Jason Marc Harris's ambitious book argues that the tensions between folk metaphysics and Enlightenment values produce the literary fantastic. Demonstrating that a negotiation with folklore was central to the canon of British literature, he explicates the complicated rhetoric associated with folkloric fiction. His analysis includes a wide range of writers including James Barrie, William Carleton, Charles Dickens, George Eliot, Sheridan Le Fanu, Neil Gunn, George MacDonald, William Sharp, Robert Louis Stevenson, and James Hogg. These authors, Harris suggests, used folklore to articulate profound cultural ambivalence towards issues of class, domesticity, education, gender, imperialism, nationalism, race, politics, religion, and metaphysics. Harris's analysis of the function of folk metaphysics in nineteenth and early twentieth century narratives reveals the ideological agendas of the appropriation of folklore and the artistic potential of superstition in both folkloric and literary contexts of the supernatural. **History of British Folklore** Richard Mercer Dorson, 1999. Mystery and excitement abound in this lively collection of fairy tales, folklore, and legends which celebrate Scotland's enormously rich oral tradition and offers a carefully chosen combination of old favourites such as Tam Lin, Thomas Rymer, and Adam Bell, as well as more modern stories by master story tellers like Andrew Lang, Sir Arthur Conan Doyle, and John Buchan.

Strange and Secret Peoples Carole G. Silver, 2000-10-12. Teeming with creatures both real and imagined, this encyclopedic study in cultural history illuminates the hidden web of connections between the Victorian fascination with fairies and their lore and the dominant preoccupations of Victorian culture at large. Carole Silver here draws on sources ranging from the anthropological, folkloric, and occult to the legal, historical, and medical. She is the first to anatomize a world peopled by strange beings who have infiltrated both the literary and visual masterpieces and the minor works of the writers and painters of that era. Examining the period of 1798 to 1923, *Strange and Secret Peoples* focuses not only on such popular literary figures as Charles Dickens and William Butler Yeats, but on writers as diverse as Thomas Carlyle, Arthur Conan Doyle, and Charlotte Mew, on artists as varied as J.M.W. Turner, Richard Dadd, Aubrey Beardsley, and Sir Joseph Noel Paton, and on artifacts ranging from fossil skulls to photographs and vases. Silver demonstrates how beautiful and monstrous creatures, fairies, and swan maidens, goblins, and dwarfs, cretins, and changelings, elementals, and pygmies simultaneously peopled the Victorian imagination and inhabited nineteenth century science and belief. Her book reveals the astonishing complexity and fertility of the Victorian consciousness, its modernity and antiquity, its desire to naturalize the supernatural, its pervasive eroticism fused with sexual anxiety, and its drive for racial and imperial dominion.
