Hopkins,2018-05-31 Re frames the computer animated film as a new genre of contemporary cinema The Scottish Question James Mitchell,2014-06-12 Over half a century ago a leading commentator suggested that Scotland was very unusual in being a country which was in some sense at least a nation but in no sense a state He asked whether something so anomalous could continue to exist in the modern world The Scottish Question considers how Scotland has retained its sense of self and how the country has changed against a backdrop of fundamental changes in society economy and the role of the state over the course of the union The Scottish Question has been a shifting mix of linked issues and concerns including national identity Scotland s constitutional status and structures of government Scotland s distinctive party politics and everyday public policy In this volume James Mitchell explores how these issues have interacted against a backdrop of these changes He concludes that while the independence referendum may prove an important event there can be no definitive

answer to the Scottish Question The Scottish Question offers a fresh interpretation of what has made Scotland distinctive and how this changed over time drawing on an array of primary and secondary sources It challenges a number of myths including how radical Scottish politics has been and suggests that an oppositional political culture was one of the most distinguishing features of Scottish politics in the twentieth century A Scottish lobby consisting of public and private bodies became adept in making the case for more resources from the Treasury without facing up to some of Scotland's most deep rooted problems

Scottish Home Rule Ben Thomson, 2020-11-11 A proponent of Scottish Home Rule offers a clear and concise introduction to the merits of the policy and the history of the movement Every debate about the Scottish constitution should include the topic of Scottish Home Rule and if there is to be another referendum in Scotland then Home Rule should be one of the options on the ballot paper Yet for all its importance Home Rule is not widely understood The proposal is seen by many Unionists as the slippery slope to Independence Meanwhile Independence supporters regard it as a Unionist proposal to retain sovereignty over Scotland It is however a strong proposal in its own right with a separate history from Independence and a more likely steppingstone to Federalism This book lays out the merits of Scottish Home Rule as the best solution for Scotland It covers the history of support for the Home Rule option since 1860s a clear outline of how it works and a discussion about how it could both improve Scotland and act as a framework for constitutional reform across the UK

Commons - International Development Committee: Implications for Development in the Event of Scotland

Becoming and Independent Country - HC 692 Great Britain: Parliament: House of Commons: International Development Committee, 2013-12-19 The UK's aid programme much of which is delivered from Scotland is genuinely transformational. The UK provided 8.7 billion of aid in 2012-13 but it is the quality of this aid not just its quantity which sets the UK apart. As part of the UK, Scotland makes a tremendous contribution to all this. If Scotland were to become an independent country its development agency would inevitably be a much smaller player. From 2013 onwards the UK Government plans to spend 0.7% of Gross National Income on Official Development Assistance. If Scotland were to become independent the UK's overall GNI and the amount of money it spends on ODA would fall. Scotland has 8.3% of the UK's population share so we estimate that the UK's ODA would fall by around 8.3% or 1 billion. DFID's work either its bilateral programmes or its funding to multilateral organisations would inevitably then be subject to cuts. MPs are also concerned that during any transitional period the restructuring of DFID and the setup of an independent Scottish development agency would divert management attention towards restructuring and away from frontline delivery by both agencies. In addition a significant proportion of DFID's workforce is based at its Scottish office in East Kilbride including a number of senior staff. By contrast the number of jobs available with an independent Scottish development agency is likely to be relatively few or the new Scottish development agency would be heavily overstaffed. The impact on jobs would therefore be substantial.
