Early Modern Britain, 1450-1750 John Miller, 2017-04-13 A wide ranging survey of the political social cultural and economic history of early modern Britain offering a fully integrated four nation perspective **The Cambridge Social History of Britain, 1750-1950** F. M. L. Thompson, 1990 Whilst in certain quarters it may be fashionable to suppose that there is no such thing as society historians have had no difficulty in finding their subject The difficulty rather is that the advance has occurred through such an outpouring of research and writing that it is hard for anyone but the specialist to keep up with the literature or grasp the overall picture In these three volumes as is the tradition in Cambridge Histories a team of specialists has assembled the jigsaw of recent monographic research and presented an interpretation of the development of modern British society since 1750 from three complementary perspectives those of regional communities of the working and living environment and of social institutions Each volume is self contained and each contribution thematically defined contains its own chronology of the period under review Taken as a whole they offer an authoritative and comprehensive view of the manner and method of the shaping of society in the two centuries of unprecedented demographic and economic change **Migration And Mobility In Britain Since The Eighteenth Century** Colin Pooley, Jean Turnbull, 2005-10-05

Population migration is one of the demographic and social processes which have structured the British economy and society over the last 250 years It affects individuals families communities places economic and social structures and governments This book examines the pattern and process of migration in Britain over the last three centuries Using late 1990s research and data the authors have shed light on migrations patterns including internal migration and movement overseas its impact on social and economic change and highlights differences by gender age family position socio economic status and other variables , **The Removal of Irish Paupers from Britain** Lewis Darwen, Donald MacRaild, 2024-11-29 During the nineteenth century local officials sought to deal with their Irish pauper problem by removing these poor migrants back to Ireland under the laws of settlement and removal Over the course of the century hundreds of thousands of Irish paupers were forcibly repatriated in this way Even though the settlement rights of Irish immigrants gradually improved over time removals were still taking place into the twentieth century The system was widely recognised as being cruel and unfair especially in Ireland where the removal of Irish paupers from Britain garnered considerable political and press attention Much was made of the illegality of some removals and of harsh removals involving widowed women children and the elderly This book which is the first sustained study of repatriation from Britain demonstrates a persistent theme the marginal nature of Irish life on the larger island Drawing on extensive research from newspaper sources and parliamentary papers it presents an original and richly detailed perspective on Irish immigration poverty and pauperism in nineteenth century Britain

thinker Hume the historian and Hume the political economist and highlights the social economic and institutional changes which he wove into an innovative theory of causation The first part of the book considers Hume's account of the fundamental rationale of maritime trade and England's unique approach to liberty in the modern era The second part looks at his views concerning the profound impact of maritime trade on English politics From his perspective the problem of how to cope with the challenges posed by the commercial revolution in eighteenth century Britain was closely linked to the question of how transoceanic trade had fundamentally recast English politics from the sixteenth century onwards This study shows how these two narratives were interwoven into Hume's History and will be of interest to scholars and students not only of David Hume and political theory but of historiography eighteenth century British history and Enlightenment studies JIA WEI received her PhD from the University of Cambridge
