge can never be perfect removing it has even more problematic effects Mandatory arrests and sentencing laws have not eliminated bias but have corrupted the courtroom institutionalized lying and brought about even more unjust and arbitrary results Fewer Rules Better People is a bold riveting treatise that sheds new light on political debates about law and justice while aiming to
