

A woman is shown from the back, her arms raised with hands on her hips. She is wearing a dark, possibly black, strapless top. The scene is dramatically lit with strong red and blue light, creating a high-contrast, moody atmosphere. The background is dark, and the overall composition is centered.

Show Me Microsoft Office Excel 2003 Steve Johnson, 2003 Microsoft Office Excel 2003 provides powerful new tools with which to create, analyze and share spreadsheet information. Excel 2003 takes advantage of the latest technologies such as XML and Microsoft SharePoint to extend desktop productivity and workspace collaboration over an intranet or the Internet. This book covers these changes as well as smart tags which are far more flexible in Excel 2003 and several statistical functions that have been improved to make data analysis easier. Show Me's visual format highlights these usability features for new or upgrading users, especially those upgrading from Office 97 or Office 2000. Though Excel 2003 has the fewest changes of all the Office applications, new and upgrading users will need a resource to quickly get them working with the software. This book's succinct yet complete coverage does just that. Additional features of this book include a Troubleshooting Guide to help solve common problems and a Project Guide with a listing of real world projects by feature as well as a MOS Exam Guide with a complete listing of MOS objectives and page numbers to locate the objectives. This feature gives the series a definite advantage over competing visual titles.

Show Me Microsoft Office PowerPoint 2003 Steve Johnson, 2003 PowerPoint 2003 provides powerful new tools with which to create presentations more easily, illustrate ideas more powerfully and share it all in any setting from meeting rooms to the Web. Based on a proven, successful series format, this book uses a visual page design with easy-to-read text to teach beginning to intermediate level PowerPoint tasks. Troubleshooting guides, sample projects and MOS objectives add even more for the ambitious learner. Author Steve Johnson is a professional trainer and author of several best-selling books.

Show Me All Your Scars Lee Gutkind, 2016-07-17 Every year one in four American adults suffers from a diagnosable mental health disorder. In these true stories, writers and their loved ones struggle as their worlds are upended. What do you do when your father kills himself or your mother is committed to a psych ward or your daughter starts hearing voices telling her to harm herself or when you yourself hear such voices? Addressing bipolar disorder, OCD, trichillomania, self-harm, PTSD and other diagnoses, these stories vividly depict the difficulties and sorrows and sometimes too the unexpected and surprising rewards of living with mental illness.

Mama Please Love Me (Just Give Me a Hug) Cotia Saunders, 2011-03 Some teenagers tend to rebel outwardly or inwardly against their parents and their families. They allow peer pressure, raging hormones or other things to drive a wedge between them and the people who love them the most. On the other hand, many children and teenagers have become victims of abuse by their parents or their families. Through the early years of my life, my mother and other family members tried to destroy me as I was growing up. This is a gripping true story of abuse, hatred, rejection and near-death experiences.
