**Scorpio** Sami Bsoul, 2019-03-12 These days you see so many books on zodiac signs being published that are not only completely boring but are also filled with stuff that is nothing more than cotton candy fluff with regard to astrology These books mostly focus on trade or the commercial value of the text rather than authenticity Through Scorpio The Deepwater the author will mostly not distinguish between Scorpio women men or birth charts Dear Scorpio the intensity level of your energy varies other than that your soul does understand time and is not defined by time or by gender Even the stars care nothing for human ideas of gender Therefore Sami does not accept the idea that different genders express different aspects of their signs The author wants only to capture the real essence of the Scorpio and reinforce of people own knowledge about the sign This book is an awareness step made to the larger audience to understand how deep and passionate scorpions are into everything that they lay their hands upon Sami is bringing the general description about Scorpio alike in manner within or wherever their sun is sitting in their chart Scorpions are some of the most captivating people that you will ever come across in your life yet at the same time they are some of the most mysterious individuals as well They have an incredibly powerful presence that you can certainly not ignore under any circumstances Regardless of all that Scorpions have earned a bad reputation over the years being called as some of the strongest personalities to handle All the mentioned above makes this book incredibly important to all people who need to learn about the things that they may need to know in order to get the most out of their relationship with your Scorpio Thus do not wait too long Take all the help you can get and find the perfect harmony between you and your Scorpio

Baker,2014-04-04 Esoteric Astrology A New Astrology for a New Millennium Volume One The Signs Planets and Houses of the Horoscope This publication takes a new and revitalised look at astrology It is simple to understand yet remains a powerful tool capable of providing a solid foundation for the comprehension of this broad and magnificent subject This textbook like most of Dr Baker s printed books eBooks and DVDs enhances your studies via many charts lists tables and images over 100 in this one This major work is a very comprehensive introduction for those who want to study this subject in earnest and for the more advanced student it will serve as an essential reference manual In today s computer based world it is no longer necessary to spend hours calculating a horoscope when the most modest PCs can do it in seconds and with 100% accuracy Consequently the needless paraphernalia usually associated with learning astrology has been stripped away Emphasis is placed on the application of astrology to the unique problems of the modern world its use as a method of revealing purpose and meaning in life and ultimately as a key to the psychosynthesis of personality The horoscope is described in comprehensive detail with special attention given to the esoteric ruling planets of the zodiac signs which are more relevant than orthodox rulers in the charts of spiritually minded people The new rulers also accommodate the immense changes in external conditions and inner consciousness that have occurred in the last hundred years and are related to a new

range of experience which the brain registers as the externa of the modern world The significance of karma is represented for it gives dramatic effect to our daily actions and the third factor of esoteric psychology lying beyond our understanding of heredity and environment is given full prominence This integrative and enriching work can be read alone as a fascinating introduction and foundation to the New Astrology or can be followed up with the author s extensive range of astrological books and video tapes audio lectures and the all embracing Dictionary of Astrology for the 21st Century Together they provide a complete system for the professional and novice alike containing efficient and extraordinary techniques of interpretation which have never been used before and which halve the time required to assimilate and practise astrology
