Scottish Quakers And Early America 1650 1700:

Scottish Quakers and Early America, 1650-1700 David Dobson, 1998 Mr Dobson continues with his series of booklets pertaining to unexplored aspects of Scottish genealogy The first of these new titles is his Scottish Quakers and Early America the aim of which is to identify members of the Society of Friends in Scotland prior to 1700 and the Scottish origins of many of the Quakers who settled in East Jersey in the 1680s Quakerism came to Scotland with the Cromwellian occupation of the 1650s Scottish missionaries eventually spread the faith to various locations throughout the country including Aberdeen in the Northeast Edinburgh and Kelso in the southeast and Hamilton in the west The Society of Friends never grew to large numbers in Scotland however owing to its persecution by both the Episcopal and Presbyterian churches as well as civic authorities Understandably a number of Scottish Quakers ultimately emigrated to the North American colonies for example there were some Scottish Quakers among the landowners of West Jersey as early as 1664 and between 1682 and 1685 several shiploads of emigrants left the ports of Leith Montrose and Aberdeen for East Jersey Drawing upon research conducted in both Scotland and the United States in manuscript and in published sources David Dobson has here amassed all the genealogical data that we know of concerning members of the Society of Friends in Scotland prior to 1700 and the origins of Scottish Quakers living in East New Jersey in the 1680s While there is great deal of variation in the descriptions of the roughly 500 Scottish Quakers listed in the volume the entries typically give the individual's name date or place of birth and occupation and sometimes the name of a spouse or date of marriage name of parents place and reason for imprisonment in Scotland place of indenture date of death and the source of the information Without a doubt this is a ground breaking work on the subject of Scottish emigration to North America during the colonial period

Scottish Communities Abroad in the Early Modern Period, 2021-09-20 Migration is a fundamental feature of human experience This extraordinary collection of essays focuses on a particularly intriguing sequence of migrations those of Scots during the period 1600 1800 The book first considers the near abroad Ireland the middle abroad Poland and Lithuania and the far abroad the Americas and then details a number of acutely revealing case histories of Scottish communities in Bergen Norway Rotterdam and the Maas the Netherlands Gothenburg Sweden Kdainiai Lithuania and Hamburg Germany Then concentrating on the Netherlands the focus shifts to specific cultural occupational milieux exiles usually for religious reasons students and soldiers or sailors In conclusion three leading scholars Lex Heerma van Voss S lvi S gner and Thomas O Connor offer wider contextual perspectives that compare the Scottish experience with that of other countries As Professor T C Smout says in his Foreword The present volume is a breakthrough surely the biggest advance in the field for a hundred years Contributors include Douglas Catterall David Dobson Patrick Fitzgerald Ginny Gardner Alexia Grosjean Lex Heerma van Voss Waldemar Kowalski Andrew Little Esther Mijers Steve Murdoch Thomas O Connor Nina stby Pedersen T C Smout S lvi Sogner Kathrin Zickermann and Rimantas Irgulis

The Quakers, 1656-1723 Richard C. Allen, Rosemary Moore, 2018-11-02 This

landmark volume is the first in a century to examine the Second Period of Quakerism a time when the Religious Society of Friends experienced upheavals in theology authority and institutional structures and political trajectories as a result of the persecution Quakers faced in the first decades of the movement's existence The authors and special contributors explore the early growth of Quakerism assess important developments in Quaker faith and practice and show how Friends coped with the challenges posed by external and internal threats in the final years of the Stuart age not only in Europe and North America but also in locations such as the Caribbean This groundbreaking collection sheds new light on a range of subjects including the often tense relations between Quakers and the authorities the role of female Friends during the Second Period the effect of major industrial development on Quakerism and comparisons between founder George Fox and the younger generation of Quakers such as Robert Barclay George Keith and William Penn Accessible well researched and seamlessly comprehensive The Quakers 1656-1723 promises to reinvigorate a conversation largely ignored by scholarship over the last century and to become the definitive work on this important era in Quaker history In addition to the authors the contributors are Erin Bell Raymond Brown J William Frost Emma Lapsansky Werner Robynne Rogers Healey Alan P F Sell and George Southcombe

printed propaganda produced by the Scots and the English makes it clear that both nations defined their positions and gained support in overtly religious terms During their decade long occupation of Scotland the English Commonwealth actively sought to undermine Scottish Presbyterianism Public disputes public preaching and Scotland's printing presses were all used to weaken the influence of the Kirk while eager English soldiers and chaplains tried to convert Scots to their own particular religious sects Policies of the Scottish Kirk and State in the previous decade had ostracised a significant portion of the Scottish people As a result English missionaries found some Scots eager to hear alternative forms of Protestantism preached Dispelling myths that the sectarian presence had little impact on Scottish religion this book describes the endeavours of the Independents Baptists and Quakers to gain converts with varying degrees of success **Midwest Historical and Genealogical Register** ,2001 **Footprints** ,1999 **Everton's Genealogical Helper** ,2000-07

Quakers, Christ, and the Enlightenment Madeleine Pennington,2021-03-04 The Quakers were by far the most successful of the radical religious groups to emerge from the turbulence of the mid seventeenth century and their survival into the present day was largely facilitated by the transformation of the movement during its first fifty years What began as a loose network of charismatic travelling preachers was by the start of the eighteenth century a well organised and international religious machine This shift is usually explained in terms of a desire to avoid persecution but Quakers Christ and the Enlightenment argues instead for the importance of theological factors as the major impetus for change In the first sustained account of the theological changes guiding the development of seventeenth century Quakerism Madeleine Pennington explores the Quakers positive intellectual engagement with those outside the movement to offer a significant reassessment of the causal factors determining the development of early Quakerism Considering the Quakers engagement with such luminaries as Baruch Spinoza Henry More John Locke and John Norris Pennington unveils the Quakers concerted attempts to bolster their theological reputation through the refinement of their central belief in the inward Christ or the Light within In doing so she further challenges stereotypes of early modern radicalism as anti intellectual and ill educated Rather the theological concerns of the Quakers and their interlocutors point to a crisis of Christology weaving through the intellectual milieu of the seventeenth century which has long been underestimated as significant fuel for the emerging Enlightenment
