After the Hector Lucille H. Campey, 2007-05-15 This is the first fully documented and detailed account produced in recent times of one of the greatest early migrations of Scots to North America The arrival of the Hector in 1773 with nearly 200 Scottish passengers sparked a huge influx of Scots to Nova Scotia and Cape Breton Thousands of Scots mainly from the Highlands and Islands streamed into the province during the late 1700s and the first half of the nineteenth century Lucille Campey traces the process of emigration and explains why Scots chose their different settlement locations in Nova Scotia and Cape Breton Much detailed information has been distilled to provide new insights on how why and when the province came to acquire its distinctive Scottish communities Challenging the widely held assumption that this was primarily a flight from poverty After the Hector reveals how Scots were being influenced by positive factors such as the

opportunity for greater freedoms and better livelihoods The suffering and turmoil of the later Highland Clearances have cast a long shadow over earlier events creating a false impression that all emigration had been forced on people Hard facts show that most emigration was voluntary self financed and pursued by people expecting to improve their economic prospects A combination of push and pull factors brought Scots to Nova Scotia laying down a rich and deep seam of Scottish culture that continues to flourish Extensively documented with all known passenger lists and details of over three hundred ship crossings this book tells their story The saga of the Scots who found a home away from home in Nova Scotia told in a straightforward unembellished no nonsense style with some surprises along the way This book contains much of vital interest to historians and genealogists Professor Edward J Cowan University of Glasgow a well written crisp narrative that provides a useful outline of the known Scottish settlements up to the middle of the 19th century avoids the sentimental victim scapegoat approach to the topic and instead has provided an account of the attractions and mechanisms of settlement Professor Michael Vance St Mary's University Halifax [The People's Clearance](#) J.M. author to share information Nineteenth-Century Cape Breton Stephen J. Hornsby, 1992-03-24 During the North American colonial period the expansion of European capital and labour into North America created two broad patterns of regional development agricultural settlement and the exploitation of raw materials or staples Hornsby examines the development of nineteenth century Cape Breton in light of these patterns focusing on the impact of Scottish immigration on the island s settlement and agricultural development and on the role of mercantile and industrial capital in developing Cape Breton s two great staple industries cod fishing and coal mining Hornsby also outlines the reasons for the massive exodus from Cape Breton during the late nineteenth century The intersection of these two patterns of development gave rise to a distinctive regional geography Over the course of a hundred years a complex mosaic of different settlements economies and cultures emerged on the island While the details and circumstances of these developments were unique to the island elements of the Cape Breton experience were found in other areas of Maritime Canada Viewed more generally Hornsby suggests that the historical geography of this small peripheral island offers a simple somewhat stark encapsulation of some of the salient developments in the rest of settled Canada during the nineteenth century *Crofters and Habitants* John Irvine Little, 1991 In *Crofters and Habitants* J I Little examines the ways in which two highly distinct social groups Gaelic speaking crofters from the Isle of Lewis in the Outer Hebrides and French speaking habitants from south of Quebec City adapted to a common physical environment in the rugged Appalachian plateau of south eastern Quebec *Flight from Famine* Donald MacKay, 2009-03-23 Winner of the 1991 QSPELL Prize for Non fiction One of Canada s founding peoples the Irish arrived in the Newfoundland fishing stations as early as the seventeenth century By the eighteenth century they were establishing farms and settlements from Nova Scotia to the Great Lakes Then in the 1840s came the failures of Ireland s potato crop which people in the west of Ireland had depended on for survival And that wrote a Sligo countryman was the beginning of the great trouble and famine that destroyed Ireland *Flight from Famine* is the moving account of a Victorian era tragedy that has echoes in our own time but seems hardly credible in the light of Ireland s modern prosperity The famine survivors who helped build Canada in the years that followed Black 47 provide a testament to courage resilience and perseverance By the time of Confederation the Irish population of Canada was second only to the French and four million Canadians can claim proud Irish descent The Atlantic Region to Confederation John H. Reid, 1994-01-01 The Atlantic region covers the provinces of New Brunswick Nova Scotia Prince Edward Island and Newfoundland *Ethnic Elites and Canadian Identity* Aya Fujiwara, 2012-11-30 Ethnic elites the influential business owners teachers and newspaper editors within distinct ethnic communities play an important role as self appointed mediators between their communities and mainstream societies In *Ethnic Elites and Canadian Identity* Aya Fujiwara examines the roles of Japanese Ukrainian and Scottish elites during the transition of Canadian identity from Anglo conformity to ethnic pluralism By comparing the strategies and discourses used by each community including rhetoric myths collective memories and symbols she reveals how prewar community leaders were

driving forces in the development of multiculturalism policy In doing so she challenges the widely held notion that multiculturalism was a product of the 1960s formulated and promoted by mainstream Canadians and places the emergence of Canadian multiculturalism within a transnational context **Traditional Gaelic Bagpiping, 1745-1945** John G.

Gibson,1998-09-30 The bagpipe is one of the cultural icons of Scottish highlanders but in the twentieth century traditional Scottish Gaelic piping has all but disappeared Few recordings were ever made of traditional pipe music and there are almost no Gaelic speaking pipers of the old school left Recording an important aspect of Gaelic culture before it disappears John Gibson chronicles the decline of traditional Highland Gaelic bagpiping and Gaelic culture as a whole and provides examples of traditional bagpipe music that have survived in the New World Pulling together what is known of eighteenth century West Highland piping and pipers and relating this to the effects of changing social conditions on traditional Scottish Gaelic piping since the suppression of the last Jacobite rebellion Gibson presents a new interpretation of the decline of Gaelic piping and a new view of Gaelic society prior to the Highland diaspora Refuting widely accepted opinions that after Culloden pipes and pipers were effectively banned in Scotland by the Disarming Act 1746 Gibson reveals that traditional dance bagpiping continued at least to the mid nineteenth century He argues that the dramatic depopulation of the Highlands in the nineteenth century was one of the main reasons for the decline of piping Following the path of Scottish emigrants Gibson traces the history of bagpiping in the New World and uncovers examples of late eighteenth century traditional bagpiping and dance in Gaelic Cape Breton Nova Scotia He argues that these anachronistic cultural forms provide a vital link to the vanished folk music and culture of the Scottish highlanders This definitive study throws light on the ways pipers and piping contributed to social integration in the days of the clan system and on the decline in Scottish Gaelic culture following the abolition of clans It also illuminates the cultural problems faced by all ethnic minorities assimilated into unitary multinational societies
