South: Scott and Amundsen's Race to the Pole Hunter Stewart, 2015-10-08 The race to reach the South Pole for the first time was an unparalleled adventure in the early twentieth century South by historian Hunter Stewart chronicles the competition between two fierce rivals Robert F Scott and Roald Amundsen to secure their place in history as the first man to lead an expedition to the most uninhabitable place on earth South dramatically tells the story of the quest that is marked by heartbreak greed ego and bravery not only by Scott and Amundsen but by the courageous crews and financial backers who supported them The journey to reach the South Pole was truly as it was later called The Heroic Age of Arctic Exploration

The Last Place on Earth Roland Huntford, 2000 At the beginning of the twentieth century the South Pole was the most coveted prize in the fiercely nationalistic modern age of exploration In the brilliant dual biography the award winning writer Roland Huntford re examines every detail of the great race to the South Pole between Britain's Robert Scott and Norway's Roald Amundsen Scott who dies along with four of his men only eleven miles from his next cache of supplies became Britain's beloved failure while Amundsen who not only beat Scott to the Pole but returned alive was largely forgotten This account of their race is a gripping highly readable history that captures the driving ambitions of the era and the complex often deeply flawed men who were charged with carrying them out THE LAST PLACE ON EARTH is the first of Huntford's masterly trilogy of polar biographies It is also the only work on the subject in the English language based on the original Norwegian sources to which Huntford returned to revise and update this edition **Race for the South Pole** Roland
