Down the Amur to the Pacific, 1856-1857. New Ed. of A Voyage Down the Amoor. D., Introd. by Charles Vevier](#) Perry MacDonough Collins,Charles Vevier,1962 **Beyond the Amur** Victor Zatspine,2017-03-09 Beyond the Amur describes the distinctive frontier society that emerged in the Amur a river region that shifted between Qing China and Imperial Russia as the two empires competed for resources Official histories depict the Amur as a distant battleground caught between rival empires Zatspine by contrast views it as a unified natural economy populated by Chinese Russian Indigenous Japanese Korean Manchu and Mongol people who crossed the border in search of work or trade and who came together to survive a harsh physical environment This colourful account of a region and its people highlights the often overlooked influence of frontier developments on state politics and imperial policies and histories **Constructing Industrial Pasts** Stefan Berger,2019-09-01 Since the 1960s nations across the developed world have been profoundly shaped by deindustrialization

In regions in which previously dominant industries faced crises or have disappeared altogether industrial heritage offers a fascinating window into the phenomenon's cultural dimensions. As the contributions to this volume demonstrate even as forms of industrial heritage provide anchors of identity for local populations their meanings remain deeply contested as both radical and conservative varieties of nostalgia intermingle with critical approaches and straightforward apologies for a past that was often full of pain, exploitation and struggle.

Shamans, Lamas, and Evangelicals C. R. Bawden, 2024-11-01
First published in 1985 *Shamans, Lamas and Evangelicals* tells the little known yet fascinating story of a missionary venture to Eastern Siberia in the year 1818. Two missionaries, one English, one Swedish, with the tiresome voyage across the Baltic behind them, set out with their wives to face the daunting prospect of a 3000 mile journey by sledge across the rough snow roads of Siberia in the depths of winter. The mission was unusual in its conception. Established by the London Missionary Society and the backing of the Tsar, Alexander I, its aim was to bring the Christian gospel to the Buryats and once that was accomplished to cross into China, evangelize the Mongols there and then set about the conversion of the Chinese. The mission failed but it was nonetheless an extraordinary episode. It is the story of men who first had to learn Russian in order to teach themselves Mongolian, who brought up their families, founded schools, treated the sick and translated the entire Bible into Mongolian, printing the Old Testament on their own local press. This is an interesting historical reference work for scholars and researchers of Russian history and Mongolian history.

Between Heaven and Hell G. Diment, Y. Slezkine, 2016-04-30
Siberia has no history of independent political existence, no claim to a separate ethnic identity and no clear borders. Yet it could be said that the elusive country behind the Urals is the most real and the most durable part of the Russian landscape. For centuries Siberia has been represented as Russia's alter ego, as the heavenly or infernal antithesis to the perceived complexity or shallowness of Russian life. It has been both the frightening heart of darkness and a fabulous land of plenty, the House of the Dead and the realm of utter freedom, a frozen wasteland and a colourful frontier, a dumping ground for Russia's rejects and the last refuge of its lost innocence. The contributors to *Between Heaven and Hell* examine the origin, nature and implications of these images from historical, literary, geographical, anthropological and linguistic perspectives. They create a striking, fascinating picture of this enormous and mysterious land.

Vestal Fire Stephen J. Pyne, 2012-04-01
Stephen Pyne has been described as having a consciousness composed of equal parts: historian, ecologist, philosopher, critic, poet and sociologist. At this time in history, when many people are trying to understand their true relationship with the natural environment, this book offers a remarkable contribution, breathtaking in the scope of its research and exhilarating to read. Pyne takes the reader on a journey through time, exploring the terrain of Europe and the uses and abuses of its lands, as well as through migration and conquest, many parts of the rest of the world. Whether he is discussing the Mediterranean region, Russia, Scandinavia, the British Isles, central Europe or colonized islands, whether he is considering the impact of agriculture, forestry or Enlightenment thinking, the author brings an unmatched insight to his subject. *Vestal Fire* takes its title from Vesta

Roman goddess of the hearth and keeper of the sacred fire on Mount Olympus But the book s title also suggests the strengths and limitations of Europe s peculiar conception of fire and through fire of its relationship to nature Between the untamed fire of the wilderness and the tended fire of the hearth lies a never ending dialectic in which human beings struggle to control natural forces and processes that in fact can sometimes be directed but never wholly dominated or contained
