**Empirical Analysis of Entrepreneurship and Economic Growth** André van Stel,2006-06-15 The importance of entrepreneurship for achieving economic growth in contemporary economies is widely recognized both by policy makers and economists It is deeply embedded in the current European policy approach that the creativity and independence of entrepreneurs contribute to higher levels of economic activity Indeed according to the European Commission 2003 p 9 The challenge for the European Union is to identify the key factors for building a climate in which entrepreneurial initiative and business activities can thrive Policy measures should seek to boost the Union s levels of entrepreneurship adopting the most

appropriate approach for producing more entrepreneurs and for getting more firms to grow Audretsch 2003 p 5 states that Entrepreneurship has become the engine of economic and social development throughout the world The relation between entrepreneurship and economic growth is embedded in several strands of the economic literature A first strand of literature involves the general understanding of the role of entrepreneurship in the modern economy Seminal contributions were made by Schumpeter 1934 Knight 1921 and Kirzner 1973 These economists stress different aspects of the role of the entrepreneur While Schumpeter stresses the innovating aspect Knight stresses the risk assuming aspect Kirzner finally stresses the role of the entrepreneur in leading markets to equilibrium Acs 1992 discusses the contribution of small firms in modern economies
