The World's Creepiest Places Dr. Bob Curran, 2011-10-15 There are some places in the world where humans quite simply should not go Not just haunted places but sites where ancient forces still hold sway We can recognize such locations by the responses they evoke within us that feeling we call the creeps But just where are these places and why do they terrify us In *The World's Creepiest Places* Dr Curran visits some of these sites looking at their history and traditions and exploring the creepy feeling they evoke in people who have been there His travels range widely from his native Ireland and through the empty deserts of the Middle East to the misty hills of Tibet and back through Europe to America He's not only looking for ghosts but also for sinister people vampires the living dead doorways to other worlds even venturing close to the Gates of Hell itself This is not just a ghostly travel book It's for those who want to explore the weird out of the way locations of our planet and test the boundaries of the reality many of us take for granted We dare you to take the journey with us

How the Country House Became English Stephanie Barczewski, 2023-09-19 The story of how the country house historically a site of violent disruption came to symbolize English stability during the eighteenth century Country houses are quintessentially English not only architecturally but also in that they embody national values of continuity and insularity The English country house however has more often been the site of violent disruption than continuous peace So how is it that the country house came to represent an uncomplicated nostalgic vision of English history This book explores the evolution of the country house beginning with the Reformation and Civil War and shows how the political events of the eighteenth century which culminated in the reaction against the French Revolution led to country houses being recast as symbols of England's political stability

Keats and Romantic Celticism C. Gallant, 2005-06-01 The Celtic Revival began more than a century before Yeats and the Irish Literary Renaissance *Keats and Romantic Celticism* is the first book to consider the pervasive influence of period Celticism upon Keats's work from the Druidism that underlies his unfinished epics to the Celtic derived folklore that his poetry draws upon Christine Gallant shows that more than two hundred and fifty traditional folklore motifs of the faerie fill his major poems as well as minor epistolary ones that have been critically neglected

The Function of Song in Contemporary British Drama Elizabeth Hale Winkler, 1990 This comprehensive study formulates an original theory that dramatic song must be perceived as a separate genre situated between poetry music and theater It focuses on John Arden Margaretta D'Arcy Edward Bond Peter Barnes John Osborne Peter Nichols Harold Pinter Tom Stoppard Peter Shaffer and John McGrath

Henry VIII and Francis I David Linley Potter, 2011-05-10 The aim of this book is to explore the neglected subject of the final war between France and England at the end of Henry VIII's and Francis I's reigns The relationship between these two monarchs has long fascinated historians and serious work has been done in the last generation especially on the earlier period Rather less has been done on the end of their reigns The perspective is a dual one from both that of England and France with equal weight given to the reasons for

conflict and the effects of war on both on land and sea in France and Scotland For England the military effort of the period proved to be extremely damaging and long lasting while France found itself at war on two fronts for the first time since the early 1520s The book therefore asks why Henry VIII opted for the imperial alliance in 1542 thus committing himself to war in the long term and why Francis I and his advisers did not do more to win over the English alliance The Anglo French war needs to be placed firmly in the context of the great Habsburg Valois dual The Anglo French wars of this period have not received any serious modern analysis and the study of diplomacy in the period needs to be updated Maps and plans are included and some illustrations

Henry VIII and Francis I David Potter, 2011-05-10 This book based on a wide variety of contemporary sources re examines the little studied late war between Henry VIII and Francis I in order to assess its impact on both countries and its influence on strategies and tactics for waging war and making peace in the 1540s

The Makers of Scotland Tim Clarkson, 2012-09-28 During the first millennium AD the most northerly part of Britain evolved into the country known today as Scotland The transition was a long process of social and political change driven by the ambitions of powerful warlords At first these men were tribal chiefs Roman generals or rulers of small kingdoms Later after the Romans departed the initiative was seized by dynamic warrior kings who campaigned far beyond their own borders Armies of Picts Scots Vikings Britons and Anglo Saxons fought each other for supremacy From Lothian to Orkney from Fife to the Isle of Skye fierce battles were won and lost By AD 1000 the political situation had changed for ever Led by a dynasty of Gaelic speaking kings the Picts and Scots began to forge a single unified nation which transcended past enmities In this book the remarkable story of how ancient North Britain became the medieval kingdom of Scotland is told
